Yardlight Offers Farmer Many Advantageous Uses

Yardlights are among the most useful electrical devices on the farm. Such lights provide light for early morning and late evening chores, light up the farmyard for evening visitors, and aid in preventing accidents. They also help keep away human and animal prowlers.

Effective use of the yardlight requires switches in a number of places. One switch can be located in the house at a convenient point, such as the kitchen door. Other switches can be placed in the barn, milk house, or other farm buildings where it is necessary to do chores in early morning or late evening. It is a good idea to have a switch at the garage to light up the yard when coming home at night.

The conventional way of switching the yard light has been by three-way or four-way switches. These switches require three or four wires to each. For distances of more than 50 feet it is necessary to use No. 8 or heavier wire. In some cases this arrangement for switching the yardlight may be too expensive.

Recently, controls in the form of relays have become available for switching yardlights. Some operate on a 115-volt control circuit and others have a small transformer in the circuit to step the voltage down to 18 or 24 volts. These devices are sometimes called a one-wire control system.

ABC's of Good Lighting

Employers and employees alike suffer from the effect of faulty lighting. Eye strain from improper lighting leads to headaches and fatigue. This causes errors and slows the worker's efficiency and lowers his morale. But just adding more light will not necessarily produce better lighting. Good lighting should be free of glare and evenly distributed over the working areas. This often means that walls and ceilings need to be painted in light colors so they can be used as reflecting surfaces.

Full Marriage Record Necessary When Filing for Pension, VA States

Veterans Administration officials estimate four out of five veterans' widows who are suddenly faced with the necessity of filing claims for pensions meet with delay because they cannot immediately produce copies of public records necessary to establish the claims.

Mr. Leo. L. Haley, officer in charge of the Veterans Administration office in Grand Forks, said one of the most important steps a married veteran can take to protect his wife and children in case of his death is to obtain and keep readily available a certified copy of the public record of marriage, together with complete certified records of dissolution of any previous marriage of himself or his wife. Copies of birth certificates of all children also should be kept on hand, he added.

The VA official said one of the most common causes for delay results when the widow or her dead husband had been married previously and adequate proof of the dissolution of that marriage is not readily available.

Cost of Foot, Toe Injuries

Foot and toe contusions suffered by workers in the nation's industrial plants cost the employer an average of $22.06 per case, according to Occupational Hazards. Cost of the foot and toe injuries was determined after a three year study of 3,853 cases of industrial injury. Although the study was confined to cases in one plant at Peoria, Ill., the findings and cost figures have been found to be applicable within a few cents to industry generally.

REBURIAL RITES AT SNELLING FOR T-5 V. E. MOSBECK

Native of Black River Township Gave Life in Italy September 17, 1944

The body of the late T/5 Vernon E. Mosbeck has been returned to the United States for burial at Fort Snelling, with services being conducted this morning, by Rev. Walter M. Pedersen of this city.

T/5 Mosbeck was killed in action in Italy on Sept. 17, 1944. He was born March 7, 1920 in Black River township, where he made his home until he was inducted into the armed forces on Oct. 20, 1942. He received his training at Camp White, Oregon; Bend, and Camp Adair, Oregon; and Camp Patrick, Va., being sent overseas on April 11, 1944.

Following his service in Algeria, Africa, he received his bayonet, carbine, and rifle medals and following the invasion of Leghorn and Pisa, Italy, he was awarded the combat infantryman's badge for exemplary performance in action. Before this he was also the recipient of the good conduct medal.

Memorial rites were held for him on Oct. 22, 1944 in Zion Lutheran church of this city, with pastors, Walter M. Pedersen of this city, O. Stensland of Drayton, N. Dak. and H. A. Larson of St. Hilaire officiating.

He is survived by his widow, Mrs. Beatrice Mosbeck of this city; his mother, Mrs. Louise Mosbeck of this city; seven sisters, Mrs. Arthur Hanson, Mrs. Floyd Canfield, Mrs. George Lindblom, Mrs. Harvey D. Anderson, Mrs. John Waltonen of this city, Mrs. Gerald Pehrson of Canada, and Mrs. Lloyd Tommerdahl of St. Paul; six brothers, Oscar, Richard, Samuel and Ramon of Red Lake Falls, Martin of St. Hilaire, and Carl of this city; two half brothers, David of Crookston and Charles of Sask., Canada. His father preceded him in death. His sister, Mrs. Henry Hanson, passed away in April, 1946, and a half brother, Victor, passed away a year ago.

Those who are attending the burial services today at Fort Snelling are his widow, Mrs. Beatrice Mosbeck, his mother, Mrs. Louise Mosbeck, Mr. and Mrs. Floyd Canfield, Mr. and Mrs. John Waltonen, Mr. and Mrs. Harvey D. Anderson, and Rev. and Mrs. Walter M. Pedersen of this city, and Mr. and Mrs. Lloyd Tommerdahl of St. Paul.

Atom-Charged Elements Aid Doctors' Diagnosis

British medical men are soon to call on atom aid for important new experiments in diagnosing serious diseases.

A large atomic pile at Harwell Research station, Berkshire, will start operating shortly. It will produce enough atomic by-products for Britain's own immediate needs and a possible surplus for export to the continent.

The "atomic doctors" will work in close collaboration with the American specialists who already have atomic by-products in use.

"The Gleep", a small-scale pile at Harwell, is already "cooking" 180 samples of radio-active chemicals a month—carbon, sodium, potassium, iodine, gold, silver and so on. Increased quantities from the new pile will meet the demands of research workers and doctors all over Britain.

These radio-active elements are the trail-blazers of great new discoveries in medical science. When fed into diseased tissues of the human body, they act like radium. They can be traced through the most complicated processes or into the most inaccessible parts of the body.

Remarkable results of scientific diagnosis by atom-charged elements have already been had. In case of gangrene, for instance, surgeons are never sure how far the disease has spread nor how much of the limb ought to be amputated. Radio-active chemicals "light up" the gangrenous tissues and they can operate accurately.

Funeral Rites Set for George Wold Saturday at Goodridge Church

George Wold, resident of Reiner township, Goodridge, passed away at a local hospital Wednesday morning, at the age of 80 years. Final rites will be conducted at the Rosendahl-Torgerson church northeast of Goodridge at 1 p. m., Saturday afternoon, with Rev. O. O. Bjorgan officiating. Burial will be made in the church cemetery.

Mr. Wold was born Nov. 20, 1868 in Oslo, Norway. He came to the United States in 1884, making his home with an uncle in Fillmore county, Minn. Later he went to Duluth and worked in a lumber camp, and then moved to Mayville and Portland, N. Dak. He came to Marshall county in 1899. He was married in 1902 to Anna Anderson, who preceded him in death in 1917.

After selling his farm in 1919, he bought a livery stable in Goodridge, which he operated until 1928, when he moved to a farm in Reiner township. He was united in marriage to Hulda Berg of Goodridge in this city on May 18, 1926.

His survivors include his wife Hulda, a son, Gordon at home, two sisters, Mrs. Louis Larson of Ellensburg, Wash. and Anna in Oslo, Norway. His parents, two sisters and a brother also preceded him in death.

Ole J. Korsmo, 63, Summoned at Home Here; Rites Held Tuesday

Funeral rites were conducted at the Zion Lutheran church in this city on Tuesday afternoon for Ole J. Korsmo, 63, who was summoned at his home in this city on Friday. Rev. Walter M. Pedersen officiated and burial was made in Greenwood cemetery.

Born June 20, 1885, at Northwood, N. Dak., Mr. Korsmo attended school in Northwood and graduated from Augsburg college, Minneapolis. In 1912 he moved from Northwood to a homestead in Ward County, North Dakota. He married Ruth Nordheim of Hampton, N. Dak. on May 1, 1924. Later he operated stores in Aneta and Northwood, N. Dak., and also lived in Winger and McIntosh before coming to this city in August, 1943. He was formerly employed by Kelly Hardware company, and at the Ace Hardware at the time of his death.

Survivors include his wife, a daughter, Mrs. Kenneth Sembrick of this city, two sons Owen and David of this city, a grandchild, two sisters, Mrs. Olaf Hoversland and Mrs. Henry Hovland of Northwood, N. Dak., and two brothers, Norin and Ferdin of Northwood, N. Dak. Preceding him in death were his parents, a sister, and seven brothers.

Funeral Services Held in Red Lake Falls for Mrs. Fred E. Miller

Funeral services were held at the Evangelical Lutheran church Red Lake Falls, on Saturday afternoon, Rev. G. S. Thompson of this city officiating, for Mrs. Fred E. Miller of Greenbush, who passed away on Nov. 23 at a local hospital. Burial was made in the Red Lake Falls cemetery.

Mrs. Miller was born in Parkston, S. Dak. on Sept. 24, 1911, and came to River township, Red Lake county with her parents when a year old. She attended country school, and was graduated with the 1929 high school class of St. Hilaire. She later studied music and conducted classes in St. Hilaire and Thief River Falls.

She was united in marriage to Fred E. Miller on June 30, 1936 at Red Lake Falls, and since her marriage has resided in Thief River Falls and Greenbush. At the time of her death she was assistant secretary of the Greenbush Community hospital, of which her husband is engaged as a contractor.

Survivors include her husband, her mother, Mrs. Fred Erdmann of this city, a sister, Mrs. Carl Lehrer of Red Lake Falls township, and a brother, Frederick Erdmann of River township.

County Social Worker at U. of M. Institute

Kathryn A. Bogenrief, social worker for thePennington county worker for the Pennington county welfare board, attended an institute in mental deficiency November 22-24 at the University of Minnesota Center for Continuation Study. Presented by the University with the cooperation of the Minnesota division of public institutions and the Minnesota department of health, the purpose of the institute was to give county welfare workers a better understanding of the mentally deficent and their needs.

If flower stems are too short to arrange gracefully, try sticking them in drinking straws, which you can cut off at any desired length, and through which the flowers can get water.

JOB OFFICE HEAD AT STATE PARLEY

Eldevik Is Attending Conference in St. Paul

R. S. Eldevik, manager of the local office of the Minnesota state employment service, is attending a conference on employment and unemployment compensation matters in St. Paul today and Friday. Victor Christgau, the division's director will be conference chairman.

Special attention will be given the divisions' new program of making monthly analyses of labor market trends at the local office level. Thus far, local 'Blue Sheet' monthly publications have been established in 26 Minnesota cities. Planning for 1949 includes an expansion and further improvement of this important phase of the division's work.

The divsion administers the State Employment Service which handles unemployment compensation for civilians and the Servicemen's Readjustment Program for veterans.

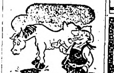
Facts About South Dakota

Famed as the location of the Black Hills and its mineral wealth, South Dakota covers 76,000 square miles, of which 700 square miles are water. It is larger than all the New England states put together. The Black Hills region, so called because their thick covering of pines gives them that color, are the locale of numerous lakes and camping sites. Mount Rushmore has been developed into a patriotic memorial with busts of Washington, Jefferson, Lincoln and Theodore Roosevelt carved into the granite mountain.

1947 Vehicle Registrations

About three million more motor vehicles than ever before in history are now in service in the United States. Registrations for privately-owned motor vehicles in 1947, totaled 37,402,230, an 8.5 per cent increase over the previous record of 34,472,145 in 1941, according to the public roads administration. The total was 10.2 per cent above 1946 registrations, which were 33,945,817. Motorcycle registrations, including publicly-owned machines, totaled 434,741, an increase of 38.6 over the 1946 total. California, with 3,470,500 vehicle registrations in 1947, led all the states. New York was second with 2,839,209.

NO FEED PROBLEM



The farmer, just back from the county fair with a new horse, discovered that the animal refused to eat or drink.

"Well," he said hopefully, "looks like I got a real bargain, if he's a good worker."

Maybe He Had!

A Birmingham insurance agent, while paying a claim to a woman recently covering the death of her husband, sought to persuade the fair beneficiary to take out a policy on her own life.

"I believe I will," the woman agreed, after a moment's reflection. "My husband had such good luck."

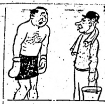
JUST BEFORE Christmas
Excitement is mounting and all over town Parents are trying to slow their kids down.
There are Sunday School tableaus, Neighborhood sings, And sister's play Costume needs new Angel Wings.
While packing the box For Uncle John's folks Dad gets himself all Tangled up in the ropes.
Mysterious bundles Arrive from the store And Mother is busy Behind a locked door.
It's just impossible for all to agree What goes where when trimming the tree.
Where, oh where is the Christmas Card list? We all thought this Person had ceased to exist.
Sure, we're busy, but who Can complain? Thank goodness it's Almost Christmas Again!

Power Plant Pygmy

World's smallest electric motor—so tiny that half a dozen of them can be put inside an ordinary sewing thimble—is on its way. Pygmy of all power plants, this motor weighs less than a grain, measures three-sixteenths of an inch in length and diameter, requires one and one-half volts, and runs with high efficiency at a speed of 7,000 revolutions per minute. Secret of the miniature motors is a new type armature known as the "gap-ring armature", mounted on a bobbin and spindle that revolves freely within a permanent ring magnet.



He was obviously a novice at boxing, and as he entered the ring and saw his hefty opponent he felt far from happy.

As he went to his corner he saw a man with a towel thrown over one shoulder.

"Who are you?" he asked..

"I'm your second," was the reply.

Over the novice's face there flashed a look of relief.

"No," he said firmly, "you go first—I'll go second!"

Forced Landing

A man called at a hospital to visit a friend. The heavily bandaged patient had just recovered consciousness and was anxious to know what had happened.

"Well, the visitor said, "you had a few drinks with the boys last night and made a bet that you could jump out of the window and fly around the house."

"Good grief!" exclaimed the patient, "didn't you even try to stop me?"

"Stop you!" said his friend. "I bet five bucks you could do it!"

Boston Farewell

One evening in Boston, humorist Oliver Herford ran into a friend.

"Hello, Oliver," said the other "When did you arrive in town?"

"A couple of hours ago," was the reply. "I'm sailing for Europe to night."

"What was the idea of coming here? Why didn't you take a boat in New York?"

"I like to sail from Boston," explained Herford. "It's such a delightful city to leave."

SELF-SACRIFICE

She—Of course I like you! Haven't I danced with you six times tonight?

He—Yes, but what does that prove?

She—You'd know if [illegible] only realized how you dance.

Courtesy Important When Sending Cards

The exchange of cheerful Christmas cards between friends is one of our most delightful Yuletide customs—and like all other social relationships, it is governed by simple, common-sense rules of etiquette.

You may properly send your holiday greetings to almost everyone—business and professional associates, if you wish, as well as social acquaintances and relatives.

Be sure to choose appropriate cards, however. If Aunt Jennie is a garden enthusiast, she'll probably appreciate a beautiful flower print more than a dozen Santa Claus designs.

Special Titles.

Cards with special titles, such as "Merry Christmas, Mother," are available for mothers, wives, sweethearts and practically all relatives, including the in-laws, and are a mark of individual thoughtfulness.

If you can spare a moment or two, pen a brief holiday note on each card. It adds a warm sincerity and a touch of your individual personality to your Yuletide greetings. Christmas time is a sentimental and nostalgic season for everyone, and many a friendship has been kept alive through the years by the annual exchange of holiday greetings.

Colored ink is entirely proper both for signing the card and addressing the envelope, provided it harmonizes with the color scheme of the card itself.

Signatures need not be formal, except on engraved Christmas cards. You may have your name neatly printed if you wish, or take your pen in hand and sign the greetings yourself with a holiday flourish.

"Mr. and Mrs."

Married couples may omit the "Mr. and Mrs." if they prefer and sign their cards simply "Paul and Jenny Wilson." Either the husband's name or the wife's may appear first. Children in the family rate a place in the signature, too.

In addressing the envelopes, it is best to send one card to a husband and wife, and separate cards to other adult members of the family too. As an alternative, one card may be mailed to the whole family if you are careful to write the names of each individual on the envelope, including the children.

Use three-cent stamps for your Christmas cards, following the rule of good taste which says that first-class friends deserve first-class mail. It is entirely proper to write your return address on the envelope, to help friends keep tab on changes of address.

Selecting attractive Christmas cards for each of your friends is a delightful pre-Christmas activity. Don't treat it as a sober social responsibility. Plunge in with a smile and the gay holiday scenes on the cards will soon fill your heart with Yuletide cheer and sentiment.

A BOOMERANG

An efficency expert went in to see the boss about his vacation. He came out with a hang-dog expression on his face.

Asked what was wrong, he replied:

"I only got one week. The boss says I'm so efficient I can have as much fun in one week as other people have in two."

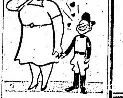
Poor Service

After several hours' fishing, Patty suddenly threw her fishing pole into the bottom of the boat and exclaimed, "I quit!"

"Why, Patty, what's the matter?" asked her mother.

"Well, Mother," she answered, "I just can't seem to get waited on."

A HELPING HAND



The 95-pound jockey married a woman at least twice his weight. After the ceremony, he asked some of the guests to drop over to his flat. The best man looked doubtful.

"Thanks, Sammy," he said, "but, after all, it's kind of late. Maybe your wife wouldn't approve of company at this hour."

The jockey shrugged.

"Oh, I don't expect you chaps to stay long," he explained. "All I want is for you to help me carry the bride over the threshold."

Self-Made Man

A politician said to Horace Greeley one day:

"I am a self-made man."

"That, sir," replied Greeley, "relieves the Almighty of a terrible responsibility."

Boost in Salary

"Why, Mary, you are breaking more crockery than your wages amount to! What can we do about it?"

"I don't know, ma'am. Maybe you'd better raise my wages."

Mother Dies of Complications From Unattended Childbirth

STURGEON BAY, WIS.—Funeral services were held for Mrs. Myrtle Schmidt, 37 - year - old divorcee, whose infant son was found buried in the yard of her home at Forestville, Wis.

Mrs. Schmidt died at a hospital of complications following the unattended birth of the boy. Her 15-year-old son and 16-year-old daughter told police they buried the baby at the insistence of their mother. The child was dead at the time, they said.

District Attorney Edward G. Minor and Coroner Calmer Nelson planned to order an inquest into the death of the child. Mrs. Schmidt died without making a statement about the child.

Mixed Burglar Alarm Signals Bring Police to 'Robbery'

CINCINNATI. — Four policemen went to Antonio Dipilla's grocery in answer to a robbery alarm.

But there was no robbery. The grocer just got his signals mixed up.

Dipilla explained that he and his landlady, Mrs. Frank Klein, who lives on the second floor, had a prearranged signal whereby he was to tap on a pipe in case of a holdup.

"Mrs. Klein was in the store, and a few minutes after she left I heard water running in a washroom," Dipilla said. "I forgot about the signal and rapped on the pipe to call her attention to it."

The landlady, hearing the rapping, called police.

Surgeons Forget Towel in Vet's Stomach; He Can't Sue

BALTIMORE, MD.—A pensioned army veteran who sought $100,000 from the government because of an 18 by 30-inch towel left in his stomach was told that he couldn't sue Uncle Sam.

The veteran, 50-year-old Arthur K. Jefferson of Joppa, Md., filed the suit under the recently-enacted federal tort claims act, waiving immunity of the United States from damage suits by private persons.

But Federal Judge W. Calvin Chestnut ruled that congress did not intend to include suits by former soldiers for service-connected disabilities "for which there was already existing a large body of federal legislation."

PUBLIC OPINION

Editor of the Times,

Financing the Soldiers' Bonus measure estimated at over 150 million dollars by means of the sales tax is the wrong approach. You propose the problem by starting with its solution. Other proposals such as a state liquor dispensary, a graduated income tax, parimutuel gambling and even a state lottery have been suggested by legislators searching for revenues. Intelligent planning now will result in judicious tax legislation. What is the test of a good tax proposal? Simply stated a good tax will produce revenue, is fundamentally equitable and can be administered economically. Apply the test to all the proposals! A sales tax is basically inequitable, difficult and costly to administer and will produce revenue only. Sales tax legislation may be classified as lazy legislation—offering the legislature the easy way out. To be adaptable a graduated income tax should contain specific tax incidence — otherwise the tax is not equitable.

The state liquor dispensary proposal merits consideration. Putting the state into the wholesale liquor business is not a new idea, nor is it an untried experiment. Gov. Olson proposed the establishment of a liquor control system in 1933 after a fact-finding committee reported favorably on the plan. The Attorney General ruled that the plan was constitutional the same year. The question of the operation of a state dispensary may be referred to the people for a referendum vote in the form of a constitutional amendment. For several years the state of Oregon has operated an efficient liquor dispensary.

Will a state dispensary produce revenue? Several legislators claim that the proposal will yield profits of $13,500,000 annually. A liquor dispensary is a lucrative monopoly.

Is the proposal equitable? Existing state liquor taxes incorporated in a high mark-up as a basis for gallonage cost computations would be a luxury tax. Local option would be respected and care would be exercised that the tax imposed would not encourage bootlegging in the state.

Can the system be administered economically? The present state Liquor Control Commission would administer and supervise the dispensary. Expanding the commissions activites would result in efficient operation of the system. License fees would pay the costs of operation.

The plan should be calmly and carefully considered. Let's not assume a puritanical attitude about the plan. The prohibition issue has been adjudicated by the pepole. This is a business opportunity — not a moral issue. Not only would the plan pay the bonus in 10 to 15 years, but it would relieve additional real property tax levies. In preference to the sales tax the dispensary proposal is commendable and merits support!

Oreal H. Halland.

Vacuum Cleaners For Crannies

Home makers who own a vacuum cleaner may find the smallest nozzle handy for cleaning corners and crannies in the kitchen that are often neglected because they are so hard to reach with a brush or cloth. If these inaccessible places are not cleaned, enough crumbs or bits of food may accumulate in them to keep pantry pests alive and ready to infest food supplies. To clean such places, take the vacuum cleaner and use the attachment with the smallest nozzle. Very often the pull of the vacuum will quickly and easily draw out crumbs and dirt difficult to remove in any other way. Instead of the usual method of emptying drawers and turning them upside down, let the vacuum nozzle lift out the litter.

British vs. U. S. Workers

British "working party" committees, sent to the United States to do on-the-job studies comparing American factory methods with those of Britain, agree that productivity per American worker exceeds that of his British counterpart in each of the industries surveyed.

IS IT WRONG?

In his contribution to the "Public Opinion" column last week Paul Harris raised a question that is of great importance to all of us, individually and collectively, when he stated that it is wrong to assume that we must have deflation. From a strictly theoretical standpoint we might agree with him. Deflation probably is the result of unwise management of our affairs and if our affairs were wisely managed conceivably there would be no justifiable fear of deflation.

But if Mr. Harris means that it is wrong at the present time to assume that we may have deflation then we will have to disagree with him. For as long a time as there are records on such things deflation has followed inflation. That we now have inflation all must agree, and it therefore is reasonable to assume that deflation will follow. How soon it will come, and in what way, is a thing that apparently has the experts stumped. The experts are pretty well agreed however that it is inflation that is the evil thing, the pleasant cause of trouble, and deflation the unpleasant result. That unpleasant effect is still somewhere ahead of us.

Is it wrong to be concerned about what is likely to happen. We think not. Certainly prudent people try to prepare for difficulties that may be encountered. The ship's captain who is not prepared to sail into and through storms probably will not have a ship very long. People in our community would not survive many seasons if they did not make preparation for cold winters.

Unfortunately it is not so easy a thing to prepare for a depression as it is to fill the coal bin for a long winter. We have read the advice of the experts and they do not agree. Past experience seems to prove pretty conclusively however that those who have their personal affairs in good order, who are not burdened with debts and who have developed the habit of living within their means are least likely to be hurt if the inflation ballon does burst. And what is true for individuals generally is true for businesses and governments. In buying things that cannot be classified as absolute necessities we will do well to pay as we go. The things we cannot see our way clear to pay for in a short time should not be bought. If we do not pay for them in a short time they may prove to be too high priced.

Santa Claus is coming to town again Saturday and we look forward to meeting the friendly old fellow again. Let the skeptics snort their contempt, we'll string along with those who still get a little fun out of these annual pilgrimages to the land of make-believe, where the wicked world is no longer a wicked world but just a great big Christmas stocking. So welcome to Thief River Falls, Santa, and stay a while. There is need for the kind of merchandise you have to offer.

Hunters hereabouts seemed to be fairly well satisfied with their investment in a license to shoot deer. Even some of those who came back empty handed admitted that their failure was not due to a shortage of game. Not all hunters are happy of course but it's our guess that there would have been a lot more crying in this neighborhood if there had not been an open season.

Real Manufacturer

The hen is capable of manufacturing one or more pounds of eggs from every five pounds of feed consumed, and at the same time maintain her body. Feedstuffs which have comparatively little value for human food are converted into one of nature's most perfect foods. Eggs contain all the nutrients required to transform a tiny germ into a baby chick.

Looking Backward

1928—TWENTY YEARS AGO

At the annual meeting of the Pennington County Agricultural society, Herb Fuller was reelected president for his 18th term.—John Wengeler, chief grain inspector here, reported that 9,454 carloads of wheat passed thru this city in the 3-months period since Sept. 1.—Henry Pope, a resident of Rocksbury township since 1905, died November 25.—Miss Lillian Arnold left to teach school at Grand Meadow, Minnesota.—Paul Midderigh left for Minneapolis to receive medical treatment.

1938—TEN YEARS AGO

E. O. Gullingsrud, resident of this city since 1893, died unexpectedly at his home November 30.—The city council confirmed the appointment by Mayor W. W. Prichard of Roy Barzen as a member of the local park board.—At the annual meeting of the Minnesota Public Health association, Dr. O. F. Mellby was presented with a life membership in recognition of his services to Oakland Park sanatorium.—The Pennington County Power cooperative at a meeting in the city voted to merge with the Red Lake Electric Co-op.—The city council approved plans for the proposed sewage disposal plant and voted to open bids on the project December 16.—T. D. Scanlan, car inspector on the Soo Line here, retired after 52 years of service.

Full Speed Ahead!

The candidate for the police force was being verbally examined.

"If you were by yourself in a police car and were being pursued by a desperate gang of criminals in another car going 60 miles an hour on a lonely road, what would you do?" asked the police chief.

"Seventy," the candidate replied emphatically.

CATHOLIC HONORS . . . Jennica Dragonette recently received the "Order of Isabella the Catholic" in a ceremony at the Spanish embassy. The award was given in recognition of her interest in Spanish music and culture. Left to right are Spanish Ambassador Jose Felipe Lequerica, who made the presentation, Francis Cardinal Spellman, Jessica Dragonette and the Spanish charge d'affaires, German Baraibar.

Financial Genius

"Stop wasting your time on that bum, Mabel. He hasn't had a job for months."

"Yeah, but he's got a system. It's all planned."

"Whadda ya mean, a system?"

"He's got it figured out so that his unemployment compensation will run right into his social security."

MAKES A DIFFERENCE

The mountain woman had come across the creek from her little cabin to tell a sympathetic neighbor about her man's goings-on.

"He whupped me this mornin'," she complained.

The big-boned neighbor woman turned upon her indignantly.

"Don't you never say he whupped you," she ordered. "Jes say 'we fit!'"

Use Some Brass

Harrison was proud of his golf game and had brought his mother-in-law along to watch him play with a friend.

"I'm particularly anxious to make a terrific drive just now," Harrison told his friend. "There's my mother-in-law over there, and I—"

"Don't be a fool," said his friend. "You'll never hit her at 200 yards."

Poor Alibi

Her (at prom)—"Wait right here for me, Bill, while I go powder my nose."

Her (three dances later)—"Been waiting long?"

Him—"No, but I've been looking all over for you to give you your compact."

Insomnia

"I feel tired. Haven't been sleeping well lately."

"Have you tried counting sheep?"

"Yep. But that just makes me mad. Things are so high these days, those sheep are 25 per cent cotton."

WINNING WORDS

Visitor: "How did your horse happen to win the race?"

Jockey: "Well, I just kept whispering in his ear, 'Roses are red, violets are blue; horses that lose are made into glue.'"

Safety First

An officer approached a drunk who was trying to get the key into his car door lock. "Look here," he said, "you don't mean to tell me that you intend to drive that car?"

"Sure," replied the soak. "Can't you see I'm in no condition to walk!"

Cooperation

"Every Sunday you go fishing," she complained, "and you know I don't like fish."

"Well," said he, "I catch as few as possible, don't I?"

FORGOTTEN MALE

"Gerald and his wife have separated, and all over a letter she found in his pocket."

"Forgot to mail it, I suppose?"

"No—forgot to burn it."

Heavy Drinker

"And is the prince incognito?" asked the reporter, referring to a titled guest.

"Well, no, sir," replied the hotel porter, "I don't know as I'd say that. But he's certainly had a few."

Home Accidents in 1947

According to the National Safety council, 33,500 deaths were killed last year in the home. Each year, home accidents injure three and one-half per cent of the total population of the United States—about five million people, of whom 130,000 are permanently disabled. More than 50 per cent of these household deaths and injuries are caused by falls. Insecure objects—chairs, small tables, bath mats and rugs are responsible for many falls in the home. Small rugs, most common of these deadly household hazards, are particularly dangerous at the head or foot of a stairway, in a doorway or other heavily-traveled area.

War Dehydrated Foods

The U. S. sent approximately nine million pounds of dehydrated foods to its forces in France. Of this quantity more than two thirds was potatoes.

ONCE IS ENOUGH!

Yes, one application of Dr. Salsbury's Vapo-Spray is enough to get rid of all the lice and feather mites in your laying house. Use Vapo-Spray now on roost poles. Pennies do the work. Tremendously effective for days — long enough to kill young lice which hatch later.

In Memoriam

In loving memory of our dear wife and mother,
Bertha E. Ralston, who passed away one year ago, Dec. 3, 1947.
Deep in our hearts you are today remembered. Sweet happy memories cling round your name;
True hearts that loved you with deepest affection.
Always will love you in death just the same,
We often sit and think of you, when we are alone,
For memory is the only friend, that grief can call its own.
Sadly missed by husband Jay Ralston and children, Mrs. Chas. Flasher, Forrest, Maurice and Lowell. 49p

Card of Thanks

We wish to express our heartfelt thanks to all those who so kindly assisted at the time of the illness and death of our beloved wife, daughter and sister, and for the beautiful floral and memorial offerings.

Especially do we wish to thank Rev. Thompson and Rev. Spletstoeser for their words of comfort; Robert Lund, Rev. Spletstoeser, Mrs. Clarence Harmoning, Leslie Seeger, Walter Seeger, George Seeger for their parts in music; the pallbearers and honory pallbearers; Mrs. McEllway; and the Ladies Aid for serving lunch. Your kindness will always be cherished. God bless you one and all.—Fred E. Miller, Mrs. Fred S. Erdmann, Mr. and Mrs. Carl Lehrer and family, Mr. and Mrs. Fred Erdmann. 49p

Card of Thanks

We wish to take this means of expressing our thanks to the many friends and relatives, and also to our children for the many nice gifts presented to us on our silver wedding anniversary. Especially do we wish to thank the hostesses who spent so much time and effort to arrange such an elaborate reception in our honor. — Mr. and Mrs. Roy Wiseth. 49c

Climax Vikings Win Overtime Tilt from Prowlers 33 to 30

The Climax Vikings, outscoring the Prowlers 5 to 2 in a three-minute overtime period, defeated the locals, 33 to 30, in a thrill-packed basketball game here Friday night.

Harley Wagner's one-handed shot from outside the free throw circle swished into the east basket for the points that tied the score at 28-all with ten seconds of play remaining in the fourth period and forced the game into an extra period. In the overtime period Climax' Howie Olson opened the scoring with a free throw point on Duane DuChamp's foul, and then Jerry Jevning, the game's high scorer, connected with a one-handed shot from the right side of the floor.

Erv Skaar, who led the Prowlers' second half rally, flipped in a field goal from close in to pare the Vikings lead to one point. Stan Paulsrud "insured" the game with an under-the-basket shot with less than thirty seconds to play.

On Saturday night coach Bob Nick will take his Prowler squad to Bemidji for a game against the powerful state champion Bemidji Lumberjacks.

In Friday nights' exciting game, both teams were guilty of erratic shooting and passing, and that may have been due to the fact that it was the opening game on the schedule for each team. After a low-scoring first period, which found Don Stadum evening the score at 4-all by scoring on a rebound shot just as the period ended, the scoring tempo increased in the second period.

Climax' Jevning connected with a one-handed shot from the left side of the lane, and Dick Letnes popped in a rebound shot. Skaar and Stadum racked up Prowler field goals to bring the score to 8 to 8. A pair of field goals by Jevning, a free throw by Letnes, while Wagner was counting a Prowler field goal, gave Climax a 13 to 10 lead at the intermission.

Jevnings free throw brought the Vikings into a 14 to 10 lead as the second half opened, but Stadum's one-handed shot, a gift shot by Wally Grovum, and a pair of free throws by Skaar moved the Prowlers into a 15 to 14 lead midway in the period. A free throw by Jevning evened the score, but Skaar's points on Jevning's personal again pushed the local ahead. The two teams exchanged points on free throws and field goals until the end of the period when Jevning's shot from a sharp angle gave Climax a 20 to 19 lead.

The hectic fourth period found the locals trailing by a 25 to 21 score with four minutes to play, but Wagner, on a tip-in shot, a jump shot, and his one-handed try, scored three field goals and added a point on a free throw to bring the locals' total to 28 points. A free throw by Paulsrud and Olson's field goal accounted for the Viking's final points in the period.

Climax' Jevning earned high point honors with 6 field goals and 4 free throws. Leading the Prowler scorers were Erv Skaar, with 11 points, and co-captain Harley Wagner, with 10 points. The locals played the game without the services of co-captain Al Williamson and center Keith Rosengren.

On a preliminary game, between a pair of Prowler 'B' teams, the team captained by Don Lunke registered a 15 to 14 win over Jerry Claffy's squad.

May Apple, Early Comer

May apple is a handsome woodland plant, with large pale green leaves resembling closed umbrellas when they first appear above ground. The waxy white flower blooms from between the divided leaf stems and usually has six petals, each nearly an inch long. The flower is followed by a lemon-like fruit with a fetid odor. While edible it is relished by few. The leaves and roots are poisonous and are used in certain types of drugs. May apples are among our first wild flowers and great clumps are to be found in woods, old fields and around briar patches.

American Horsemeat

At the rate of 100 million pounds a year, American horsemeat is being sent abroad to help keep the people of almost a dozen European countries from starvation. With the cost of cattle and hogs at peak prices, it is estimated that horsemeat, at about $14 a hundredweight, saves more than half the meat bill. Belgium leads all countries in horsemeat shipments, with Sweden next.

3 PROWLERS ARE ON NORTH VALLEY CONFERENCE TEAM

Al Williamson, Harley Wagner and Don Green Are on Mythical Eleven

Quarterback Al Williamson, left end Harley Wagner, and left guard Don Green were the three Prowlers honored by being named to the All-Star team selected by the coaches of the North Valley conference. As was expected, Grand Forks Central, the conference champions, monopolized the first team selections by winning six positions. The Maroons Bob McKinnon was placed at right end and Bob Evenson and Don Bjerke earned the tackle posts, although Bjerke had to share the right tackle position with Grafton's Randy Kittleson. Dave Sullivan was placed at right guard, and Ron *Thompson and Bailey McCracken* were placed at the half backs. East Grand Forks' Stan Johnston completed the first team lineup by being named at center, and team-mate Kermit Christianson being selected as the fullback.

Crookston and Devils Lake failed to place a man on the first team, but the Pirates were honored by having fullback Dave Pilkey and tackle Bryant Ulseth named to the second team, while the Satans had halfback Don Lee, tackle Pete Falstad, guard Bill Schnetter, and right end Dick Samdahl placed on the second team.

The Prowlers' Harley Wagner and Grand Forks Bob McKinnon were the conference's standout ends, with Wagner having the edge in offensive play while McKinnon was particularly effective on defense. Grand Forks Bob Evenson was an unanimous choice for the left tackle position, with the hard-charging Maroon lineman being praised by all the coaches present at the meeting that preceded the announcement of the All-Star team. Grand Forks' Don Bjerke and Grafton's Randy Kittleson tied for the right tackle position, and they barely edged out Crookston's Bryant Ulseth and Pete Falstad of Devils Lake.

Don Green of the Prowlers and Dave Sullivan of Grand Forks, a pair of powerful boys, were given the guard positions. Green's selection for an All-Star guard post was remarkable due to the fact that the burly Prowler had been used at a fullback in the Prowlers' conference games against Devils Lake and Grafton.

East Grand Forks' Stan Johnston held a comfortable margin over Graftons Walt Gjerswold for the first team's center position. Johnston proved to be one of the conference's most alert defensive man, intercepting a number of passes.

The Prowlers' Al Williamson, Grand Forks Ron Thompson, and East Grand Forks' Kermit Christianson were unanimous choices for quarterback, right halfback, and fullback, respectively. Bailey McCracken, who played as a fullback during the season, was shifted to halfback by the All-Star committee, and, being one of the shiftiest runners in the circuit, the Grand Forks' speedster would fill the bill. Williamson drew the compliments of all the coaches, being credited for the late season success of the Prowlers due to his generalship and adept passing ability. Thompson, the North Dakota 100 and 220-yard sprint champion, broke the conference scoring record with 78 points, and the 145-pound halfback was a threat whenever he carried the bayy. East Grand Forks' Christianson completed the All-Star backfield by winning the fullback spot. The 190-junior (Don Green and Stan Johnston were the other juniors named to the team) developed into a crunching line plunger. Christianson was a dependable yard gainer in spite of the fact that the East Grand Forks team did not have an effective running back that could be used to "loosen" the defenses that were set up against the Green Wave fullback. On defense, Christianson moved into the line at a tackle position.

Swamp Fever in Horses

Horses often contract swamp fever by consuming infected feed and water or through bites from insects that carry this disease.

Whitewashing Cellar Walls

Painting over old whitewash without preparing the surface is practically certain to result in peeling, blistering or flaking off of the new coating, no matter how good the paint. If a surface has been previously whitewashed, it should be well brushed with a stiff wire brush to remove all loose particles, and then scrubbed with hot water containing a small quantity of household ammonia to loosen the more adherent whitewash. Then the surface can be recoated with a cement base paint. If an oil paint is used, the surface should be thoroughly dried out before the oil paint is applied.

Benjamin Franklin and Sports

It is not generally known that Benjamin Franklin, the scientist, seer and statesman, was also a swimmer extraordinary, and the earliest American to advocate the inclusion of athletics as an adjunct to the regular curriculum of the schools. When he was a boy, Franklin found a little book by a Frenchman named Thevenot which described various swimming strokes and gave explicit directions for their use. Between his self-education in such matters as navigation and Addison's English style, young Benjamin found time to practice Thevenot's strokes until he could give an expert performance. He delighted in the sport all his life.

FOSSTON QUINTET WHIPS PROWLERS TUESDAY 48 TO 18

Fosston Shows Plenty of Speed in Scoring Easy Win over Locals

The Fosston Greyhounds, revealing surprising speed with their towering height, trounced the Prowlers, 48 to 18, in an interdistrict basketball game played on the Fosston floor Tuesday night. In a preliminary game, the Fosston 'B' squad took the measure of the locals' 'B' team, 30 to 15.

Fosston, with three of their players stretching inches above the six-foot mark, controlled the ball off the offensive and defensive backboards, and, in the second and third periods in particular, they set up their scoring plays neatly, with Jim Mittun and Bob Roysland doing the bulk of the scoring on set-up shots.

Harley Wagner and Don Stadum gave the Prowlers a 2 to 0 lead in the early minutes of the first period on free throws. Mittun tallied a Fosston point on a free throw and, on a pass from Alvin Hagen, scored a field goal with less than a minute to play in the period to give the Greyhounds a 3 to 2 lead. Duane DuChamp scored on a free throw, but in quick order, Roysland drove through for two field goals, and added a free throw to give coach Rulifson's team an 8 to 4 lead.

Outscoring the Prowlers 13 to 5 in the second period, the Greyhounds pulled away to a 21 to 9 lead at the intermission; and in the third period, with Mittun getting three field goals and a pair of free throws, Fosston increased their scoring lead to 37 to 13. In the fourth period the Greyhounds scored eight points, on four field goals, while the Prowlers were racking up five points on a field goal by Don Green, a pair of free throws by Wagner, and a free throw by Stadum.

Fosston's Bob Roysland, with 19 points, won the high point honors, but he was trailed closely by big Jim Mittun, the Fosston captain, who tallied 15 points. The Prowler scoring was evenly divided, with Wagner, Stadum, Grovum, and DuChamp getting four points apiece.

Getting a Slow Start

The Prowler basketball team, losing its first two games and with the odds against them in the next two contests on the schedule, is off to a slow start; but in fairness to the boys it must be mentioned that they haven't been playing any "soft touches."

In the opener, the locaus played the Climax Vikings, a veteran team that is a 31st district threat; and on Tuesday night the Prowlers lost to a rangy Fosston team that is conceded to be the top team in the 30th district.

On Saturday night the locals travel to Bemidji for an encounter against the Lumberjacks, the 29th district, 8th region, and Minnesota stat champion. The following Saturday, *Dec. 11th*, the Prowlers play the Lakers of Detroit Lakes at Detroit Lakes. That's a tough opening season schedule, and especially so when the squad is without the services of a couple of "key" players.

Bemidji's coach, Mike Lagather, with his ace guard Chuck Aakhus, was at the game at Fosston on Tuesday night but, after watching the Prowlers in their losing effort against the Greyhounds, he didn't appear very worried over the outcome of Saturday night's game with the locals.

Bemidji opened their schedule last week by defeating Walker, 52 to 30, and, with Aakhus and Jim Hirt at the guards, Chuck Grover and Beliveau at the forwards, and St. John at center, served notice that they must be rated as th eregional favorite.

And also watching the Fosston team in their win over the Prowlers was "Curly" Movold, and old-time Fosston player. Movold was a star on the Fosston team that won the 1913 state high school championship, and later he went on to play basketball for the North Dakota A. C.

States-Dominion Begins Dec. 26

Russ Embury, drawing up the schedule for the States-Dominion hockey league, announced that the five-team league would open the season on Dec. 26th. Member teams that have verified their intentions of joining the league are Crookston, Thief River Falls, Grand Forks, Emerson, and Letellier. The Hallock team, a member last year, decided that they wouldn't be able to put a competent team on the ice this year as a number of their players will be playing with Letellier. Louis LaRocque, Al Ayotte, Armand Loiselle, and Ben and Napoleon Commeault all payed with Hallock last year, but this year they will be with their "home town" team of Letellier.

Prowler Hockey Opens Dec. 14

Richie Roberts, the Prowler hockey coach, is anxious to get his squad out on the Arena ice, and it is expected that Chuck Dostal will compete the flooding there by Sunday or Monday. The Prowlers play their first game of the season on Dec. 14th when they meet the Greenbush high sextet at Greenbush. The locals better not be too confident about that game for Greenbush has practically the same team that they have been "bringing up" the past two years.

Miscellany.

Loren "Bones" Stadum, Prowler all-state basketball player in 1938 and 39, watched the locals and his kid brother Don, against Climax last Friday night. And during the half-time intermission, Bones renewed acquaintances with Glen Gumlia. Gumlia refereed the game Friday night, and when told that Bones was in the crowd he expressed a wish to meet him. Gumlia was *a forward* on the Crosby-Ironton team that was defeated by the Prowlers in an overtime game in the 1938 state tournament.— It is reported that Max Oshie, Warroad's all-state high school player, has been selected to the A. H. A. All-Star hockey team that is to tour Europe this winter. Oshie has been attending the University of North Dakota, but if he makes the All-Star team he will undoubtedly cancel out of school. Russ "Buzz" Johnson, member of last year's North Dakota U hockey team, and also a member of the Grand Forks Amerks, is also expected to join the A. H. A. team.

Gov. Youngdahl Asks for Improved Mental Hospitals

Gov. Luther W. Youngdahl Sunday officially launched Mental Health week in Minnesota and got a flying start on his approaching legislative requests by issuing a major statement of policy.

In a radio address, Youngdahl praised those who have worked toward bettering conditions in the seven state mental hospitals, condemned existing conditions and appealed to his listeners to build the type of public opinion needed for correction.

Youngdahl said the mental illness problem is nation-wide, but that the mental hospital is the *only major social institution* "which has remained fundamentally unchanged in the last 100 years."

He reiterated general charges of inadequate treatment, deficient food, shortages of staff, low salaries and overwork, mechanical restraints and at the beginning of the current drive, use of chains.

The governor indicated that the new science of psychiatry will be the means by which many persons formerly condemned to useless, guarded lives may be returned to society as useful members.

Youngdahl said the first step in the reconstruction program is recognition of the proper role of the attendant and a complete change in attendants' title, function and pay.

He said also that one overall standard of diet is needed or both staff and patients"—even though no other state does this."

"A chain of clinics and social work services is desperately needed," Youngdahl asserted.

"But *more than that we must* extend the state's responsibility to assistance on local levels for prevention; for work with courts, schools, social agencies and so on."

Youngdahl said that funds are needed to modernize existing institutions but "we must realize that an institutional approach alone will not do the job."

We must start on the long road ahead toward providing modern psychiatric services for all people of the state," he said.

Fall Anemones Most Beautiful

Probably the best anemones are the fall-blooming ones. Anemone Japonica starts to bloom in September and continues until frost. The plant stands about three feet high and has either single or semi-double flowers. The flowers come in pinks, ranging from salmon pink to a very deep rose-pink to a clear red, and also in white. Japonica is, however, quite difficult to grow. It needs a deep rich soil, good drainage and plenty of water during the dry season. It does best in full sun though it can be planted in light shade.

"Take It Easy", Good Winter Driving Rule, Says Safety Engineer

"Take it easy," good advice for motorists at all times, is doubly important in winter driving, according to J. E. P. Darrell, traffic engineer of the Minnesota highway department. Poor traction and low visibility make it necessary that drivers use greater caution and generally travel at lower speeds than in summer time, he said.

"Don't overdrive your headlights' is a very important rule in winter driving," said Mr. Darrell. "This means controlling your speed so that you can always stop safely in the space clearly illuminated by your headlights. Failure to observe this rule is responsible for a great many serious winter accidents.

"No fixed rule can be given for winter speeds. The driver must adjust his speed to road and weather conditions. He should slow down for icy spots, and on hills and curves. He must be constantly alert for pedestrians, as well as for vehicles that have been snow blocked or otherwise stopped on the highways.

"The number of accidents, in proportion to traffic volume, is much higher in winter than in summer, and it is much higher at night than in the daytime. The hazards are obviously greater, but this can be offset by more cautious driving."

Artificial Sahara Desert Increases Life of Powder

Skeet and trap-shooters can thank a year-round artificial Sahara desert in an Illinois ammunition plant for the stability of the smokeless ball powder used in their shot shells.

This artificial Sahara is a 10-foot high cylinder called a "surveillance chamber" in which powder is prematurely aged under the speed-up conditions of a constant 159½ degree Fahrenheit temperature.

Under normal conditions in temperate and frigid climates powder made by conventional methods retains its full power, or as the experts say, its potential energy, for periods of 20 or more years.

Under very high temperatures its life is shortened and the materials from which it is formed tend to return to their original constituents.

Knowing how long powder retains its original stability under the torrid zone temperatures of the surveillance chamber, powder makers can control and extend powder life under average temperature conditions.

ANTI-SALES TAX LEAGUE REGISTERS ITS OBJECTIONS

Hopkins Man, President of State Organization, Argues Against Proposal

There is great danger a sales tax may be passed by the state legislature to pay a veterans bonus, Joseph C. Vesely, mayor of Hopkins and chairman of the Minnesota Anti-Sales Tax league warned Monday.

"Since a sales tax could provide a great deal of revenue," he said, "people may be lulled to sleep by the delusion that it appears to be painless.

"But a large number of candidates for the legislature were unalterably opposed to a sales tax," he pointed out. "Several veterans organizations have publicly stated if the bonus is to be financed by a general sales tax, such veterans would be willing to forego any state bonus."

Minnesota workers, farmers, druggists, grocers, hardwaremen and other independent merchants have for years been almost unanimously opposed to a sales tax as an obnoxious and unfair system of taxation, Mr. Vesely said.

"Every governor from the time of Floyd B. Olson to and including Luther Youngdahl has been opposed to a sales tax," he said, explaining that opposition is based upon many grounds:

1. It shifts the tax burden from those better able to pay to the worker, small farmer, and merchant least able to pay because his small income goes for the necessities of life.

2. It would compel the independent merchant to become a tax collector, forcing him to maintain a fairly elaborate set of records and prepare reports.

3. It would send much business to Wisconsin where no sales tax exists thus allowing the wealthier to escape such a tax entirely.

4. It would promote competition with mail order houses in other states.

5. Millions of dollars derived from Minnesota industry and business is now paid owners living in other states. They would pay no state sales tax.

6. The burden of taxation should be distributed on the basis of ability to pay rather than on the obligation of people to spend their earnings for the necessities of life.

1947 Vehicle Registrations

About three million more motor vehicles than ever before in history are now in service in the United States. Registrations for privately-owned motor vehicles in 1947, totaled 37,402,230, an 8.5 per cent increase over the previous record of 34,472,145 in 1941, according to the public roads administration. The total was 10.2 per cent above 1946 registrations, which were 33,945,817. Motorcycle registrations, including publicly-owned machines, totaled 434,741, an increase of 38.6 over the 1946 total. California, with 3,478,500 vehicle registrations in 1947, led all the states. New York was second with 2,889,209.

Curbing Bean Beetle

Bean beetles are the bane of the gardener's efforts. If they are not controlled they can wipe out the whole crop. The wise gardener dusts the bean stalks with a rotenone preparation as soon as the leaves have formed. He does not wait for the beetles to appear before getting to work, for it is easier to prevent infestation of the plants than it is to "cure" them. An application of dust once a week during the growing season will keep the beetles under control.

95 IN PENNINGTON GETTING SOCIAL SECURITY BENEFIT

Are Receiving Monthly Old-age and Survivors Benefit Payments

Monthly old-age and survivors benefits are going to 95 residents of Pennington county, according to the June 30,1948 tabulations received today from the central office by the Grand Forks office of the Social Security Administration.

W. D. Kistler, manager of the Grand Forks office, which serves this county, pointed out that the number of persons who receive monthly benefits is steadily increasing. Many people still do not file for benefits, he said. The fact that benefit payments are not automatic and are paid only when a claim is filed was stressed.

He pointed out that benefit payments are only retroactive for three months prior to the month the claim is filed. Wage earners who are 65 and survivors of wage earners should contact a Social Security Field office to inquire as to when and how to file a claim.

MUNICIPALITIES LEAGUE WILL TALK OVER LEGISLATION

Biennial Conference to Be Held in St. Paul Friday, December 10th

Legislative proposals affecting municipalities will be scrutinized by officials from Minnesota cities and villages on December 10, according to the president of the League of Minnesota Municipalities, E. A. Brodin, commissioner of utilities, Duluth.

The occasion will be the biennial league legislative conference which this year will meet in the Lowry Hotel, St. Paul. This conference will end a long period of study and research by six committees in various fields of municipal government and will allow delegates to discuss and decide on proposals to be put before the 1949 legislature.

Important recommendations include: (a) the proposal to endorse the home rule section of the constitution drafted by the Constitutional Commission; (b) the proposal for a state-wide building code; (c) the proposal for a new highway amendment to the constitution which would give municipalities a share of the highway user taxes; (d) the proposal to defend municipal liquor stores and extend this authority to first, second and third class cities for off-sale only.

The bulk of the revenue program was approved at the leagues annual convention in June. This program included, in part, municipal sharing in any new state taxes or other revenue sources and enabling authority for municipalities to collect admissions taxes if the federal government withdraws from this field.

From where I sit ... by Joe Marsh

Why Dutch is Growing a Beard

That beard on Dutch Miller's chin doesn't mean that he's getting ready to play Santa Claus. He's simply paying off the election bet he lost to Cappy Swanson.

And while some folks allow it's all a lot of nonsense—like the wheelbarrow ride that Cappy had to give Dutch after *last* election day—from where I sit, it's a mighty wholesome aftermath to a difference of opinion.

Because good Americans all take their politics and voting mighty seriously. But when the issue's settled, and the die is cast, they accept the verdict in a spirit of good humor.

And that's as it should be when it comes to *any* difference of opinion. Some folks vote for beer as their favorite beverage—others vote for cider. In fact, we all have differences of taste in almost everything! But that doesn't mean that we can't live together *in a spirit of good fellowship.*

FILTER QUEEN
The World's Finest Vacuum Cleaner

"I've lost my appetite," cried Baggy, the bag-type vacuum, "yet you always pick up dirt. How come?"

"It's clean living" said FILTER QUEEN, the different vacuum. "I have no dirty bag to empty . . . or hidden cloth filter to clog with dust and hinder suction. Instead, my sanitary cellulose filter traps all the dirt and lets me breathe properly. That's why I do such a grand cleaning job."

"How wonderful" sighed Baggy.

HERE YOU ARE, LADIES!
THE NEW KOOKALL ELECTRIC
RANGE WITH
UPS-A-DAISY!

Smart [illegible] these. They look to Gibson for what's [illegible] in ranges. You'll be glad you waited, too, when you see the new Gibson Ups-A-Daisy—the range that does everything better.

Mildly speaking, it's terrific! Just imagine using the deep-well unit for surface cooking! With the Ups-A-Daisy 2-position unit you can do just that. Simply lift the unit to its top position and, presto!—you have 4 surface units! Lower it and it's ready to do your deep-well cooking!

And that's not all this versatile range does for you: It saves current by using stored up heat! It roasts, bakes, steams, fries or broils better—*and with less attention!* Its big banquet-size oven turns itself on and off—cooks the entire meal while you are elsewhere! and—TWO OVENS in this model, with concealed oven vents for cleaner kitchens on all models.

Come in today and let us show you the range of tomorrow.

Verdict's clear—it's the Buy of the Year
White sidewall tires as illustrated, available at extra cost.

It's the Buick SUPER! With Dynaflow Drive!
With new room—a new outlook—and features-by-the-fistful
that make it the season's top buy!

RIGHT away you know it's a Buick—and another style ten-strike.

And even from the outside you can sense something of its new roominess, something of the wonderfully wide view-of-the-world you get from full-curved windshield, narrow corner posts and stepped-up glass area.

But that just makes a start on the good news.

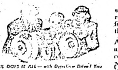
For the silken magic of sensationally successful Dynaflow Drive† is available at your option on all models of this '49 SUPER.

Every wheel rides on Buick's special soft coil springs. Every tire is an oversize cushion mounted on a wider-than-usual rim. And every Dynaflow model has an extra plus in self-adjusting valve lifters that keep valves seating themselves just right.

Indeed, each detail—wide swinging doors, gracefully streamlined taillights, contoured rear bumper, Hi-Poised engine, fine rich finish—marks this as the year's standout car.

And the price tag? Matched against the field, it is almost a *command* to get your order in.

Check it and see. Your Buick dealer will be happy to oblige—and talk business whether or not you have a car to trade.



OIL DOES IT ALL—with Dynaflow Drive! You just set a lever, step on the gas and steer. The power flows in oil, not shifting gears, delivers the power you need for starting, accelerating, climbing, everyday driving condition.

ROOM—WITH A VIEW! Seats are broad in this new Buick. And soft, so that there's extra room overhead. And windshields are a full 56⅜ inches across, glass area in 4-door Sedans stepped up 22%!

BUICK alone has all these features
[illegible] DYNAFLOW DRIVE* • FULL-VIEW VISION
SWING-EASY DOORS • "LIVING SPACE" INTERIORS with Deep-Cradle cushions
QUADRUFLEX COIL SPRINGING • DUREX BEARINGS, main and connecting rods
Cruiser [illegible] VENTIPORTS (Super and Roadmaster) • Low-pressure tires on SAFETY-RIDE RIMS
FIREBALL STRAIGHT-EIGHT POWER on HI-POISED ENGINE MOUNTINGS
Ten smart models featuring BODY BY FISHER
[illegible] optional at extra cost on SUPER models.

NEWFOLDEN

Last Rites Held For Mrs. John Nygren Tuesday, Nov. 23

Middle River Lutheran church at Alma, was filled to overflowing with relatives and friends who came to pay their last respects to Mrs. John Nygren at impressive funeral services held there on Tuesday afternoon, November 23. Rev. E. J. Ranum officiated and special music consisted of a vocal solo in the Norwegian language by Mr. A. O. Gudim and a vocal duet by Mrs. Berger Anden and Mrs. Selmer Anderson.

Christine Strukness was born on January 23, 1872 in Norway and came to Sharon, North Dakota at the age of seven with her parents, living there until her marriage to Henry Qualey. To this union ten children were born, Gertie (Mrs. Henry Lien) of Alvarado; Ella (deceased); Eddie Qualey of Newfolden; Clara (Mrs. Carl Bjorhus) of Castle Rock, Washington; Emilie (Mrs. Iver Osthy) and Delores (Mrs. Fred Larson) both of Big Falls; John Qualey of Newfolden; Mrs. Selma Jorgenson of Warren; Gust Qualey of Middle River; Gladys (Mrs. Laurence Haugen) of Warren.

She was left a widow in 1915 and lived at Salol until July 3, 1921 when she married John Nygren and moved to the vicinity of Argyle, living there until 1943 when they moved to Newfolden where she lived until Nov. 10 when she was taken to Warren Hospital where she passed away on November 19.

Left to mourn her passing are her husband, John Nygren and nine children, thirty-one grandchildren and nineteen great grandchildren; also three sisters, Mrs. Thea Strand of Northwood, N. D., Mrs. Mary Batten, of Williston, N. D., Mrs. Joe Morkel of Leeds, N. Dak. and two brothers, Lewis Strukness of Minot, N. D. and Gust Strukness of Salol, Minn.

Interment was made in the Baptist Cemetery at Alma. Pallbearers were Leroy Lien, Gordon Lien, Orville Blinsmon, Ray Sourdiff, Fred Peterson and George Lindbeck. May she rest in Peace.

Auxiliary Shadow Social Here Friday Eve., Dec. 3

December 3 is the date, Newfolden high school is the place and the Shadow Social is the big event. At 8 p. m. a short free program of local talent will be given, after which the ladies' shadows will be sold to the highest bidder. Ladies bring a box lunch for two and you'll get a fine supper partner and lots of coffee.

This big event is being sponsored by the ladies of the Legion auxiliary, who are trying to raise $150 to buy medicine needed for a new and special treatment for their adopted orphan, Irene Nelson, the former Newfolden girl, who is still a patient at Oakland Park Sanatorium. This really is a worthy cause so won't you all celebrate Christmas early by helping a plucky young girl to get well?

Pie and coffee will also be for sale by the auxiliary for those unfortunates who do not get a shadow.

Dennis and Charlotte Anderson, of Minneapolis, spent the Thanksgiving holidays at the home of their parents, Mr. and Mrs. A. F. Anderson.

Mr. and Mrs. Walton Anderson and son, of Fargo spent the long week-end with Mr. Anderson's mother, Mrs. Jennie Anderson.

Mr. and Mrs. Olaf Green received a long distance call that week announcing the arrival of a new grandson, born to Lt. and Mrs. John Sands, Jr. at Dayton, Ill. Mrs. Sands is the former Lelah Green.

Raynard Huglen, Sheldon Mortrud and Miss Orlette Hjelle, all students at Augsburg College, Minneapolis, spent the Thanksgiving vacation here with home folks.

Miss Martha Kleppe, instructor at Concordia College, Moorhead, spent Thanksgiving here at the home of her sister, Mrs. H. C. Haugen.

Rev. E. J. Ranum spent Monday and Tuesday at Greenbush, where he was soliciting funds for the Free Lutheran Schools.

Orla Green and Mary Rae Strand students at M. S. T. C., Moorhead, spent the holidays at their parental homes here.

Mr. and Mrs. Gilbert Bakke received word last week announcing the arrival of a new granddaughter in far off Japan. The baby was born to their daughter, LaVerne, [illegible] in Japan with her [illegible] Larry Becker [illegible] Becker is stationed in Japan with the U. S. Army Air Force.

Mr. and Mrs. Ted Eide of Langdon, N. D. spent the holidays here visiting at the Henning Peterson and Gordon Elseth homes. They also visited Mr. Eide's mother, Mrs. Hannah Eide in Thief River Falls. Mr. and Mrs. Eide were Thanksgiving Day dinner guests at Gordon Elseth's.

Mr. and Mrs. Palmer [illegible] and Mr. and Mrs. Gordon Arnold and daughter, Janice May of Minneapolis, were weekend visitors at the Ole Forstad home. Palmer and Gordon spent their time hunting deer with Ole Forstad and Albert Berg Jr. on Saturday and Sunday.

Mr. and Mrs. George Tanberg left on Saturday for Chula Vista and San Diego, Calif. where they will spend the winter with their daughter.

We understand the Daniel Boone Lindquist now has a new parking place on the east side of the tracks. Friends are puzzled as to why he has grown so bold as to park right in the city limits. Some say it is a shortage of gas. Others claim he does not wish to wear out that new Ford.

A large crowd of ladies gathered at the Bethlehem Lutheran church on Friday evening to honor Mrs. Lowell Anderson, formerly Miss Lois Green, who is a recent bride, with a bridal shower. Many beautiful and useful gifts were received by Mrs. Anderson. An interesting program was given, games were enjoyed and a delicious lunch was served. Mr. and Mrs. Anderson reside in Fargo, where Mr. Anderson is a student at M. S. T. C. and Mrs. Anderson is employed in the office of a clinic.

Magnesium Rod Checks Tank Corrosion in These

FRIGIDAIRE ELECTRIC WATER HEATERS

Now Frigidaire Water Heaters give even better service! A magnesium rod is the secret—it attracts to itself corrosive elements in the water. Protects against tank "pitting," common in hard water areas; prevents "red water" due to rust in soft water areas; does away completely with the need for expensive, "special" tanks. Frigidaire Water Heaters are completely automatic. Exclusive Radiantube Heating Units are wonderfully efficient and economical. Thermostatic control. Durable steel tanks, finished with easy-to-clean Dulux. 30-gallon table-top models; other models up to 80-gallon size.

ADDRESS HOLIDAY MAIL ACCURATELY, POSTMASTER ASKS

Also Requests That Christmas Greeting Cards Be Sent 1st Class

Meet the man who's going to receive several thousand cheery Christmas greeting cards this year—and is very unhappy about the whole situation.

He has charge of the post office's undeliverable mail—"nixies," in the colorful jargon of the mail carriers.

Last year, the local post office played reluctant host to a large quantity of other peoples holiday mail, left homeless because of faulty addressing. Nationally, the toll of undeliverable Christmas cards, letters, and packages ran into the millions.

Postmaster Andrew Anderson points out that careless addressing spells trouble for the sender, as well as extra headaches for postal clerks.

So if you want to keep your colorful Christmas greetings from coming to rest in the Dead Letter Office this year, you'd better heed the postmasters detailed advice for Yuletide mailings.

"Mail promptly," he urges. All packages and all Christmas cards for out-of-State delivery should be mailed at least a week before Christmas.

"Address plainly and completely," he emphasizes. "That means the full name, house number, street, name of city, zone number, and the State.

"Remember, much holiday mail is delivered by emergency carriers who haven't the faintest idea where 'The Wilson Family' lives 'On Oak Street.' There may even be two or three different carrier routes serving different parts of one street.

"Don't ever put 'City.' Write out the name of the town. If a Christmas card marked 'City' happens to slip into the wrong mail pouch, it may end up in the Dead Letter Office in Los Angeles or Jersey City."

The postmaster recommends sending all Christmas cards by first-class mail which means with regular 3-cent stamps.

First-class mail is entitled to "directory service" by skilled post office clerks who will try to trace down addresses who have moved since you mailed your Christmas cards last year.

STATE IKE WALTON LEAGUE TO MEET

Convention Scheduled in St. Paul Dec. 6 and 7

Opening with a greeting of welcome by Governor Luther W. Youngdahl, the 26th annual convention of the Minnesota division Izaak Walton League of America, will be held at the Lowry Hotel, St. Paul, December 6 and 7.

Joint hosts on program and arrangements will be the Midway chapter, Fred L. Buchanan, president, and the women's chapter, Mrs. Grace M. Olson, president, both of St. Paul.

The importance of the Superior Wilderness Area to the public will be the general theme of the convention and a program of speakers to discuss various phases of the subject has been made up.

Dr. Philip Heersema, psychiatrist of the Mayo Clinic will speak on "The Importance and Effect of Wilderness and Outdoors;" Sig Olson, Ely, "What the League must do Now to Save the Wilderness;" Dr. Frank Kaufert, director, University college of forestry, "Economy of Lumber Industry in the Wilderness Area;" and L. L. Schroeder, commissioner, department of aeronautics, "Legal Aspects of the Airplane and Wilderness Area."

A smorgasbord and round table discussion on general conservation; topics will be held Monday evening, December 6. A symposium on "Deer Herd Management," with Dr. Arnold B. Erickson, Pittman-Robertson biologist, Milton Spenlund, area biologist, Dr. Wm. Marshall, University of Minnesota, and Lauris Krefting, fish and wildlife biologist, is on the program.

ONE EAGLE, ONE MONSTER REPORTED

A bald eagle with a wing spread of seven feet and the enormous weight of 78 pounds was captured in some lakeshore brush near Alexandria; after a session before the science classes it is now eating huge quantities of rabbits and fish while recovering from a broken wing on the Milford Trepheren farm. New Ulm fisherman and scientists are trying to identify a 4-foot fish with the body of a pike and the head of a snake.

CANCER SOCIETY GIVES DRESSINGS

Needy Patients Asked to Notify Headquarters

Reports from county units of the American Cancer Society's cancer dressings program in Minnesota indicate that last year's total of 70,000 dressings will be exceeded in 1948, Mrs. A. L. Christenson, field army commander of the Minnesota division, revealed this week.

The program recognizes the need for an adequate supply of clean dressings by cancer patients in hospitals, institutions and private homes. It is one of the many personal and humanitarian services of the American Cancer Society and is carried on by volunteer workers as a tangible expression of good will and charity, Mrs. Christenson said.

"We hope that all needy cancer patients are on our lists, and if there are others whom we have not reached we will be glad to have their names."

People who know where a need for free dressings exists that is not being filled are urged to contact their county field army commander or the Minnesota Division of the American Cancer Society, 622 Commerce Building, St. Paul 1, Minnesota.

BLUE SHIELD PLAN SHOWS LARGE GAIN

Doctor Care Plan Now Has 100,000 Members

Breaking all expectations for a first year enrollment record, the Minnesota Blue Shield doctor care plan has passed the 100,000-subscriber mark in only ten months, it was disclosed today by Arthur M. Calvin, executive director of the non-profit Blue Shield medical-surgical benefit plan.

"In only ten months 100,300 Minnesotans have enrolled in Blue Shield," he reported. "This is amazingly fast growth for the plan to achieve in its first year of operation, for it averages about 325 persons enrolled per day or 10,000 per month."

According to the director, 2,573 Blue Shield subscribers have used their doctor's care coverage since January of this year and have received $95,674.80 in benefits thus far.

Proper Care of Heifers

Heifers should be domesticated by being led and handled every day. They should get plenty of good water daily. All stagnant pools should be eliminated. The owner should keep a salt brick where the heifers can reach it at any time. A daily feeding of crushed oats will help keep them in thrifty condition. They should be kept on good pasture, and in the absence of that, provided a feeding of good hay at night.

GROWING WITH YOUR CHILD

Institute of Child Welfare, University of Minnesota

Schools are What you Make Them

Just down the block kindergarten-aged Johnny Smith ran home from school in angry tears the other day. Right into his mother's arms.

They'd been building houses with blocks, he sobbed on her shoulder, and he decided to build one in the corner all by himself. But when he started to take all the blocks, "that nasty ol' teacher" made him give them back to the other children and stand in the corner for ten minutes.

Indignant that any mere teacher would treat her precious five-year-old like this, Mrs. Smith hugged the sobbing boy to her. "We'll just go and tell that mean teacher that she can't handle our son like that. Imagine it!"

And the next morning, sure enough, the uncompromising parents stormed over to the school. They complained to the principal, questioning the teacher's right to discipline their son, and left that tired teacher, already harassed by an overcrowded room of five-year-olds, wondering whether it was worth it all.

That this is no rare occurrence in our present day kindergartens, elementary schools, and even high schools, is a discredit to our American parents. To American parents who, like the Smiths, ask for discipline and order in their tax-supported schools, are loyal to the P. T. A. and parents Magazine, and prattle of perfect parent-teacher cooperation, and yet are unwilling to see these principles applied when their own children are involved.

Had Mrs. Smith explained to her Johnny his selfish actions and how his teacher had punished him fairly, her understanding would have strengthened the teachers position in the classroom, Johnny himself, and classroom unity as such. The attitudes of you parents at home are mirrored in the classrooms of your children; let no one tell you the two are dissociated. Only through attitudes of cooperation and understanding, moreover, can you make these classrooms the proper sites for learning and training you want them to be.

POLITICAL ROUNDUP

By Arthur Naftalin

The echoes of the 1948 elections have hardly subsided, but already there is much talk in Minnesota political circles about 1950.

There is considerable ferment within both the state Republican and Democratic-Farmer-Labor parties, and the next two-year period promises to be one of extensive intra-party maneuvering in which factionalism is likely to be very prominent.

For the Republicans the intraparty struggle centers about the question of how the party can recapture its lost ground and prevent further inroads by the DFL. For the Democratic-Farmer-Laborites it is a question of who shall lead the party during this period of renewed influence.

The Young Republican League of Minnesota has laid down a *vigorous challenge to the older* groups within the GOP. The Young Republicans, at a meeting of the group's executive committee, openly declared that the time is here for the "young and liberal" elements to take over the direction of the party.

One of the leaders was quoted as saying: "Perhaps now is the time to cast off the burden of having to apologize for a conservative party which cannot gain the confidence of the voters—to move into the regular Republican party and nominate only liberal candidates who can gain that confidence."

The official statement, a bit more restrained in tone, carried the same sentiment. It said, "The day is at hand for the rebirth of the Republican party—It must be recreated around a body of liberal principles and liberal candidates."

Meanwhile, within the DFL, there are the first signs of internal conflict. During its recent successes the DFL has been led largely by the younger leaders who rallied around Senator-elect Hubert Humphrey. They did not always see eye-to-eye with the forces represented by Stephen Harrington of St. Paul, the former national Democratic finance director for the state.

Harrington, a vice president of Brown and Bigelow, has claimed the right to influence party policy. A news story since the election reporting that Charles Ward president of Brown and Bigelow, gave $20,000 to the national party has embarrassed the DFL leadership.

The stage is now set for a fight to remove Harrington and his followers from any position of influence within the DFL.

The major DFL worries, however, lie in the future. They have do with future endorsements for top office. Already the woods are filling with aspirants for the governorship.

Charles Halsted, who made a surprisingly strong run as the DFL candidate for governor this year, is receptive to the idea of running again in '50. There is also talk of Robert Sheran, Mankato representative in the state legislature, and Associate Justice Thomas Gallagher of the state supreme court.

Under the leadership of State DFL Chairman Orville Freeman, the party organization is already laying plans for the next two year's activity. An ambitious drive, including the regular publication of a party newspaper, is contemplated.

Governor Youngdahl and the leaders of his official administrative family have their work cut out for them during the period before the opening of the legislature on January 4.

They are in the midst of preparing recommendations on the 1949-51 budget. Earl Berg, state administration commissioner, has been screening departmental requests, and now the big job of deciding what to recommend is being tackled.

Both state income and costs are at an all-time peak. The budget for the next biennium will most likely be the largest in the state's history. The governor's program calls for major increases in appropriations for several key functions.

The scramble for the office of Mayor of Minneapolis is now under way. Both political parties are now eyeing the office as an important stepping stone to state or national position.

Among candidates seeking the labor endorsement are Acting *Mayor Eric Hoyer*, Hennepin County Sheriff Ed Ryan, the Rev. John G. Simmons, and Don McReavy, Minneapolis businessman. Labor groups probably will take early action as soon as the controversial city charter amendment is voted on December 6.

Social Security Agent Will Visit City Dec. 7

A representative of the Grand Forks office of the Social Security Administration will be at the employment office in Thief River Falls Tuesday, December 7, starting at 9 a. m. to take applications for payments and conduct other business connected with the agency. W. D. Kistler, manager, stated today.

ONE OF A SERIES ANSWERING QUESTIONS ABOUT YOUR BANK

WHY IS THIS BANK
INTERESTED
IN HOW MUCH YOU SAVE?

Because we are interested in you and your financial progress and because your progress means progress for this community as a whole. When you save money, you benefit yourself and your family by building a reserve of ready cash that means greater financial security in the future. Money in your bank account is immediately available for meeting unexpected expenses, emergencies . . . or for planned pleasures, education, or home improvements. A growing savings account makes it unnecessary for you to cash U. S. Savings Bonds or dip into your invested reserves. In addition, saving regularly builds the habit of living within your income, spending less than you earn. And there are the essentials of sound financial progress and greater future security.

U. S. Savings Bonds, life insurance, real estate holdings, etc., are all a part of your saving program. Use your Union State Bank savings account to set aside a portion of your income regularly and accumulate the funds for these more permanent investments. Save today for a better tomorrow!

Cadillac
PRESENTS ITS CREATIVE MASTERPIECE...

...The world's newest engine—for the world's finest car

No Cadillac announcement has ever been more significant than the one which appears on this page. For, this year, Cadillac presents its creative masterpiece—a wholly new V-type eight-cylinder engine—which is, beyond all doubt, the highest development yet attained in automotive power plants. ★ This great power plant has been twelve years in the building—for basic development work started in 1936. It has many unusual qualities which set it apart from all other creations of its kind. It is far more alert, powerful and responsive to the throttle—yet it affords an increase in gasoline economy of approximately twenty per cent. And the manner of its performance actually challenges the imagination. It is liquid smooth; it is quick and eager beyond all experience; yet the power application is so effortless that the driver is scarcely aware of the engine's existence. The car seems almost to move by automatic propulsion. ★ Even experienced Cadillac owners must put aside all previous conceptions of performance when they drive the 1949 Cadillac. It is a revelation—from silken start to silken stop. ★ There are, of course, many other advancements in addition to the history-making engine. There is new beauty in the front ensemble; there is a newly-designed, more attractive instrument panel, with all driving controls at your finger tips; and throughout the chassis and body will be found those characteristic refinements which result from Cadillac's unceasing search for perfection. ★ But the big Cadillac story, for 1949, is performance. It is not only the world's new standard—it is beyond the world's current conception.

RED LAKE INDIANS GET $848,975 IN FOREST LAND SALE

Tribal Coffers Gain from Sale of Timber in the Northwest Angle

The tribal coffers of the Red Lake Indian agency, Red Lake, Minn., were enriched last week by $848,975 following sale of Northwest Angle timber to the Minnesota and Ontario Paper Co.

The auction bid of the company topped bids offered by the Diamond Match Co., the North Star Paper Co., St. Regis Paper Co. and the Northwest Paper Co.

The stumpage sold included 114,000 cords of aspen, 155,000 cords of spruce, 18,000 cords of balsam 30,000 cords of tamarack, 650 cords of jackpine, 1,250,000 cedar posts and 85,000 cedar poles.

The department of interior had set a minimum of $750,000 on the lot.

The Northwest Angle, northern most part of the United States is located in the north side of Lake o the Woods and is a contiguous part of the Red Lake reservation. The stumpage belongs to the Red Lake tribe.

FARM PURCHASING POWER DECLINES

Prices of Farm Products Drop 6 Pct. in October

Purchasing power of Minnesota farms products declined sharply last month.

The purchasing power index in October was at its lowest level since June, 1946, before price ceilings were removed, according to W. C. Waite and K. E. Ogren, University of Minnesota agricultural economists.

Reporting in the monthly Farm Business Notes, of University farm, the two man found the October value of farm products was only slightly higher than the average for the war period but still 30 per cent above the prewar years of 1935-39.

One of the reasons for the drop in purchasing power was that farm prices fell 6 per cent during October.

STATE PROPERTY TAX IS 6.77 MILLS

State Tax on Homstead Property Is 2.91 Mills

A state property tax levy of 6.77 mills for 1948, the lowest since the 1944 rate of 4.5 mills, has been certified by State Auditor Stafford King to county Auditors.

The taxes are collectible in 1949. The state levy will be added to city, school district and county rates in formulating the tax rate on which property in the various counties will be assessed.

The 6.77 mill rate applies to non homesteaded property, while homesteaded property will have a rate of 2.91 mills.

In 1947 the rate was 7.09 mills. The new levy is expected to raise approximately $7,500,000 to meet state financial needs, with the largest part of it going toward payment of bonded indebtedness.

The state legislature had decreed that the state levy hould not go beyond 7.3 mills, and the new rate is .53 under that limitation.

RATE ON JOB RISK INSURANCE IS CUT

State Board Orders 9.2 Per Cent Cut in Premiums

The state compensation insurance board has ordered a 9.2 per cent reduction in premium rates for workmen's compensation insurance, to go into effect January 1.

Cyril Sheehan, secretary of the board, said the reduction would mean a saving of $1,250,000 to employers next year. His calculation is based on current premium payments for such insurance to cover employes.

Action followed a public hearing last month, when the Minnesota compensation rating bureau, representing 84 companies authorized to write compensation insurance in Minnesota, proposed a reduction of 2.3 per cent.

Sheehan said the larger reduction was ordered because the bureau's proposal did not take into "full consideration" the large increases in wages during the past year. As wage rates go up, he explained premium payments, all on a percentage basis also up. Accordingly lower rates will raise the same amount of money.

The lower rate for 1949 follows similar action taken on the 1948 rates, when a reduction of 5.2 per cent was ordered.

Sheehan said he had no figures available on total premium payments made by employers this year, but said he believes they will exceed the $13,368,204 for 1947.

BEAUTIFUL LIFE SOMETIMES HAZARDOUS

Winger.—C. W. Balkee, Enterprise Editor, has relegated his office motto, Life Can Be Beautiful, to the alley ashpile—at least until he forgets a series of incidents suggesting that it can be otherwise. After a tedious wait for a vital Linotype part, another part broke. On his way to a neighboring newspaper for help, his car broke down, then the wrecker rumpled up the front end getting it into the garage. Next trip one tire blew out and another went flat. When the Enterprise was finally on the press the belt broke. When the press got to rolling again the delivery system went berserk—and so did Mr. Balkee.

Look Left, Look Right, Advice to Pedestrians from Editors Committee

A warning urging pedestrians to use utmost caution when crossing or walking in streets or highways, was sounded this week by the Minnesota editors' safety committee, through R. A. Hannah, Stillwater, chairman. The warning was prompted by the increase in pedestrian accidents which occurs each year when days get shorter and hours of darkness longer.

"Most important rule is to look left, then look right, before crossing any vehicular thoroughfare," said the committee. "This rule should be observed whether you have the righ-of-way or not. Having the right-o-way may help collect damages, but it will not mend broken bones.

"Pedestrians should cross only at intersections or marked crossings, and htey should cross with the green or walk signal at signalized crossings.

"When walking in or along any road or street, the only safe rule is to walk on the left side, facing traffic, yielding to oncoming vehicles.

"Wearing light colored garments or carrying something white is a great aid to visibility and safety at night. A dark clad person ona dark road in a dark night is often invisible to drivers until they are too close to stop.

"Drivers must do their part and be on the alert or pedestrians. They often pop out of the darkness in the most unexpected places."

WHY FARM BOYS SKIP SCHOOL

Two or three years ago somebody made the disconcerting discovery that Minnesota ranked 47th among the 48 states in the number of 16 and 17-year old farm boys attending school. Two university professors set out to learn why, and came up with these reasons: In areas where farmers need a great deal of help school attendance is low; where the value of farm products is high school attendance among farm boys is low; school attendance seems to run somewhat in proportion to school bus service; nationality and religious backgrounds seem to have some effect on schooling.

CITY COUNCIL PROCEEDINGS

Thief River Falls, Minnesota

The City Council of the City of Thief River Falls, Minnesota, met in regular session in the Council Chambers in the Auditorium and Municipal Building on November 9, 1948. The meeting was called to order at eight o'clock P. M. with all members present.

Minutes of the meetings of October 11th and 18th were read and the same were by motion duly carried, approved and adopted as read.

Monthly reports of the Clerk, Treasurer, Municipal Court, Weighmaster, Manager of Sports Arena, Police Department and report of audit of operations of the Municipal Liquor Dispensary for the quarter ending September 30th were presented, examined and ordered filed.

Application for building repairs and alterations permits were presented, as follows: C. W. Vorachek, repair of business structure, Lots 23-24, Block 58, Original Townsite, cost $2,000; Emil Anderson, moving into corporate limits a building to be used for residential purposes, placing the same on Lot 4, Block 2, Rafteseths Addition and improving to the extent of $2,000, which application was accompanied by an Indemnity Bond in the amount of $300.00, in connection with such intended use of streets; Arthur Rambeck, repair of Grocery Lots 1-3, Block 58, O. T. S., cost $300.00; all of which bore approval of the Building Inspector with the exception of the application of C. W. Vorachek. Alderman Fuller moved that the applications of Emil Anderson and Arthur Rambeck be approved and granted and that the Indemnity Bond of Emil Anderson be accepted and filed. Alderman Hellquist seconded the motion and the same was passed and adopted by unanimous vote.

Request for permits to conduct Bingo Games were presented, as follows: Ladies Auxiliary of the B.R.T. Masonic Hall on December 1st, Lions Club, City Auditorium on November 18th and Thief River Falls Aerie of Eagles Lodge, Eagles Hall, on second and Fourth Tuesday of each month to continue to April 1949. Alderman Hall moved that such requests be approved and permits therefor be authorized only in accordance with the State Law governing the conduct of such Bingo Games. The motion was seconded by Alderman Hellquist and the same was passed and adopted.

Public Contractors of O'Hara Fuel & Transfer Company in the amount of $500.00, with Fidelity & Casualty Company of New York as surety and in connection with the furnishing by said Company of fuel to supply the Municipal Building of the City for the heating season 1948 and 1949 was presented and was duly approved as to form and execution by the City Attorney. Alderman Hall moved that the same be accepted and filed, the motion being seconded by Alderman Fuller and declared adopted.

Public Contractors Bond of Crane Company, in the amount of $6607.70, with U. S. Fidelity and Guarantee Company, Maryland as surety and in connection with the furnishing of certain items of equipment for proposed Water Treatment and Softening Plant, was presented and the same was approved as to form and execution by the City Attorney. Alderman Stanbridge then moved that the same be accepted and filed, which motion was seconded by Alderman Fuller and adopted.

Engineer Stewart presented a report of estimates costs in connection with a proposed extension of sanitary sewers on State Avenue South from First Street South to the Great Northern Right-of-way, as petitioned for by Wm. Sheedy and others and filed September 14, 1948 in which the estimated cost of construction was set at $1700.00 for sewer. In the event that it could legally be done, such extensions be proceeded with under a supplemental agreement with Casper & Lyons Company. The Council took no action in the matter and it was ordered laid over for future consideration.

There was presented a report and estimate of costs of construction of a water treatment plant in accordance with the plans and specifications prepared in 1945 by Consulting Engineers Lium and Burdick, Grand Forks, N. D. under which specifications and plans bids had been received in December of 1945 and rejected due to excessive cost and the fact that only one proposal was received in response to advertisement. The report indicated that since that time construction costs has increased so that it was now estimated that the present cost of construction would be $458,000.00 and in view of continuing rises in material and labor costs, it was recommended that a total building fund of $500,000.00 be provided.

Director of the Legion-Municipal Band, G. E. Ahre, requested authority for the purchase of two Baritone Horns for use by such band and suggested that advertisement be made for receipt of proposals for the furnishing of such equipment. Alderman Gjernes moved that the Clerk be directed to cause notice to be published calling for such proposals, bids to be opened and considered on December 14, 1948. Alderman Hall seconded the motion which was thereupon unanimously adopted.

An application was presented by Tom Belland, previously presented on March 9th, 1948, and requested a reduction in assessed valuation of personal property, cabin trailer, for the year 1948, from $9.42 to $3.14, such application being accompanied by a recommendation of the Assessor that the request be denied and stating reasons therefor. Alderman Stanbridge moved that the request be denied, the motion being seconded by Alderman Fuller, and the same was duly adopted.

Representatives of the Park Board appeared before the Council and recommended that the City purchase for the purpose of enlargement of facilities of Tindolph Park the property comprising 10½ lots between Crocker and Tindolph Avenue and north of Nora Street. The President ordered the matter referred to a Committee composed of Fuller, Hellquist and Gjernes for an investigation and report.

The Athletic Director of the Lincoln High School presented his schedule for use of the Sports Arena for activities as follows: Before Christmas Vacation—Monday and Friday of each week from 4:00 to 6:00 P. M. and on Saturday of each week from 10:00 to 12:00 A. M., during Christmas vacation, Monday and Saturday from 10:00 to 12:00 o'clock A. M.; thereafter Monday, Wednesday, Thursday and Friday of each week, 4:00 to 6:00 o'clock P. M. to January 3rd, the end of season. Alderman Stanbridge moved that such schedule be approved. The motion was seconded by Alderman Fuller and adopted. William LaFave of the Recreation Board brought up a matter of possibility of securing a full time Supervisor of Recreation for a period of three months during the Skating Season and the matter was referred to the Building Committee for consideration and report.

Superintendent of Water and Light Legvold brought up the matter of the account with the Silverton-North Light and Power Association whereby such Association verbally agreed to reimburse the City for materials and labor in the extension of power line to its members outside the corporate limits of the City and had up to this time failed to do. Alderman Hall moved that the City Attorney be directed to take such steps as are necessary to enforce collection of the account. The motion was seconded by Alderman Hellquist and the same was unanimously adopted.

The City Clerk was by motion of Alderman Hellquist, seconded by Stanbridge and adopted, instructed to cause notice to be published calling for proposals for the furnishing and delivery of 1200 yards of gravel on the streets of the City, bids to be opened and considered on December 14, 1948.

The Council then proceeded to discuss the application of C. W. Vorachek for a permit to repair to the extent of $2,000 his property located on Lots 23-24, Block 58 of the Original Townsite, which property had been in a state of condemnation by the State Fire Marshall, against which C. W. Vorachek had appealed to the District Court of the Fourteenth Judicial District and which action came before the said Court on September 9th, 1948 with subsequent Order for Judgment. Mr. Vorachek was present in his own behalf and presented arguments for the granting of a permit to repair the building. The Council cited the fact that the owner had as yet failed to comply with one particular order of the Court, that of immediate eviction of present tenants and occupants from the property, and that no occupancy would be permitted until repairs and alterations had been authorized. Alderman Gjernes then moved that permit for repairs and alterations be denied. The motion was seconded by Alderman Stanbridge. The roll was then ordered called on the question of adoption of such motion and all members voted in favor thereof. The motion was thereupon by the President, then presiding, declared passed and adopted.

Alderman Stanbridge introduced a resolution approving as a supplemental Agreement to their regular contract, a proposal of Crane Company, Fargo, N. D. quotation No. 34-40, dated September 29, 1948, covering the furnishing of certain items of materials to be used in the construction of a Water Treatment and Softening Plant, bids for which had been received on September 28th, 1948, and moved the adoption of such resolution. Alderman Fuller seconded the motion and the resolution was thereupon by a roll call vote duly passed and adopted.

Alderman Fuller introduced a resolution approving for payment to Prichard Brothers Company of $4504.75, being Estimate No. 3 for the erection and construction of a Storage Vault and Chapel at the municipally operated burial grounds and moved the adoption of such resolution. The motion was seconded by Alderman Stanbridge and the resolution was thereupon duly passed and adopted.

Alderman Hellquist introduced a resolution approving and directing the payment to Minneapolis Bridge Construction Company, the sum of $3333.58, being Estimate No. 4 in connection with the construction of foundation for 2800 BHP. Nordberg Diesel Engine and moved the adoption of such resolution. Alderman Hall seconded the motion which was then passed and adopted by unanimous vote.

Alderman Hellquist introduced a resolution approving for payment various current bills against the City and moved the adoption of such resolution. The motion was seconded by Alderman Gjernes and the same was by unanimous roll call vote, duly passed and adopted.

Alderman Hellquist then moved that the meeting be adjourned to Wednesday, November 17th at eight o'clock P. M. The motion was seconded by Alderman Fuller, adopted, and the meeting was declared so adjourned.

ALFRED BREDESON,
President of the Council.
Attest: P. G. Pederson,
City Clerk.

RESOLUTION

At a regular meeting of the City Council held November 9, 1948, Alderman Stanbridge seconded by Alderman Fuller introduced the following resolution and moved its adoption:

BE IT RESOLVED, By the City Council of the City of Thief River Falls, Minnesota, that

WHEREAS, the city did, on the 20th day of October, 1948 enter into a contract with the Crane Company of Minnesota, to furnish certain materials and equipment for the construction of the water treatment plant for the city in accordance with the specification of Lium and Burdick, engineers, And the said Crane Company of Minnesota, has since submitted a proposition to furnish, supplemental to said agreement, certain other fixtures and equipment described and specified in their quotation No. 3440, dated September 29, 1948, And the council being satisfied that said supplemental proposition is the lowest and best bid that can be had on the materials and equipment therein specified, and the same having been approved by the engineers in charge of the project,

NOW THEREFORE, be it resolved that the offer of the Crane Company of Minnesota, dated September 29, 1948, be and hereby is accepted and the same is attached to the contract dated October 20, as supplemental agreement No. 1.

ROLL CALL.

Aldermen voting Aye: Hall, Bredeson, Stanbridge, Fuller, Gjernes, Hellquist.

Aldermen voting Naye: None.

Resolution declared passed.

ALFRED BREDESON,
President of the Council.

Presented to the Mayor November 9, 1948.

Approved November 15, 1948.

H. E. SIMONS,
Mayor.

Attest: P. G. Pederson,
City Clerk.

Pursuant to adjournment the City Council of the City of Thief River Falls, Minnesota, met in session in the Council Chambers in the Auditorium and Municipal Building on November 17th, 1948. The meeting was called to order at eight o'clock P. M. with Aldermen Hall, Bredeson, Fuller, Gjernes, Hellquist present and Alderman Stanbridge absent.

The following Public Contractor's Bonds were presented and were examined and were duly approved as to form and execution by the City Attorney: The Dorr Company, 570 Lexington Avenue, New York in connection with furnishing of equipment for Water Treatment and Water Softening Plant in the amount of $11,145.00 with Fidelity and Deposit Company of Maryland as surety and Chicago Pump Company of Chicago, Illinois, in connection with furnishing of equipment for repairs and reconstruction of Kendall Avenue Sewer Lift in the amount of $1738.00 with American Bonding Company of Baltimore as surety. Alderman Hall moved that such bonds be accepted and filed, which motion was seconded by Alderman Hellquist and the same was duly adopted.

Alderman Hellquist moved that the proposed Ordinance entitled "An Ordinance adopting Chapter 621, Laws of Minnesota for 1947 and authorizing the Police Department of the City of Thief River Falls to organize and maintain a Policemen's Relief Association duly incorporated under the terms of said Chapter 621, Laws of Minnesota for 1947" and moved that such proposed ordinance be given its second reading. Alderman Gjernes seconded the motion and all members voted in favor thereof and was carried. The proposed Ordinance was thereupon read and filed.

Alderman Hellquist introduced a motion that the Office of the State Public Examiner be requested and authorized to prepare and install a complete system of accounting for the operation of the Municipal Liquor Dispensary now in operation by the City and moved adoption thereof. The motion was seconded by Alderman Fuller. All members voted in favor of such motion and the same was thereupon declared passed and adopted.

Alderman Hall introduced a resolution determining to conduct a Special Election for a vote on the question of issuance of Bonds not exceeding $250,000, maturing serially three to twelve years from their date, bearing interest at a rate of not to exceed 2½ per cent per annum for the purpose of providing additional funds for the erection of a Water Treatment and Water Softening Plant; such election to be held and conducted on December 28th, 1948 and moved the adoption of such resolution. Alderman Fuller seconded the motion. The roll was then called on the question of its adoption and all members voted in favor thereof. The resolution was then, by the President, declared passed and adopted.

Alderman Gjernes introduced a resolution accepting the offer of the Tri-State Land Company, in which they agreed to transfer and convey to the City a site for the proposed Water Treatment and Water Softening Plant for a consideration of $500.00 and directing the Mayor and Clerk to issue and deliver the City's check in payment thereof on delivery of Deed and good title to be approved by the City Attorney and moved the adoption of such resolution. The motion was seconded by Alderman Hall and the resolution was thereupon by unanimous roll call vote, duly passed and adopted.

Alderman Fuller moved that Clerks McKenna and Wold in the office of the City Clerk be directed to furnish and file fidelity bonds in the amount of $2,000 each. The motion was seconded by Alderman Gjernes and the same was unanimously adopted.

S. L. Stolte of the engineering firm of P. C. Bettenburg Company, St. Paul, Minnesota, was present and tendered a proposal by his company for engineering services in a survey to establish present ground elevations, location and details of present sewer and water systems and street improvements, including curb, gutter and sidewalk and make the preliminary engineering study for a proposed Master Plan for construction, extension or improvement of water, sanitary and storm sewer systems and street improvements, payable on an hourly basis for such preliminary survey and following any such projects under construction to final completion on a percentage basis. It was estimated that the preliminary survey would entail an expenditure of approximately $17,000 and would [illegible] the [illegible] part of 1949 to complete. Alderman Gjernes introduced a resolution accepting such proposal, the city reserving the right to terminate said contract at any time if the indebtedness of the City to said engineers is paid up to date and moved the adoption of such resolution. Alderman Hall seconded the motion and the roll was called on the question of its adoption. All members voted in favor thereof and the resolution was thereupon declared passed and adopted.

Donald LaFontaine and Virgil Schultz appeared before the Council with regard to a possibility of their securing a license to operate two new Plymouth cars in Taxi service. After hearing Selmer Dimmen who was the holder of license to operate a taxi service and who at the present time had discontinued operations, the Council advised the new applicants that license would be granted them provided that they comply with the provisions of the recent Ordinance covering such service.

Alderman Hellquist then moved that the meeting be adjourned, which motion was seconded by Alderman Fuller, adopted, and the meeting was thereupon declared adjourned.

ALFRED BREDESON,
President of the Council.

Attest:
P. G. Pederson,
City Clerk.

RESOLUTION

At an adjourned regular meeting of the City Council of the City of Thief River Falls, held on the 17th day of November, 1948 and all the members of the Council and the City Clerk being present, except Alderman Stanbridge, Alderman Hall seconded by Alderman Fuller introduced the following resolution and moved its adoption.

BE IT RESOLVED, by the City Council of the City of Thief River Falls, Minnesota, that,

WHEREAS, at a regular meeting of the City Council held on the 20th day of July, 1945, the City did by resolution duly adopted, duly determine to erect a Water Treatment and Water Softening Plant for the City at an estimated cost of $250,000, and did then and there determine to issue and sell the City's Bonds in the sum of $250,000, which bonds were advertised for sale and sold. That the City Council did thereupon employ as consulting engineers the firm of Lium and Burdick of Grand Forks, North Dakota, and such firm of engineers having prepared plans, estimates, and specifications for such Water Treatment and Water Softening Plant, and the Council having thereafter advertised for bids for the construction of such Water Treatment and Water Softening Plant of the capacity recommended by the said engineers, and bids having been received for furnishing of labor and materials for the construction and installation of such Water Treatment and Water Softening Plant of the capacity to furnish water sufficient for the use of the city and its inhabitants in accordance with an increased demand now being made for water for domestic purposes, and having been found that the proceeds from the first issue of bonds now held in the treasury of the city is insufficient to construct and furnish such a Water Treatment and Water Softening Plant as the demand requires; that the engineers have at the request of the City Council prepared and filed with the City Clerk an amended estimate of the cost of the construction of said Water Treatment and Water Softening Plant.

NOW THEREFORE, BE IT RESOLVED, That the City Council deem it expedient and necessary and do hereby determine to issue and sell the negotiable interest bearing bonds of said City in a sum not to exceed Two Hundred and Fifty Thousand Dollars ($250,000) bearing interest at a rate of not to exceed two and one-half (2½) percent per annum in order to provide for said purpose.

BE IT FURTHER RESOLVED, That the proposition of issuing said bonds shall be submitted to the qualified electors of said City at a special election which is hereby called to be held in said City on the 28th day of December, 1948.

BE IT FURTHER RESOLVED, That the notice of such election shall be given by the City Clerk as provided by law, by posting a copy of said notice in three (3) of the most public and conspicuous places in said City, and by publication thereof in the official newspaper of said City according to law, and which notice shall be substantially in the following form:

NOTICE OF SPECIAL ELECTION

Notice is hereby given that a special election will be held in the City of Thief River Falls, Pennington County, Minnesota, on Monday, the 28th day of December, 1948, for the purpose of voting upon the following proposition:

Picture of a Man Who Was Going to Have His Brakes Fixed "NEXT WEEK"

For the past six months, Joe was going to have his brakes fixed "next week," but something always came up to make him postpone it. They weren't too bad, he'd say, and squeeze another week's driving out of them. But today his weary, old brakes gave out while he was doing 35 but he really hit that wall.

By the way, how are your brakes?

Cheerville School News

Thanksgiving vacation has come and gone and now we will begin thinking of Christmas. Plans are under way for a program to be given on Thursday evening,

Dec. 23. The children are busy trying to sell Christmas Seals.

During two of our art periods, we made nut cups and place cards for the patients at Oakland Park Sanatorium. They were filled and delivered there in time for Thanksgiving.

Last Wednesday afternoon, we enjoyed the company of the pupils and teacher of Dist. 12 at a party at our school, Dist. 151. After several lively contests, lunch was served consisting of dixi-cups and chocolate cake.

It is report card time again. Those having perfect attendance for this six weeks period are Carol Anderson, 2nd, Janice Finstad and Darlene Lee, 4th, Gail Iverson and Fern Mathson, 7th. Those having an average over B or better are Gail Iverson and Fern Mathson, Janice Finstad and Carol Anderson.

Mr. and Mrs. Melvin Anderson and children, and Mrs. John Blakey of T. R. Falls motored to Grand Forks, N. D. and had Thanksgiving day dinner at the home of Mr. and Mrs. Z. Picard.

Mr. and Mrs. John Gullingsrud and family were Sunday dinner guests at the Melvin Anderson home.

Alfred Huseby received a telegram call on Saturday evening informing him that his uncle, John Husby had passed away that day at Dutton, Mont.

Helping Arnold Gunderson celebrate his birthday on Friday evening were Mr. and Mrs. Paul Engelstad and Peter, Mr. and Mrs. Carl Finstad, Mr. and Mrs. Martin Finstad, Janice, Virginia and Bonnie, Mrs. O. B. Gunderson, Gina and Gordon, John Stromberg, Mrs. Arnold Gunderson, Wayne, Marilyn and David.

Mr. and Mrs. Clayton Klengard and Charon left Saturday evening for their home at Eleva, Wisc. after spending a week here with Mrs. Klengard's father, Nick Hanson, and brothers, Edwin, Albert and Arnold Hanson.

Fred Marquette, Jr. is visiting with his brother, Roy Marquette in Jacksonville, Fla.

Elmer Husby of Roseau, Edwin Husby of Fosston and Alfred Husby left for Dutton, Mont. to attend funeral services for their uncle, John Husby.

Mr. and Mrs. Earle Ripley of T. R. Falls spent Sunday of last week at the C. H. Toomey home.

Mons Engelstad, Alfred, Cleo and LaVern, Conrad Engelstad, James Engelstad, Bob and Allen Weckworth left Monday morning for Hoople, N. D., where they are working on quonset buildings. Dennis Hanson left for Hoople on Tuesday morning.

Traffic Continues to Increase in Minnesota

Traffic on Minnesota trunk highways in November was 9.2 per cent greater than in November, 1947, according to data gathered by the automatic traffic recorders operated by the state highway department. Average increase from January to November, compared to the same months last year was 8.4 per cent.

THIS AND THAT AMONG NEW ODDITIES

When the steering gear broke on the Orville Thomas car, Wadena, it wobbled over and stopped right in front of a garage. When she released some ducklings in a swamp near Milroy, Jean Parish lost her diamond ring; early in November her father noticed the area had been burned over and decided to take another look; in five minutes the ring was on its way to a good cleaning, no worse off for six months in the rough. When his tractor went out of control near Waconia, Andrew Stender was injured; several neighbors finished the fall work on his 100-acre farm.

Indians Had Rubber Balls

When Columbus landed on the island of Santo Domingo on his first voyage he found the young Indians playing with balls made of elastic resin. He took samples of this resin back to Ferdinand and Isabella and it became known in the Spanish language as caucho. Joseph Priestley, the famous discoverer of oxygen, saw a small ball of this elastic gum in 1770. He found that when it was rubbed over pencil writings it eliminated them, so he called it rubber.

Name Minnesota Top Ranking 4-H'ers

TRIPS to the 27th National 4-H Club Congress in Chicago were given four Minnesota club member as rewards for their outstanding records in the 1948 National 4-H Farm Safety, Field Crops, Health and Poultry programs. The state winners and brief outlines of their records follow:

The practice of best personal health habits and aid to home and community health service has won La Vonne Luthe, 17, of Claremont, State honors in the 1948 National 4-H Health Improvement program. In her five 4-H years La Vonne has given 11 health demonstrations on "Care of the Feet" and "Care of Skin, Hair and Nails." The oldest child in the family, she has planned and served many meals. She has also served her club as president for two years and junior leader for three years, and has represented her county in the state 4-H Health contest. She gave 19 talks and wrote 21 4-H news stories. As a recognition of her 4-H health activities, Kellogg Company has provided La Vonne an all-expense trip to the National 4-H Club Congress, Chicago. County 4-H groups winning $20.00 cash awards for their health activities are: Watonwan Willing Workers Club of Blue Earth county; Excelsior, Chisago; Verona Lively Leaders, Faribault; Star Lake, Meeker; Klossner, Nicollet; Sunnyside, Pine; Eden Jolly Juniors, Pipestone; Golden Arrows, Ramsey; Thrifty Thrivers, Swift, and St. Croix Loggers of Washington county.

An outstanding youthful farmer, Ernest Schlichting, 18, of Staples, has won State honors in the National 4-H Field Crops awards program. During his seven years of club work Ernest planted and tended 23 acres of corn, four acres of potatoes and a family garden. He learned much about seed bed preparation, use of fertilizers and approved cultivating and harvesting methods. He also found time to take part in many club activities preparing demonstrations and exhibits. He served as president for three terms, secretary, reporter, junior leader and was county vice president. He completed 36 projects. In recognition of his achievements, International Harvester Co. provided Ernest with a National 4-H Club Congress trip award.

By eliminating accident and fire hazards around his farm, home and community, Ralph J. Braun, 19, of St. Cloud, has won top State honors in the National 4-H Farm Safety program. During his five years in club work, Ralph has accomplished much in 4-H safety work which was his chief project. He made a safety survey of his farm and home, removing hazards as he went along. Garden tools were put away; dangerous nails pulled; poison bottles identified by strips of sand paper; ashes placed in metal containers and electrical units checked. Ralph was twice awarded the county medal for safety and his posters also won awards. In addition, he has found time to serve as club president, treasurer, reporter and junior leader. In recognition of these achievements, General Motors provided Ralph an educational trip to the National 4-H Club Congress, Chicago.

La Vonne Luthe

Ernest Schlichting

Ralph J. Braun

Herbert Thompson

What he has learned about poultry raising and marketing has helped Herbert Thompson, 19, of Swanville, to win State honors in the 1948 National 4-H Poultry Achievement program. During his six years of club work Herbert raised 800 chickens. In poultry shows he exhibited two grand champion pens; three reserve champion pens; several blue ribbon pens and numerous blue and red ribbon pens in open competition. For the past three years Herbert was chief assistant in the County Fair poultry barns and also took part in judging. He served his local 4-H club as president and vice-president for two terms and acted as junior leader. As a recognition of his many achievements, Dearborn Motors Corporation provided Herbert an educational trip to the National 4-H Club Congress, Chicago.

All of these activities are conducted under the direction of the Extension Service of the State Agriculture College and USDA cooperation.

SMILEY

Thanksgiving this year was a perfect day. There was snow on the ground and there was just enough "nip" to the air as over the ground we all did go to the various dinners here and there. After a few days of recuperation from huge repasts, thoughts generally turn to preparations for Christmas, that marvelous time of the year. Time goes faster than we think so that there becomes a feverish need for haste as the great day approaches, Christmas, that is.

The greatest social activity in Smiley this season was that super duper dinner and fancy work sale at the Bethany church Thanksgiving Day.

The ladies of the church are to be complimented on putting on such a treat. They cleared way over three hundred dollars. In the afternoon, after a sumptuous chicken dinner, Donald Knutson, local auctioneer made short and snappy work of the hundred articles of fancy work.

Alan Cabot was home for the holidays. He is attending the Bemidji state teachers college. He is doing all right there too, since he was in the cast of that excellent play "I Remember Mama" and he is also in the school's choir that tours around the country giving concerts.

Friday evening visitors at the Carl E. Olson home were Mr. and Mrs. Bob Kraemer and daughters, Mr. and Mrs. Frank Smith and Renee, Mrs. Goethe of Thief River Falls and her daughter Ardith of Minneapolis, Mr. and Mrs. Joe Virzi and Marcia of Grand Forks, Mr. and Mrs. Norman Johnson, Joan and Gloria.

Melvin Vgen of the University of North Dakota had a vacation from Tuesday to Monday which he spent with home folks, the Ed Vigens.

Monday evening visitors at the George Ege home in Thief River Falls were Mr. and Mrs. Jim McCrum who had also called at the hospital to see Mrs. Walter Lendobeja earlier that evening.

The Herman Rude's are very nicely settled in a large house on South Conley Avenue, the last house there in Thief River Falls.

Mr. and Mrs. Stanley Karlstad of Minneapolis came up for a turkey dinner Thanksgiving Day with his folks, the Martin Karlstads. Mr. and Mrs. Iver Karlstad were also guests.

The good folks of Smiley wish for the rapid and complete recovery to one of its most prominent citizens, Mrs. Walter Lendobeja. She has been a very sick woman, having had a major operation two weeks ago and several blood transfusions. She is now convalescing quite nicely at her home with her daughter, Mrs. Donald Holt (Dolores) of Grand Forks caring for her.

Chief Machinists Mate Dale Johnson and his wife came Wednesday evening by car from their home in San Diego, Calif. They left again Friday morning accompanied by his parents, Mr. and Mrs. Louis Johnson who will spend the remainder of the winter with Dale and his wife. The Dale Johnson's ran into considerable trouble coming up here, what with several snow storms, icy roads, and plenty of sleet.

Friday visitors at the Carl Belswenger, Sr. home were relatives August Ross and his family, the Walter Belswenger family and Mrs. Henry Belswenger all of Fisher. These people showed their colored movies that they had taken on a trip out west last winter. It was amazingly beautiful, the one taken of the Hollywood Rose tournament parade.

A turkey dinner was enjoyed on Thanksgiving day at the O. N. Olson home by Mr. and Mrs. Winton Knutson and Leo Knutson of Numedal, Mr. and Mrs. Mark Olson, Wayne, Judy and Phyllis, Mrs. O. N. Olson and Clara, Mr. and Mrs. Jim McCrum, Bruce, Marilyn and Bobby.

Mr. and Mrs. Lester Ringstrand of Thief River Falls visited at the Carl E. Olson home Saturday evening. The Joe Virzis (Clarice Olson) of Grand Forks were also there as they spent the holiday at the Olson home.

Joe and Sally Knutson left Wednesday for Minneapolis where they have a nice home purchased last winter. They will reside there until after Christmas. They plan to take their beautiful trailer house which is one of those "real McCoy" things and motor to the vicinity of San Antonio, Texas where they will live indefinitely.

Sunday dinner guests at the Winton Knutson home in Numedal were Mr. and Mrs. Mark Olson and children, Mr. and Mrs. Hjalmer Waller of Hoffman, and Harry Waller of Brinsmade, N. Dak.

National Defense

National defense constitutes the largest single item of the budget. It is placed at 11 billion dollars, or 33 per cent of the total.

KRATKA

The Kratka 4-H club met at the Meadow Lark school last Friday evening. The Christmas party will be held Tuesday evening, Dec. 21. A program was given consisting of a demonstration by Betty Olson on "How to Make an Apron from Four Handkerchiefs"; reading by Glen Lendobeja, Elwood Tieman and Donald Breiland, and group singing by Mrs. Joe Johnson and Mrs. Alvin Burstad. Lunch was served by Mrs. Ted Lendobeja and Mrs. Wallace Tieman.

Lamb Warmer

North Dakota experimental station has produced an electric lamb warmer which has been tested out successfully. The warmer is a box about 2 feet wide, 5 feet long and 2½ feet high, equipped with two electric lamp bulbs to furnish heat for drying the new-born lambs.

Steel Industry Expanded To Add Five Million Tons

Expansion and improvements in the steel industry completed in the past year or now scheduled for completion in 1948 and 1949 will add nearly five million tons to the steel-ingot capacity, which the country had January 1, 1947, it is announced by American Iron and Steel institute.

The increase represents one of the greatest peacetime expansions in the history of the industry. On completion of scheduled additions, steel capacity will exceed the wartime peak.

During the past year alone steel ingot capacity in the United States has increased by almost three million tons to a total of 94,233,640 tons. Two million more tons of new capacity are planned for completion during this and next year.

Steel company plans indicate a further increase in blast furnace capacity of 2,024,000 tons this year, and an additional 476,000 tons is planned for 1949. Coke oven capacity has been increased to a record high level and further increases are scheduled through 1949.

Major expansions are also taking place in capacity to produce finished products, particularly sheet and strip steel, tubular products and others in greatest demand.

MINNESOTA HISTORICAL SOCIETY

CULKINS AGAIN PENNINGTON CO. ACA UNIT CHIEF

Hans Solberg, Goodridge, and S. H. Ness Are Also on County Committee

Patrick W. Culkins of Hazel, was elected chairman of the Pennington County Agricultural committee at the annual convention held in the Triple-A office in Thief River Falls on December 3. Serving on the committee with Mr. Culkins the next year are Hans Solberg, Goodridge, and S. H. Ness, Route 5, Thief River Falls.

Mr. Culkins has farmed in Pennington county for the past 28 years. He has taken an active part in the various farm programs since he was appointed farm reporter in 1936 and 1937. In 1938 he was elected to the community committee in Smiley township. In 1939 he acted as crop insurance supervisor, and as commodity loan inspector in 1941. In 1942 Mr. Culkins was elected a regular member of the Pennington county ACA committee, and has served on that committee continuously since that time. He has also been adjuster for the Federal Crop Insurance Corporation since 1942.

Mr. Solberg has also had many years experience in the administration of the farm programs in Pennington County, beginning as a farm reporter in 1936 and 1937. In 1938 he was elected to the Star-Riener community committee, and in 1939 was elected vice-chairman of the Pennington county ACA committee. He has been re-elected to the county committee each year since that time, as well as having served as community loan inspector and as Federal Crop Insurance adjuster.

Mr. Ness was elected chairman of the Sanders community committee in 1936, which position he held until 1948. In the fall of 1947 he was elected first alternate member of the county committee, and became a regular member of the committee in 1948.

The county committee has the responsibility of seeing that funds allotted to the county for conservation are used to get the maximum amount of conservation for each dollar spent under the agricultural conservation program.

Practices approved for national use in conserving soil and water are drawn up by the county committees, state PMA committees, state technical committees, and the Agricultural Conservation programs Branch in Washington, D. C. County practices are selected and adapted by community and county committeemen.

The Pennington county committee also reminds all Pennington county producers of flax, wheat, oats, barley, and rye that December 31, 1948, is the final date to apply for a loan or sign a purchase agreement which will assure them of the support price on all 1948 production.

ZEHLIAN ART UNIT AWARDS PRIZES IN 3RD ART CONTEST

Prizes Given Wednesday by Mrs. Rudy Larson at High School Assembly

Winners in the third annual art contest sponsored by the Zehlian group of the Thief River Falls Women's club were announced by Mrs. Rudy Larson, president of the unit, at a Lincoln high school assembly program Wednesday afternoon.

The contest, designed to encourage interest in art in this community, and open to Pennington county students in the seventh to twelfth grades, was conducted under the chairmanship of Mrs. L. W. Bullen. Awards included first prizes of $10 each and second of $2.

Winners in the various divisions follow:

Portrait: Lorraine Hallquist, first; Barbara Nilsson, second. Landscape: Wilton Hanson, first; Evangelyn Evenson, second. Abstract: Jack Almstadt, first and second. Still life: Lois Mowris, first and second.

OEN APPLIANCE SERVICE FORMAL OPENING DEC. 15-18

Public Is Invited to Inspect New Fireproof Quarters on Atlantic

Roy J. Oen, president of the Oen Mercantile company, oldest business institution in Thief River Falls, today announced that the formal opening of the Oen Appliance Service in its attractive new building on Atlantic av. Eighth st., will be held from Wednesday, December 15, thru Saturday, the 18th.

Valuable prizes will be awarded each of the four days in addition to which favors will be given all visitors, Mr. Oen stated.

The new structure, built of fireproof materials and with a 74-foot front of double plate glass was erected by Erickson, Solheim & Ness, and provides ample space for offices, showroom and storage.

The company will handle home appliances, outboard motors and sporting goods, cream separators, tools and allied lines of merchandise.

MRS. TOOMEY AT WELFARE PARLEY

Welfare Board Secretary at Chicago Conference

Mrs. C. H. Toomey, secretary of the Pennington county welfare board, will represent the board at the annual Round Table Conference of the American Public Welfare association being held in Chicago, Illinois the last three days of this week.

It is expected that one or more representatives from every county in the United States will be present at the conference.

Speakers will include representatives from the Social Security Board as well as many of the state administrators. The conference is being held in the Edgewater Beach Hotel in Chicago.

Local Legionnaires at Minneapolis Conference

In attendance at an American Legion conference last Friday and Saturday at the Nicollet Hotel in Minneapolis were Leonard Hanson and Willard Hofdahl, respectively commander and adjutant of Ecklund-Holmstrom post of the Legion; and Ivan Bundy and Willis Wright.

SMALL VOTE IS CAST IN NEARBY VILLAGES DEC. 7

Absence of Contests Discourages Interest in Annual Elections

In elections Tuesday featured by the absence of contests or special issues, with resulting apathy on the part of the electorate, residents of villages in this area turned out in small numbers to elect officials for the coming terms.

In Holt, where 33 votes were cast, Hartley Peterson was named councilman for a three-year term; Marvin Sandberg, assessor; and Walter Larson, clerk, succeeding George Fricker, who declined to be a candidate after having served as clerk for 22 years.

With only 36 votes cast in the village of Plummer, Peter Roesch was elected councilman; Josephine McCrady, clerk; Gordon Nyland, treasurer; Severin Gauthier, assessor; Merle Skatvold, justice; and Orval Roese, constable.

There were no contests in St. Hilaire, 40 voters turning out to elect Wendell Corbet and T. Kolden as councilmen; Oscar C[illegible]stad, clerk; and Verne Lindquist, treasurer.

In Goodridge a total of 28 votes was cast, those elected including Carl Lindstrom, mayor; Carl Syverson, trustee; Dan Josephson, clerk; Rev. O. O. Bjorgan, assessor; and Albert Manderud, treasurer. Melvin Hyland and Ted Rustad tied for the office of village clerk, and it had not been decided yesterday which of the two men would serve.

In Grygla there were no contests, 36 ballots being cast. Martin Ellingson was elected trustee, succeeding Albert Miller; Martin Loberg was reelected clerk; Palmer Fonnest, treasurer; and Ann Austad, assessor.

ARTHUR A. JOHNSON TO HEAD MASONS

Elected Thursday to Succeed Chris Rinkel

In the annual election conducted last Thursday evening by Northern Lodge of Masons, Arthur A. Johnson was named worshipful master for the coming year, succeeding Chris Rinkel.

Others elected include L. A. Ihle, senior warden; D. F. Zabel, junior warden; J. Fabrick, secretary; C. W. Vorachek, treasurer; and Paul A. Lundgren, trustee. Mr. Johnson will announce the names of appointive officers later.

Installation of the new slate of officers will be held late in December, it was announced.

Hobbs at Conference

County Agent Frank Hobbs will leave next Monday for St. Paul to attend the annual conference of state extension workers at University Farm December 14 to 17.

Proposal Advanced to Aid in Financing New Court House

The city planning board at a meeting Monday evening voted to sound out sentiment of local organizations and individuals relative to a plan to aid in financing the construction of the proposed new Pennington county court house.

Under the proposal as tentatively approved, the planning board, of which Bill LaFave is chairman, would request the city council to seek enactment by the state legislature at its coming session of a special law which would enable the city to assign a portion of the future profits of the municipal liquor dispensary to be used to help pay for the new court house.

The enabling act, if passed, it was explained would permit the council to make appropriations for this purpose from time to time, but would not obligate the city to pay any fixed sum, which matter would be dependent on the future earnings of the dispensary.

It was pointed out that the need of erecting a new court house is urgent, owing to the fact that the present structure has been condemned by the state fire marshal, and that it offers little protection against fire for the irreplaceable documents stored in the building.

Several speakers at Monday's meeting pointed out that another urgent need in this community is an addition to the Carnegie public library, this position being taken by Miss Katherine Barzen, Mrs. Warren Ferber and C. W. Pope.

Chairman LaFave named Norman Peterson and Vic Jung, members of the board, as a committee to confer with the city council at its session next Tuesday, and called a special meeting of the planning board for Monday evening, December 20, 7:30.

Telephone Directories Mailed out Tuesday List 225 Additional Numbers

New telephone directories bearing the date of November 1948 were distributed by mail Tuesday to patrons of the Thief River Falls exchange of the Northwestern Bell Telephone company. In addition to 24 pages of listings, the new book also includes 56 pages of classified business listings. A. J. Rau, manager of the exchange, stated that the 1948 directory contains 225 more listings than the last book issued in October 1947, as well as including approximately 500 changes of address or telephone number.

SEVERAL TRAFFIC MISHAPS CAUSED BY ICY STREETS

Jarvis Prichard Suffers Leg Injury in Collision Here Wednesday Morning

Due to the icy condition of streets in the city this week, numerous automobiles have skidded out of control, with resulting damage to cars in several cases and, in two instances, injuries to the drivers, Police Chief Glen Ahre reported.

Jarvis Prichard sustained torn ligaments about the knee and a possible fracture Wednesday morning when his car collided with a city-owned truck driven by Henry Hastad. Prichard will be confined to the hospital for several days, and will be required to wear a cast for a month.

Cars driven by Reuben Christofferson of this city and George Sommers of Warren collided last Friday on Third st., both cars being damaged, but the occupants escaping injury.

When a car driven by Clayton Molstad, Route 2, went out of control Sunday on North Main av., it struck a tree, and Molstad suffered minor facial lacerations. Also on Sunday, automobiles driven by Orvis Oien and Morris Halvorson, both of this city, collided at the intersection of Ninth st. and Main av. Both cars were damaged considerably, but the occupants escaped injury.

MEMBERS OF GOLF CLUB VOTE ON BOND ISSUE WEDNESDAY

To Act on Refinancing of Club's Indebtedness at Special Meeting

An important special meeting of the Thief River Golf club has been called by the board of directors for next Wednesday evening, December 15, at 7:30 in the Rex Cafe, Vic Jung, secretary, stated today.

At the meeting the membership will be asked to authorize the board to refinance the club's indebtedness by issuing and selling up to $20,000 in mortgage bonds. The proceeds will be used, in part, it was explained, to retire the present indebtedness of the club, with the remainder utilized to finance improvements to the club property and for other corporate purposes.

With arrangements made to convert a former rural schoolhouse into a new club house on the west side of Thief River, the membership also will be asked to approve the sale of the old club house, with or without the adjacent grounds.

Membership Drive of Legion Set for Friday

On Friday morning, December 10, a group of 24 Legionnaires will meet at the Rex Cafe for a "kick-off" breakfast prior to the beginning of a drive for Legion members for 1949. A snappy one day drive is planned under the direction of R. S. Eldevik, it was announced by Leonard Hanson, post commander.

The fire department was summoned last Thursday afternoon when a car owned by Vernon Philipps caught fire at First st. and Main av., little damage resulting. Damage also was nominal at the Adventist church on East First st., where an oil stove became overheated Tuesday afternoon.

Santa Greeted by Huge Crowd Saturday

The Soo Line station platform was crowded to capacity with little folks and their elders Saturday morning to greet Santa Claus when the jolly old saint arrived promptly at 11 o'clock on a gaily decorated special train.

After pausing briefly to greet his little friends, Santa got into a waiting jeep and with his entourage was escorted thru the business district to the Auditorium, where he was nearly overwhelmed by the eager throngs of children.

With the assistance of a group of members of the Civic and Commerce association, Santa quickly passed out 1,500 treats to the youngsters, and those were barely sufficient to reach around.

Joe Zavoral again this year fittingly enacted the stellar role. The train crew that brought Santa to town included Lewis Sculthorp, conductor; Helmer Halland, engineer; Obert Morben, fireman; and Connie Haugen, brakeman.

The train was decorated by a committee of Lions club members including Ralph Luhman, Oscar A. Nelson and Grundy Aakhus, with the assistance of numerous Soo Line employes.

UTILITIES MASTER PLAN EXPLAINED AT C & C SESSION

City Engineer Stewart Discusses Big Project at Meeting Thursday

City Engineer Douglas Stewart addressed the Civic and Commerce association luncheon Thursday noon, discussing the utilities master plan for the city of Thief River Falls, recently ordered by the council, and which is being prepared by the staff of P. C. Bettenberg & company, St. Paul engineering firm.

Mr. Stewart stated that in his opinion this was one of the most important projects ever undertaken here, and his statement was endorsed by Mayor Harry E. Simons.

Mayor Simons also stated that he hoped local voters would turn out in large numbers at the special election Monday, December 20, to approve the issuance of $250,000 in bonds to complete the financing of the new water treatment plant.

Norman Peterson gave an account of the recent successful corn exhibit staged by C. Gustafson & Son in the firm's showrooms, and stated that the specimens of corn were still on exhibit.

Several motorists recently have narrowly escaped having their cars struck by passing trains, he reported.

CHURCHES WILL CONDUCT 'CROP' DRIVE IN COUNTY

Seek Grain and Cash to Provide Relief for Needy People Overseas

Churches in Pennington county are being asked to conduct drives among their members for contribution of grain or cash to the Christian Rural Overseas Program, commonly known as CROP, it was announced following a meeting of local pastors Wednesday afternoon.

Similar campaigns currently are being conducted in most of the counties of Minnesota, and it is reported that they are meeting with a good response. The grain will be used to feed destitute people abroad, and the cash donations will be utilized to buy food for the same purpose.

To arrange for the CROP drive, an executive committee was appointed Wednesday consisting of Rev. William Swanson, Rev. G. S. Thompson, Rev. Walter Pedersen and Rev. J. O. Kronlokken.

ZION CHURCH SETS CANVASS DEC. 12TH

Teams to Visit Members of Congregation Sunday

Zion Lutheran church next Sunday, December 12, will conduct its solicitation of members of the congregation for pledges of financial support for church activities during the coming year.

Rev. Walter M. Pedersen, pastor, urged members and friends of the church to be present at the worship service at 10:30 Sunday morning, at which time he will outline the church program for 1949.

Following the services the teams of solicitors will share in a dinner to be served in the lower auditorium. They will be given final instructions there before going out to make their canvasses. Rev. Pedersen requested that members of the congregation remain at home during the afternoon until called on.

Ladies of UCT members, it was explained, are invited to participate in the social program which follows a short business meeting at 8 o'clock.

COUNTY BOARD ADDS TO COUNTY AID HIGHWAYS

Board Votes to Engage Service of County Home Demonstration Agent

Action on several important matters was taken by the Pennington county board at its December session Tuesday and Wednesday.

The board designated 17 additional miles of road for inclusion in the county aid system. Included are one mile in Star township, one mile in Black River, three miles in Rocksbury, one mile in River Falls, three miles in Bray, two miles in Kratka and six miles in Wyandotte.

Following an explanation by Miss Evelyn Morrow of the state extension service of the advantages to county homemakers of securing the services of a home demonstration agent, the board approved the proposal and voted to secure the services of such an agent as early as possible. Her salary will be paid by the federal government, with mileage and office expense to be defrayed by the county.

Another service in the form of a county nurse was requested in petitions filed by the Rocksbury Farm Bureau unit and the St. Hilaire Parent-Teacher association. It was pointed out that it is necessary to have a county nurse in order to qualify for the services of the mobile tuberculosis X-ray unit, which has recently functioned in Marshall and other counties in this section of the state. Action on the matter was deferred by the board until its January meeting.

Due to higher anticipated expenditures, the board voted to increase the levy for the county revenue fund from $61,090 to $65,000.

STATE TAX CHIEF ORDERS NO CHANGE ON REAL PROPERTY

Only Few Changes Made in Personal Property Assessments in County

No change was made this year by the Minnesota department of taxation in Pennington county real estate valuations as turned in by the county board of equalization, and only minor changes were made in the assessed valuations of personal property, County Auditor A. M. Senstad has been notified by J. Howard Spaeth, tax commissioner.

Only changes in personal property valuations were a ten per cent raise on high grade and purebred dairy calves and cows under the age of three years, and raises of five per cent on several other classes of cattle.

Gunnuf Gunstenson, who has served this year as county supervisor of assessments, is given much credit for the small number of changes made by the state department thru his work in eliminating inequalities between the various subdivisions of the county.

CITY ENGINEER IS JAYCEE SPEAKER

Stewart Talks on Bond Election December 20

City Engineer Douglas Stewart was guest speaker at a dinner meeting of the Junior Chamber of Commerce last Thursday evening in the Civic and Commerce rooms.

He discussed the forthcoming special election Monday, December 20, at which voters will be asked to approve a $250,000 bond issue to complete the financing of the projected municipal water treatment plant.

Lieutenant Dick Moore of the U. S. army air force, on escort duty, also spoke briefly, describing the methods used by the army in returning war dead from overseas to their homeland.

Sunsdahl-Race Vows Spoken at Church Wedding at Goodridge

Assorted flowers in baskets, lighted candles, and blue and white decorations formed the altar setting in the Rosendahl-Torgerson church on Saturday afternoon, Nov. 27, for the wedding of Junea A. Sunsdahl, daughter of Mr. and Mrs. John T. Sunsdahl, and Ernest D. Race, son of Mr. and Mrs. Jerry Race, all of Goodridge.

The ceremony was read by Rev. O. O. Bjorgan in the presence of 200 guests. The traditional wedding marches were played by the groom's sister, Mrs. Otto Omlid. Carol Thompson, cousin of the groom, sang "I Love You Truly" and "O Promise Me," accompanied by Marion Olson.

Escorted by her father, the bride wore a fingertip veil with her white satin gown which was fashioned with long sleeves and train. She carried a shower bouquet of pink and white carnations, which formed a cross. Her gift from the groom, a gold cross, was worn.

Her sister, DeLores Sunsdahl, was maid of honor, wearing pink, and Mrs. Mayor Holen, bridesmaid, was attired in a formal of blue. They both carried colonial bouquets of assorted flowers.

The groom was attended by Loren Race, as best man, and Orvin Sunsdahl. Ushers were Otto Omlid and Ole Sunsdahl.

Mrs. Sunsdahl wore a dark blue dress with black accessories, and Mrs. Race wore black with matching accessories. They both wore corsages.

The bride's parents were hosts to their guests at a reception in the church parlors following the ceremony. The bridal table was centered with a three tiered wedding cake topped by a miniature bride and groom with candles on either side. Mrs. Otto Omlid cut the cake, and serving at the bridal table were Adeline Stenvik and Carol Thompson.

The bride is a graduate of Goodridge high school, class of 1947 and the teacher training department in Thief River Falls, class of 1948, and is teaching at Big Grove school at Goodridge. The groom attended the Crookston A. C. and is engaged in farming east of Goodridge.

CITES ADVANTAGES OF JOINING GUARD

Members Not Subject to Draft, Officer States

Young men between 17 and 18½ can still join Co. F of the National Guard and be excused from liability for 21 months service under the draft, it was announced today by Capt. A. C. Tiedeman, unit commander.

Tiedeman said this has been made possible by a proclamation issued by Governor Youngdahl in accordance with a provision of the selective service act, whereby the governor of any state may determine that the National Guard of the state cannot be maintained at full strength by enlisting men who are ineligible for draft.

He pointed out that youths now in high school or holding jobs in Thief River Falls and surrounding communities can join Co. F and remain at home, while if they wait for the draft, they must serve with the armed forces for a period of 21 continuous months. While in the national guard they train two hours weekly and spend 15 days each summer in camp.

Capt. Tiedeman said that men wanting more information may call 1554.

Mrs. J. Hruby, 85, Dies at Daughter's Home in Borup Friday

Final rites were held Tuesday morning at St. Bernards Church for Mrs. Josef Hruby, who passed away on Dec. 3 at the home of her daughter, Mrs. Ernest Schmidt in Borup. Father Noah officiated at the rites and burial was made in Greenwood cemetery.

Mrs. Hruby was born Nov. 4, 1863 in Warsaw, Poland. She came to the United States in 1879, settling in Chicago, Ill. On March 23, 1883 she was united in marriage to Josef Hruby at Chicago. They farmed in Jackson county until 1904, when they came to Pennington county and settled on a homestead in Cloverleaf township. She had resided with her daughter the past five months.

Surviving besides Mrs Schmidth, are two daughters, Mrs. Albert Ptacek of Thief River Falls and Mrs. Alice Habedank of Goodridge; five sons, Ben, James, Jerry and Ludvik of Goodridge and Frank of Strathcona; 43 grandchildren; 32 great grandchildren, and a half sister, Marie Vinsova of Prague, Czechoslovakia. Her parents, husband, a half sister, a son and a daughter preceded her in death.

Rites Wednesday at Plummer Church for Antti V. Huotari, 78

Antti V. Huotari, resident of Plummer since 1912, succumbed at a local hospital on Saturday afternoon at the age of 78 years. Funeral rites were held from the Emmanuel Lutheran church in Plummer on Wednesday afternoon with Rev. J. M. Runnestad officiating. Burial was made in a cemetery east of Plummer.

Born May 24, 1870 in Finland, he grew to manhood there, and was united in marriage to Miss Katri Keranen in Kuhno, Finland on April 23, 1897. They came to the United States on March 7, 1902 and made their home in Monessen, Pa., where he was employed at the steel mill. In 1912 they came to Garnes township, Plummer, and have resided there since. He served on the Plummer school board for a number of years.

He is survived by his wife Katri; three daughters, Mrs. C. Christiansen o Superior, Wisc., Mrs. B. L. Weakley of St. Joseph, Missouri and Mrs. Jack Gronholm of Astoria, Oregon; two sons, Ray of Superior, Wisc. and Tom of Plummer; a brother, Arvi of Clarksburg, West Virginia; and three sisters in Finland. His parents, and a daughter preceded him in death.

200 SPORTSMEN AT N. W. MINNESOTA ASSN, MEETING

Ed Shave, Minneapolis, Is Principal Speaker in Crookston Tuesday

Approximately 200 men from thruout this section of the state assembled in Crookston Tuesday night for the annual fall conference of the N. W. Minnesota Association of Conservation Clubs. The session, held in the Legion club rooms, opened with a dinner served by the Legion auxiliary.

Kern Olson, president of the association, presided over the program. A welcome was extended by Mayor Oppegaard, following which Ed Shave, outdoor editor of the Minneapolis Star-Tribune, delivered the main address.

Shave discussed the need for statewide action in the conservation movement, and praised the work of the various sportsmen's clubs. He also thanked the hunters who had contributed venison to the dinner served Wednesday to patients in the veterans hospitals.

Other speakers were State Senator Donald Sinclair of Stephen and Rep. Curtiss Olson of Roseau, while W. E. Dahlquist conducted an open forum discussion at the close of the meeting.

Kern Olson and Henry Storlaug, secretary of the organization, were named delegates to attend a statewide sportsmen's legislative conference Sunday at the Curtis Hotel in Minneapolis.

Business, Professional Women's Club Arranges Yule Party for Tuesday

The Business and Professional Women's club will meet at a 6 o'clock dinner on Tuesday at the Terrace Room of the Rex Cafe. LIONS CLUB HEARS TALK BY LAFAVE

Discusses Proposal of City Planning Board

Bill LaFave, chairman of the city planning board, was the principal speaker at the Lions club luncheon meeting Wednesday noon in the Rex Cafe.

Mr. LaFave reported on preliminary action taken by the city planning board Monday evening in the direction of asking the city council to seek enabling legislation which would permit the city to use a portion of the profits of the municipal liquor dispensary to aid in financing the erection of a court house.

Following a brief discussion the club went on record in favor of the proposal.

Elmer Bratsoll, chairman of the committee arranging for a Lions club Kiddies Carnival, reported that committees were being set up to handle details of the event, scheduled for Friday, January 28.

Ralph A. Luhman, chairman of the committee appointed to decorate the Santa Claus train last Saturday, stated that he and his co-workers, Oscar A. Nelson and Grundy Aakhus, had been given plenty of assistance by a large group of Soo Line employees.

Speaking of names, when a headlight on George Mostue's car went out on a recent trip to Minneapolis, he was chased by a highway patrolmen whose first name was Chaseman.

We are reminded that one doesn't often hear of a taffy pull being staged these days.

Now that the deer season is past, automobiles haven't got so many horns on them.

They tell about the meat market patron who said, "A dollar's worth of steak, please", to which the butcher retorted, "You said a mouthful".

District court juries, it seems, wouldn't have much to do these days if it wasn't for automobile accident cases.

Simile—As daring as the man who winked at a girl in the dark.

Grafton, N. Dak., folks are all agog over their municipal band's impending trip to the Tournament of Roses football game in California.

One thing, we read, that would make the faces of the girls turn pale would be a cosmetic shortage.

The Minneapolis Tribune reports a sign in English in a ready-to-wear shop in Jerusalem reading, "Dresses for inside and for street-walking".

Believe it or not, only one-half the eligible voters in this country took part in the November 2 election.

Just think! In less than two weeks the sun starts traveling north again.

In case you think people have lost faith in Santa Claus, consider some of the proposals that have been advanced for financing the state soldiers' bonus.

The honored guests were presented with gifts.

The Christ of Christmas at Fireside Hour Sunday

"The Christ of Christmas" is the theme chosen to be presented at the Zion Lutheran Fireside Hour on Sunday afternoon, Dec. 12 at five oclock. This is the regular meeting and will be in the form of a candlelight service.

Those taking part in addition to the choir are Jack Haugen, Bruce Bakke, Glendyce Lendobeja, Dorothy Huseth, Phyllis Lager, Jeanne Nelson, Donna Runger, Billy Haugen, Reuben Lockrem, Mrs. Alton Hanson, and Mrs. Ed Haug. Hostesses for the supper are Mrs. Kenneth Wendel, Carol Urdahl and Irene Nelson. A welcome is extended to all.

Mrs. Stephen Austin Has Party for Twins Birthday

Mrs. Stephen Austin entertained at a birthday party on Wednesday afternoon, for her twin daughters, Georgene and Geraldine, who were seven years old. Games were played and prizes were awarded. A lunch featuring birthday cake was served. Those present were Marlynn Dryden, David Haughom, Jeanne Dryden, Linda Booren, Mary Lee Bishop, Vivian Spray, LeRoy Hansen, Janice Anderson, Rosalie Fonnest, Rachelle Dahlen, Lenora Haugen, Karen Austin, and Mrs. Charles Dostal.

ONCE IS ENOUGH!

Yes, one application of Dr. Salsbury's Vapo-Roost is enough to get rid of all the lice and feather mites in your laying house. Just spread a thin line of Vapo-Roost on roost poles. Fumes do the rest. Treatment remains effective for days — long enough to kill young lice which hatch later.

In Memoriam

In loving memory of our dear wife and mother, who passed away Dec. 13, 1941.

A wonderful mother, woman and aid,
One who was better, God never made,
A wonderful worker, so loyal and true,
One in a million, that mother was you.
Just in your judgement, always right,
Loved by your friends, all whom you knew,
Our wonderful mother, that Mother was you.

In Memoriam

In loving memory of our dear mother and wife, Mrs. Mathilda Jacobson, who passed away Dec. 6, 1946.

A precious one from us is gone,
A voice we loved is still;
A place is vacant in our home,
Which never can be filled.
God in his wisdom has recalled,
The boon his love has given;
And though the body slumbers here,
The soul is safe in Heaven.—Sadly missed by her husband, Thomas Jacobson and children, Ada, Clara, Bernhard, Mabel and Emily. 50p

Prowler Quint Bows to Speedy Bemidji Team, Score 53-25

Although the Prowlers were able to hold Bemidji's all-state forward, Chuck Grover, to but 5 points, and their steller guard, Chuck Aakhus, to 3 points, the lag in the Lumberjacks scoring was amply taken up by guard Jim Hirt, center Irv St. John reserve guard Steve Hallgren, with the trio accounting for 28 points and pacing the state champions in their 53 to 25 victory over the locals in an eighth regional game played at Bemidji on Saturday night. In a preliminary game, the Bemidji 'B' team scored a 42 to 16 win over the Prowler 'B' squad.

On Saturday the locals will journey to Detroit Lakes for a game against coach Jake Hoff's highly-regarded Lakers. Bemidji defeated Detroit Lakes, 48 to 35, *last Friday night, but the Lakers* provided the Lumberjacks with a strenuous game and at the half-time intermission Detroit Lakes held a 22 to 17 lead.

Bemidji, utilizing height advantage, controlled the backboards and employed a fast break offense to gain a 10 to 1 first period lead and which was increased to 24 to 7 at the half. Jim Hirt, a powerful and hard-driving guard, notched the first points when he connected with a field goal thirty seconds after the opening tip-off. Ron Batchelder dropped in a free throw on Sponheim's foul. Aakhus lifted a one-handed shot into the net from the lane. St. John, playing his first year on the Bemidji varisty, pushed in a left-handed shot and then followed with a field goal on a rebound. After Aakhus had added a free throw, the Prowlers tallied their only point of the period when Wagner made a free throw on Grovers foul.

Three field goals by Hirt, a pair by Batchelder, and field goals by Beleveau and Sexton, gave coach Mike Lagather's state champions a 24 to 7 lead at the end of the second period.

Wagner marked up a pair of Prowler field goals, getting the first on a jump shot and scoring the second on a push-up shot. Sponheim and Grovum added points on free throws.

With the Lumberjacks using a number of reserves in the game, the Prowlers outscored Bemidji, 12 to 11, in the third period. Stadum opened a free throw, and Erv Skaar recovered a rebound to push in a one-handed field goal. Halgren tossed in a Bemidji field goal, but Stadum added two points on gift shots, and then popped in a field goal, to bring the score to 20 to 14 for the Jacks. Grover and St. John returned to the Bemidji lineup and the state champions increased their scoring pace.

Steve Hallgren's three field goals high-lighted Bemidji's fourth period scoring splurge, with Hirt adding a pair of field goals on a set-up and a long one-handed toss. Wagner's pivot shot and Wally Grovum's long set shot were the Prowler field goals scored in the final quarter.

The Prowlers' Wagner pressed Bemidji's Jim Hirt closely for individual scoring honors, the locals' center and co-captain getting 11 points on 4 field goals and 3 free throws.

CANADIAN TEAM TO MEET LOCAL SIX IN WEEK-END GAMES

Bob Bell Is Appointed As Coach of Thieves at Meeting Friday Night

The St. Boniface "Anciens" of St. Boniface, Canada, a team composed of graduates of St. Boniface College, will provide the senior hockey Thieves with opposition on Saturday night and Sunday afternoon when the local sextet opens its 1948-49 season on the Arena ice.

The St. Boniface team, nicknamed the "Flying Frenchmen," have played here several times and they have always furnished the locals with a bang-up game. And this year, with the local squad just having begun their practice drills this week, the visitors may be favored to win the series.

At a meeting held last Friday night, Bob Bell was named coach of the local club. Bell, who has had a great deal of hockey experience, having started to play the ice sport while a student at Roseau high school, then moving on to Grand Forks and later to Minneapolis and the Pacific Coast, should be an ideal tutor for the locals. In one game under Bell's direction last year, a post-season engagement with the Hallock team, the Thieves scored a surprising 9 to 7 win.

On Dec. 18th and 19th, the local management announced that the powerful Seven-Up team of St. Paul, with such stars as Paul Wild, Al Van, Harold Younghans, Pete Pleban, Bill Galligan, and Bob Graiziger will meet the Thieves on the Arena ice.

BOWLERS VIED IN TOURNEY SUNDAY

Fran Hendrickson and Julian Lendobeja 1st

Sixty-four bowlers participated in the mixed doubles tournament that was rolled over the Pla-Mor alleys on Sunday afternoon and evening. The tournament, conducted on a handicap basis, was won by Fran Hendrickson and Julian "Babe" Lendobeja with an aggregate pin total of 1504. Norma Jean Looker and Oscar Bakker, with a 1425-pin total were the runners-up; and Bea McLeod and Ambrose Wysoski, with a 1420 total, earned third place.

In marking up their winning score, Fran Hendrickson, with a handicap of 76 pins bowled games of 116-154-107-152 for a 695 total; while "Babe" Lendobeja, carrying a 121-pin handicap, scored games of 190-162-170-157 for a fine 809 total.

For the runners-up, Norma Jean Looker, with games of 114-123-125-155, plus a handicap of 60 pins, had an aggregate of 577; while Oscar Bakke piled up scores of 169-220-153-218, and with an 88-pin handicap, for an 848 total.

To record their third place total, Bea McLeod rolled an aggregate of 726 while Am Wysoski scored a 694-pin total. Bea McLeod had the high individual game for the women, scoring a 201 game. Elwood Karwand had the men's high individual game, bowling a 228.

Christmas Kettle to Be on Street Again Friday

Expressing appreciation for the contributions made to the Savation Army Christmas Kettle last week-end, officers of the local unit stated today that the kettle will be stationed in the downtown district starting Friday and continuing each day until Christmas. Proceeds will be used to supply Christmas cheer for needy families.

Monthly Meeting of the Sportsmans Club is Put Off to Monday, Dec. 13th

The Pennington County Sportsmans club meeting, postponed from Tuesday, December 7, will be held instead next Monday evening, December 13, at 8 o'clock in the Civic and Commerce rooms, Henry Storhaug, secretary, stated today.

The postponement resulted from a conflict with a meeting of the Northwestern Minnesota Association of Conservation Clubs, scheduled in Crookston Tuesday night.

Guests at the meeting next Monday will be game wardens and rangers who will be in Thief River Falls that day to attend a Red Cross instruction course.

MINNESOTA RED STOCKING DRIVE GETS UNDER WAY

Governor Youngdahl Opens Campaign for Childrens Society

Governor Luther Youngdahl today officially opened the Little Red Stocking drive of the Children's Home Society of Minnesota. More than 275,000 Minnesota homes will receive little red stockings in the mail this week. Funds from this statewide appeal will be used to enable the society to place more handicapped and older children.

Governor Youngdahl, a member of the state sponsoring committee for the little Red Stocking drive, issued the following statement:

"The state of Minnesota has earned national recognition for its progressive adoption policies. The success of this effort to place the child with handicaps, as well as the normal child, has been most gratifying.

"One of the agencies which is doing a splendid job in this great humanitarian work is the Children's Home Society. For fifty-nine years, it has fulfilled well its responsibilities as a non-sectarian adoption agency, and has found satisfactory adoptive parents for both handicapped and normal children entrusted to its care.

"This agency is now engaged in rasing funds to carry on its present program. I commend it as a most worthy endeavor and deserving of wholehearted support by the citizens of Minnesota."

Blue Light Indicate Snowplow Ahead, Says Highway Department

The "season of the blue lights" is here! And those blue lights on the highway carry a warning all their own, the state highway department reminded motorists this week.

A blue light beam is a special means of identification for maintenance equipment engaged in night snow removal or sanding operations. They therefore always indicate a traffic hazard peculiar to the winter season.

The highway department is undertaking a statewide campaign to instruct all motorists as to the special meaning of the blue lamps and to urge them to give snow plows and sanders right of way, not to follow them too closely, and not to try to pass plowing and sanding operations in flying snow.

GRAIN TERMINAL GROUP WILL MEET

Annual Convention in St. Paul Dec. 13 to 15

The inflation squeeze on farmers will be the top subject before 4,000 farmer stockholders, delegates and members of the Farmers Union Grain Terminal Association when they convene in annual stockholders meeting in St. Paul, December 14 to 15.

Two of the top ranking agricultural leaders of the nation are scheduled to be introduced to the farmers at the annual dinner to be held in St. Paul municipal auditorium, Tuesday evening, December 13. They are Secretary of Agriculture Charles F. Brannon and U. S. Senator George D. Aiken, co-author of the Hope-Aiken Farm Act, passed in the last minutes of the 80th Congress. The two will be introduced by M. W. Thatcher, long an outstanding farm leader of the Northwest, and general manager of the largest grain marketing co-op in the nation.

The three-day eleventh annual GTA stockholders meeting is scheduled to convene on Monday, December 13, at the St. Paul Hotel in St. Paul. Close to 3,000 Northwest grain farmers have already arranged for hotel accommodations for the meeting.

MUD LAKE REFUGE YIELDS CASH CROP

$16,400 in Sweet Clover Harvested This Fall

Farmers in the vicinity of the Mud Lake national wildlife refuge have just completed sharecrop harvesting of volunteer sweet clover within the refuge boundaries in amount of $16,400.

One-half of the crop was retained by the farmers, and one-half was sold, by bid, to local buyers, with a total of $8,200 realized by the government, and returned to the treasurer of the U. S.

One fourth of this ($2,050.00) will be returned to Marshall county to be used by the county in maintenance of public *schools and roads.*

The presence of volunteer sweet clover in the Mud Lake Refuge represents multiple use of lands to a striking degree.

Controlled burning of areas at the proper time helps to prepare the lands for natural seeding of this legume; all legumes aid in maintaining the fertility of the soil; the young growing plants are an excellent forage for deer, migrating waterfowl and other game species, and the final harvesting of the seed crop provides a profitable operation for permitee farmers together with a substantial revenue to the U. S. government, and the taxpayers of Marshall county.

An additional economic use in direct relation to sweet clover production on the refuge is issuance of permits for placing of bee hives on refuge lands. Between 800 and 900 hives were placed adjacent to sweet clover areas. Pollination of the clover blossoms by the domestic bees played an important part in eventual production of viable seed and increased the value of the seed greatly.

The government again realized cash returns on issuance of these permits, while the owner of the hives obtained good production of honey, and a further incentive to remain in business locally.

GROWING WITH YOUR CHILD

Institute of Child Welfare, University of Minnesota

Little Tale with Big Sequel

"And when the blue frog and the Jump Duck got home, there were the three little ghosts waiting for them."

How much evening time have you spent with your children lately? Here is a new idea for easy bedtime fun: a cooperative bedtime story. The first time, take a character from the dimly remembered tales of your childhood, and the scramble is on.

Start saying anything that comes into your head about this character, what he is and does. If you get stuck, you can ask the offspring what they think happens next. This will give you either some suggestions or a chance for some quick thinking. Bring a modern thing like a soda fountain into a medieval scene; use colors in your descriptions; invent combination animals and people; round it out with details.

These are suggestions, but it is a game without rules. A completely goofy tale is easier to tell and to join in with than a rational one, and more dependably harmless. The chances are that the children's ideas will make the story carry itself hilariously along until bedtime is enforced.

You are as much an object of pride to your children when you are playing as when you are working, and a good deal easier to love. This cooperative tale telling is packed with psychological vitamins. The whole atmosphere is one of expansion, of spirited mutual creativeness. Here, if anywhere, the shy child will speak up, the mother or father speak tactfully, the laughter speak volumes.

Minks Settle in Argentina

Argentina is establishing a foreign-populated fur farm. More than a year ago 20 young Canadian beavers were flown to Buenos Aires and thence to an experimental breeding farm on the lower tip of South America where the climate approximates that of the Canadian north woods. More recently a colony of five pairs of minks were shipped via air to found a colony of their own in Argentina. If they like the Argentine climate and habitat they will be joined by 2,000 kinsmen who eventually will produce the fashionable furs now being imported to adorn the senoras and senoritas in Buenos Aires.

U. S. Subs Beat Deutschland

Nearly everybody remembers the story of the German submarine, Deutschland, and how it crossed the Atlantic during World War I, evading the British blockade, to reach New York harbor with a cargo of highly prized German merchandise. The U-boat's voyage was hailed as one of the epics of the century. No submarine, it was claimed then and is still generally believed, had made the crossing before. Nevertheless, 20 American-made submarines had effected that crossing. They made it from Canada to England a whole year before the Deutschland.

Registered Dusting Planes

Altogether, 463 airplane dusting and spraying operators, using 1,303 planes, now are registered with the Civil Aeronautics administration. The CAA lists 26 operators with 40 planes as engaged in mosquito control. Other listings in the study tell of commercial airplane uses in altogether 57 activities, including seeding, fence patrol, cotton-checking, coyote-hunting, photography, mapping, agitating air against frost and spreading fertilizer. In one small state (New Jersey) a survey shows 2070 pesticide applications made on farm crops last year, on 313,000 acres. While this was mostly custom work, some flying farmers piloted their own planes.

Pagan Rites Basis Of Many Customs

Strange as it may seem, most American Christmas customs stem largely from Pagan rites practiced long before the birth of Christ.

The custom of exchanging gifts is one of the few that springs from the Christian era. Christmas candles, bonfires and Yule logs arise from the heathen festivals observing the winter solstice, December 21, when the days begin to lengthen. That was a time of great rejoicing for ancient sun worshippers who built bonfires to give strength to the "winter sun-god."

Pre-Christian Romans ornamented their homes with green boughs and flowers for the Feast of Saturnalia which began December 19. Druids gathered mistletoe for that season, while ancient Saxons used holly, ivy and bay. Modern mistletoe and holly wreaths come from those peoples.

Christmas trees, too, spring from the ancient German days when Germanic tribes made sacrifices to the sacred oak tree of Odin. When the missionary St. Boniface traveled to Germany in the Eighth Century and saw these celebrations he persuaded the natives to substitute a fir tree for the oak and to adorn it in a tribute to the Christ Child.

During the Middle Ages the entire Christmas season was celebrated in equal fervor with that now shown on Christmas day. In some lands the celebration lasted from December 24 to January 6—Twelfth Night—and in others from December 21 to February 2. By the year 1644, Christmas in England had become such a wild orgy that the Puritans forbade its celebration by law.

Since the war, 38 per cent of the income Minnesota farmers have received has come from the sale of livestock. That is almost two-fifths of the total farm income from the sale of meat animals.

Curbing Bean Beetle

Bean beetles are the bane of the gardener's efforts. If they are not controlled they can wipe out the whole crop. The wise gardener dusts the bean stalks with a rotenone preparation as soon as the leaves have formed. He does not wait for the beetles to appear before getting to work, for it is easier to prevent infestation of the plants than it is to "cure" them. An application of dust once a week during the growing season will keep the beetles under control.

Dentists in U. S. Increase

Dentists in the United States have increased more than 8,000 since 1940, to a total of 78,490. The revised total of dentists was based on a nationwide survey conducted for the new directory published by the American Dental association. The 1940 census reported a total of 70,121 dental practitioners in the United States. Distribution of dentists throughout the nation varies widely, ranging from one dentist for each 1,106 residents of New York state to one dentist for each 8,121 residents of Mississippi. Next highest concentration of dentists to population outside of New York is in the District of Columbia where there is an average of 1,197 residents for each dentist.

Railroading in "Good Old Days"

At the time Morse gave the telegraph to the world, trains operated on single tracks and were moved by what is known as the "time interval" system. There were "superior" and "inferior" trains, the designation being determined by their class (first class, second class, etc.) and the direction in which they moved. On the Baltimore and Ohio railroad, for example, eastbound trains—as they still do today—exercised "superiority" over westbound trains of the same class. Under this system, inferior trains had to wait as long as an hour at predetermined points for a late superior train.

POLITICAL ROUNDUP

By [illegible]

This is the season of the year when a vast army of Minnesota men and women begin mobilizing battalions of facts and figures for presentation to the state legislature during its biennial session.

The average voter is perhaps not fully aware of how numerous and how [illegible] have become the organizations, clubs, and associations which in one way or another are interested in various measures that will be before the legislators during the hectic weeks of the session.

These organizations are all lobbies of a type, but the word "lobby" is now held in disrepute as are such terms as "pressure groups". Yet, the presence of "lobbies" cannot be denied and they have become an important if not essential—part of the legislative process.

Today these organizations, of which there are literally hundreds, have a great variety of standard labels. Many are "research institutes." Others are "economic councils", "trade associations", and "good government leagues" of various sorts.

They cover the whole range of matters concerned in legislation. Some are interested in the entire field of social legislation—housing, old age assistance, mental hospitals. Others devote their energies to single key bills, like the bonus or state aid to education.

A few are the "special interest" type. They are concerned with bills which would benefit only a small section of the total state.

These organizations are by no means without welcome among the legislators. They frequently perform an invaluable service by gathering and presenting information which is essential for the law-makers and which would otherwise be unavoidable.

For example, in the matter of education, the legislators will look not only to the state department of education for advice but also to the spokesman for various professional groups, like the Minnesota Educational Association.

Likewise, in measures pertaining to highways or conservation, the various organizations interested in traffic, safety, and the preservation of our natural resources will be listened to with respect; and, in the process, the legislators will learn much about the state's needs and resources.

In fact, the business of government has become so complex the need for extensive outside research is taken for granted by most legislators and administrative officials.

The typical legislator is frankly bewildered by the vast array of problems that confronts him on the opening day. He is at sea in a great flood of requests mounting to the hundreds of millions of dollars. Yet it will be the collective judgement of 198 legislators that will determine policy and what is to be spent and how it is to be spent during the next two-year period.

After endless committee meetings and after digesting as much as he can of the millions of words of argument presented orally and in writing, the legislator makes his decisions. Without the assistance of spokesman for *farm, labor, business*, cooperative, educational, social welfare, conservation, and a myriad of other groups, the legislator would be in a poor position to make his decisions, no matter how intelligent or well trained he may be.

The abuses in this system of "lobbying" and "pressure" have long been recognized, and many efforts have been made to regulate the practices in order to eliminate the possibility of bribery or favoritism.

Minnesota has no laws regulating "lobbying" practices, although bills designed to accomplish such regulation have been introduced many times, and this session may see another similar attempt. But legislators and state officials have grown skeptical of the value of such regulations. They speak quite openly now of the "cooperation" they receive from the groups interested in various special measures.

We are now beginning to get the first reports on what the total needs of the state will be for the next biennium. When the figures are all totaled up, the sum will most certainly be a staggering one.

Already the legislator's interim highway committee is recommending an increase from four to five cents in the gasoline tax and upward revision of the motor vehicle tax. Each increase is estimated to produce $6,000,000, for a total of $12,000,000. Similarly the department of education is considering increases of $10,000,000 a year in state aids.

LITTLE BROWN PURSE AWAITS CLAIMANT

New Ulm—Salet's store is moving. In the shakeup a little brown purse came to light, owner of which is now being sought. It contained 3 cents in cash and sales slips dated away back in 1935—when a pair of brown stockings cost 23c, four yards of flannel 50 cents, a pound of butter 30c and bloomers 19 cents. A "valuable coupon" entitled the holder to a $1.25 bottle of Trupep for 88 cents.

Rush City—The bi-weekly payroll of Maple Island Farms Inc. recently rolled indeed. To emphasize its appreciable size, the management paid off in nearly a ton of bright round silver dollars. Pockets and cash registers bulged like the far west.

11-MONTH TRAFFIC DEATHS REACH 512, LESS THAN IN 1947

38 Deaths in State Occur in November; 32 in November 1947

Despite the frequency with which traffic tragedies headline the news, Minnesota has finished 11 months of the year well up in the national picture as to lives saved by public efforts in traffic accident prevention.

Motor vehicle and pedestrian fatality records released today by the state highway department show that, in spite of a marked increase in accident exposure because of this year's increased traffic volume, the state had 512 traffic deaths over the 11 months as compared with 520 for the same months in 1947. In 1941, the last heavy traffic year before the war, 564 fatalities were recorded for the same period.

November deaths numbered 38 as compared with 32 in the same month a year ago. Traffic fatalities during 1948 were lower than 1947 deaths during the months of January, February, March, August, September and October.

Of the 512 persons killed in traffic so far this year, 150 were pedestrians. Ten of the 38 November fatalities were pedestrians.

Novembers record shows 16 killed as a result of motor vehicle collisions, ten of them being two-car collisions and six car-truck crashes. One head-on collision at an intersection north of Hitterdahl brought death to three people. Three more lost their lives west of Chester when a car traveling at high speed ran into a semi-trailer which had stopped to repair a tire.

Cars which ran off the road claimed seven lives. One motorist was killed when he struck a fixed object, one was killed in a truck-streetcar collision and one in a car-train crash. Another death was that of a passenger on a motorcycle which ran into the rear of a car pulling a two-wheel trailer, lost control and plunged into a ditch.

Nationally, the general increase in traffic volume has so nearly offset the stepped up safety efforts that 1948 traffic aftalities are running only about one per cent below last year's deaths. Twenty-eight states have had more traffic deaths than a year ago.

WRIST CAMERA . . . From postwar Germany comes something new and strange, the wrist-watch camera which is pictured here. The dainty miniature is equipped with an F 2.5 lens and weighs but 1.6 ounces. A roll of film will give 488 pictures when used in this camera. A film case for the new camera is at top left. The watch is pictured for comparison.

J. Brandt Demands Farmer Protection Against Low Prices

With the costs of production on the farm reaching $16,600,000,000 ing 1947—which is greater than the total agricultural income for any preceding year—it is essential that the national farm program provide more adequate protection to the farmer to prevent disaster from overtaking agriculture, John Brandt, president of Land O'Lakes Creameries, Inc. said today.

He said that past experience has demonstrated that in many instances high production is accompanied by low prices, which leaves the farmer with a net income no greater than what would be derived from a partial crop failure. And it is the net agricultural income, he said, that provides the standard of living and prosperity for agriculture, and for the entire national economy.

"It is doubtful that there is any immediate prospect of reducing the disproportionately high cost of producing farm crops," Mr. Brandt declared. "In fact, the cost of transporting the crops to market probably will increase.

"If the much-discussed fourth round of wage increases is carried through, both farm production and crop transportation costs are due to advance. That would mean that agriculture would either have to draw on its capital account as it did in the twenties and thirties to the point where it may become a bankrupt institution or some modern method of protecting farm income to meet the expensive operating costs and to provide the farmer and his family with something left over will have to be devised.

Under the present farm program, where the quantity of production governs the percentage of parity price protection the farmer receives, the outlook for 1949 is not too bright if a big crop is produced.

"The present parity formula is as outmoded as the horse and buggy, and in addition, the sliding scale of protection that lowers the percentage of parity which governs price support programs creates too severe a penalty on the farmer in years of abundant production.

"A cost of producing the total agricultural crop in excess of $16,000,000,000 can easily exceed the total income by several billion dollars if surplus production is to govern price, as it will under the program now in effect."

Housewarming

The Fred Luke's have a nice new house. They built it this past summer. In order to give the house a tour of inspection and to warm it up with good wishes, the following neighbors gathered there Sunday evening and they also gave the Luke's a cash gift for something for the house and a fine lunch was also partaken of: Mr. and Mrs. Art Knutson, Donald and Bernice, Mr. and Mrs. Rudolph Hanson, Duane, Marlys, Lois and Ella, Mr. and Mrs. Carl Beiswenger, Herman and Ted Beiswenger, O. L. Stenseth, Louis and Maurice Stenseth, Mr. and Mrs. Carl Beiswenger and family, Mr. and Mrs. Norman Johnson, Joan and Gloria, and Julian W. Lendobeja.

Supper guests at the O. N. Olson home were Mr. and Mrs. John Olson of Donnelly, Mr. and Mrs. Archie Anderson and Dennis, Mr. and Mrs. Mark Olson and tots, Mrs. Paul Johnson of Thief River Falls, and Harry Waller of Brinsmade, N. D., Miss Clara Olson was the hostess. In the evening Mr. and Mrs. Hjalmer Waller stopped in enroute to their home in Hoffman, from a visit to his brother's home in Lancaster.

Little Sharon Diehl, daughter of the George Diehl's has returned to her home from a stay in the hospital. The little honey was a very sick girl with pneumonia. She is convalescing nicely now.

A large number of Smileyites attended the Telemarken church Ludefisk supper in Kratka Saturday evening. The men members of that church were efficient cooks and waiters.

Bob Westacott entertained for the William Gilbertson family and the Martin Karlstad family at the home of his daughter Mrs. Jack McKechnie in Thief River Falls Saturday evening. The Jim McCrum's were unable to be present. Bob is leaving very soon for Portland, Oregon to visit relatives before going south to Alhambra, Calif. to spend the remainder of the winter with a son.

Saturday evening visitors at the Art Waller home in Viking were Mr. and Mrs. Mark Olson and children, Mr. and Mrs. Archie Anderson and Dennis, Mr. and Mrs. Winston Knutson of Numedal and Harry Waller of Brinsmade, N. D.

The annual meeting of the Bethany ladies aid was held Thursday afternoon in the church parlors. Those who will direct the activities for the year are Mrs. Art Knutson who was reelected president; Mrs. Wallace Tieman, vice president; Mrs. Joe Johnson, secretary, reelected; Mrs. Gust Homme, treasurer and Mrs. Robert Peterson, chairman of the flower and sick committee.

Helperette Club

Mrs. Mark Olson was the hostess to the Garden Club at her home Wednesday. The main business attended to was that of election of officers for the coming year. Mrs. John Burtness was reelected president; Mrs. Carl Lindholm is the new secretary, and Miss Clara Olson was reelected treasurer. Committees for various affairs will be named at a later date. The women decided to have the Christmas party Sunday afternoon, Dec. 10th at the Clara Olson home. There's a Wonderful hill there on the river bank for the kids to make whoopee. Gifts will be exchanged. Mrs. Mark Olson had a scrambled word contest at this meeting in which Mrs. Lyzum Cota won the high prize and Mrs. Carol E. Olson the low. A beautiful gift was presented to Mrs. John Burtness for her unfailing work as president the past year. The next meeting will be the first Wednesday in January at the home of Mrs. Bill Grundhaus.

Hjalmer Valsvik made a combined business and pleasure trip to Roseau Friday returning the same evening.

Sunday dinner guests at the Jim McCrum home were Mr. and Mrs. Ted Markus of Bemidji, Mrs. E. Aakre of Thief River Falls. In the afternoon the Olson gang came over.

Jim McCrum and Bruce attended the father and son banquet for the Future Farmers of America club given Tuesday evening in Thief River Falls in the high school.

"What's Cookin'?"

The menfolks at Bethany church are again giving a swell ludefisk supper this Saturday evening, Dec. 11 commencing at 7 p. m. The menu is extra super and the men are fine cooks. Keep the date and time in mind as everyone is very cordially invited.

New Tracer for "Hit-Run"

"Paint prints" instead of finger prints are making it hard for hit and run motorists to avoid eventual arrest. The National safety council reports police now have a "spectrophotometer" that can tell more than two million colors apart. Thus a speck of automobile paint on a hit-run victim's clothing or elsewhere at the accident scene can be compared with paints used on various makes and models of cars in various years. Vehicle registrations are then checked and all cars with that type of paint in the area can be checked.

Lamp shades should be large enough at the bottom to throw light over a large area. Since dark colors absorb light, the best lamp shade has a white or light lining.

ANSWER
Thomas Jefferson was known as the "Sage of Monticello."

Why we are asking for an increase in Telephone Rates

It is our job to provide good telephone service and enough of it to meet the needs of those we serve. We have an unusual obligation to do this—because the telephone user has no place else to go for service. But week by week it has become more evident that we can not continue to provide, at today's prices, the amount and quality of service the public needs and is demanding.

We are asking for only enough money to do this job—and no more.

TELEPHONE RATES UP MUCH LESS THAN MOST OTHER PRICES

New telephone prices placed in effect this year were, for most communities we serve, the first increase in more than 20 years. For our operations in the state as a whole, the increase in revenues resulting from this adjustment in rates has amounted to only about 14%—much less than the rise in prices generally, and far less than increases in telephone wages and other costs of providing service.

VALUE OF SERVICE INCREASING DAILY

The speed and accuracy of telephone service have continued to improve, and today we are providing good service and more of it for more people than at any time in our history. Since V-J Day the number of telephones served by our Company in Minnesota has increased 145,000 or 31%, and more are going in every day. These telephones are being added in every city, town, and rural area, and the value of telephone service has increased because so many more people can call and be called.

PRESENT EARNINGS ARE TOO LOW

Although growth in telephones has brought an increase in revenues, our costs of providing service have increased at a faster pace. With the higher expense level established by the "third round" wage increase, together with other higher costs, our earnings in Minnesota have dropped to a level that is only two-thirds of the rate of return intended by the Minnesota Railroad and Warehouse Commission in its order of July 9, 1948, which established rates now in effect for the majority of our customers. By all measurements, our present earnings are too low to permit a sound basis of operation.

MILLIONS OF DOLLARS NEEDED FOR ADDITIONAL FACILITIES

The demand for telephone service continues at a high level. To meet this demand and continue our program to further improve service is requiring the largest construction program in our history. It cost $17,116,000 in 1947, will cost more than $22,000,000 this year, and must be continued at a much higher level than normal for several years to come if we are to provide the people of Minnesota with the kind of telephone service they want and need.

EARNINGS MUST BE SUFFICIENT TO ATTRACT NEW CAPITAL

Many business firms depend on profits kept in the business to meet most of their needs for expansion. Our earnings, however, as a public utility are regulated and are never high enough to provide the funds needed for improvement and growth. Money to build new telephone facilities must come primarily from investors willing to put their savings in the telephone business. Earnings under present telephone prices are not sufficient to attract the additional capital needed from investors—and without this money, we can not construct the buildings or add the equipment necessary to meet service demands.

WHAT WE ARE ASKING FOR

In asking our Minnesota customers to pay more for their telephone service we are not seeking large profits. In our judgment, the approximately $420,000 per month additional revenue we are requesting is enough, and only enough, to continue furnishing good and improving service.

Nut-Bowl Filled From Many Lands

Nuts from all over the world go into your nut-bowl at Christmas. Like Christmas traditions, the nuts so popular at this time of year are a mixture of many varieties and different histories.

The English walnut, for instance, is not English at all. It originated in Asia centuries ago and was called "the food of the gods."

The round little filbert and the almond came from the Old World. Other nuts, so familiar at Christmas, the hickory nut, the black walnut and the chestnut, to say nothing of the pecan, are strictly American. The pecan is native to America and is found nowhere else. Two other American nuts worthy of mention are the chestnut and the butternut.

Although many nuts originated in other parts of the world, almost every variety known is now grown on American soil and experts are constantly searching for more kinds of nuts to transplant to this country.

The keeping of Christmas or saint's days, and the making of mince pies were illegal in the early Massachusetts and New Haven colonies. The strict religion of the Puritans banned observance of holy days.

Auxiliary Shadow Social a Success

The Shadow social held to raise money for our adopted orphan, Irene Nelson, held last Friday evening, was a huge success in spite of the small crowd. The Auxiliary is indeed grateful to every one for their generosity. They wish to especially thank Mr. and Mrs. Kenneth Swenson and Lester Elseth, Mrs. Omer Sorenson and Mrs. Floyd Bakke, who so willingly took part in the program. Also Carl Hanson, Harlan Melo and Alvin Nelson for furnishing us with music during the evening.

We are indeed proud of our Master of Ceremonies, Evonne Olson, who acted as the auctioneer. From now on we need have no worries in getting some one to cry our sales.

We also wish to thank all the generous bidders and those who gave cash donations to the cause. Thank you, Editor Nelson, for donating the advertisement. We know it pays to advertise.

There were thirty shadows sold, netting us $171.50. The pie and coffee netted us $22.15; Pies auc-

In all we took in $208.65, and there were no expenses. Again thank you, each and everyone for your generosity.

Santa Pictured By Thomas Nast

Thomas Nast, the famous cartoonist who created our conception of Uncle Sam, the Republican elephant and the Democratic donkey, is also credited with giving America its first modern pictorialization of Santa Claus.

Nast first sketched his notion of Santa Claus in 1873. This Santa was a rollicking, chubby old man smoking a pipe and dressed in what looked like a night shirt with fur collar and cuffs. Since that day he has grown taller and rounder, has developed a full white beard and mustache and has acquired the traditional red suit bordered in ermine.

From where I sit ... by Joe Marsh
Yes Sir, Insomnia's Contagious!
When Bud Swanson had trouble sleeping nights, and tried to get over it by turning up the radio full blast, he started an epidemic of insomnia all down the block!
Folks finally dropped a hint to Bud that he close the windows or turn the radio a little lower. Bud did—and that was the quickest cure for other folks' insomnia I've ever heard of!
Not that any of us object to the radio, or swing bands, or anything else that helps another person relax of an evening. (Myself, I like a glass of beer with a bit of cheese before I go to bed. I can't speak for you.)
From where I sit, good neighborliness means nothing more than simply respecting the other person's tastes and rights—without forcing your own tastes or opinions down his throat. And that goes for Bud's radio, my glass of beer, or whatever temperate pleasure you happen to enjoy.

ANNOUNCEMENT

We are indeed happy and proud to announce the opening of our new appliance and farm service store in Thief River Falls. Since our organization was founded in 1889, we have striven to give the people of this territory quality merchandise and service in a spirit of friendship, honesty and sincerity of purpose. That will continue to be our policy. We believe in the people of this territory and have faith in its future. We have erected a new modern building on Atlantic avenue at 8th Street, where we feel that we can extend to our customers more convenient parking facilities and more efficient shopping methods in the type of merchandise we have decided to continue. At this time we wish to express our appreciation of your patience during the period our new building was under construction; and for your many past courtesies and favors we thank you. We hope and trust that we can merit your continued support.

THESPIANS OFFER YULE PROGRAM AND PLAY DECEMBER 13

Lincoln High School Dramatic Group Also Will Add 13 Members

On Monday evening, December 13 at 7:30 in the high school auditorium, the National Thespian Dramatic society will hold their initiation of the year and present a Christmas play at the close of the ceremony.

The initiation ceremony is in the hands of the Thespian officers: president, Joan Evenstad; vice-president, Barbara Nilsson; secretary, Gloria Bergland. Thirteen new members will be accepted at this time. They are Jeanette Anderson, Eloise Benson, Marlene Bowman, Zona Hendrickson, Beverly Kjos, Ardell Langaas, Irma Martinson, Harriet Mullin, Ronald Ness, Elaine Phillips, Darleen Solheim, Delores Wynnemer and Ronald Zavoral.

The program immediately following the initiation will begin with a vocal solo by Annabelle Peterson followed by a one-act play, "Light Competition" by Louise Helliwell. This spirited comedy furnishes many laughs over the true-to-life situations that arise out of the efforts of two neighbors and one-time friends to outdo each other in the city Christmas decorations contest.

Members of the cast include Don Sponheim, Annabelle Peterson, Allen Lund, Carol Kleinvachter, Louella Lund, Don Hulbert, Donna Christianson, Arthur Tharaldson and Ruth Jacobson. The play is directed by Joan Evenstad and Barbara Nilsson.

This is the Thespians annual Christmas party, and they invite the public to attend.

CHRISTMAS SEAL SALE IN PROGRESS

Mrs. Adkins Serving as City Chairman of Drive

Almost 10,000 Minnesota people had a hand in ushering in the holiday season just a jump ahead of the early Christmas shoppers.

This statement comes from the state Christmas Seal organization, which reports that volunteer workers in every Minnesota community are now in the midst of the 42nd annual Christmas Seal sale to raise funds for fighting tuberculosis.

"To most people the little Christmas Seals are as much a part of the holiday season as the evergreen wreaths," according to Mrs. C. M. Adkins, local chairman. "They remind us that Christmas is just around the corner."

Mrs. George Erickson is cochairman of the Thief River Falls sale. The names of other town chairmen in this county are: Goodridge, L. A Vogland; and St. Hilaire, H. A. Budahl

The statement reminds county residents that their purchase of Christmas Seals is a purchase of protection for themselves and their families. "Christmas Seals have been a part of the Christmas season for almost half a century," according to Mrs. Adkins. "With everyones help the TB program in this county, state and nation can be carried on until the disease is completely eradicated."

YULE PROGRAM AT TRINITY CHURCH

Two Choirs Appear in Concert Sunday at 5

A candlelight Christmas program will be presented jointly by the senior and junior choirs of Trinity Lutheran church, Sunday afternoon, Dec. 12th, at 5:00 p. m. Mrs. Richard Roberts and Miss Marilyn Lee, respectively the directors of the two choirs, will be assisted by Mrs. Alan C. Purdy and Miss Ruth Jacobson, accompanists for the groups. Numbering some fifty voices in in each of the choirs, the choristers will enter the church between candles set on the pew ends, and singing "O Come All Ye Faithful". Mrs. A. L. Hamilton will play the organ prelude on a Christmas theme.

Among the outstanding numbers in the one-hour program will be the stately "Motet For the Advent Season" by Gustave Schreck, which features a mixed quartet composed of Mrs. Donald J. Olson, soprano; Mrs. Richard Roberts, contralto; Mr. Albert Alquist, tenor; and Mr. Elmer Sandager, bass.

The junior choir will sing a group of three Christmas numbers, featuring the Old French carol, "Angels We Have Heard on High".

The public is cordially invited to attend this first event in the schedule of Christmas services and programs planned by Trinity church for the holiday season. An offering will be received.

EVANGELISM TO BE TOPIC ON MONDAY

Lutheran Free Church Meeting at Newfolden

Bethlehem Lutheran church at Newfolden will be host to an Evangelism Workshop for the purpose of creating a deeper interest in the program of the church's Year of Evangelism which lies ahead. Such meetings have been held in connection with district meetings in most of the districts of the Lutheran Free Church, and reports indicate an increased interest in the church's program of evangelism, both in the home and community.

The public is cordially invited to attend. Special emphasis is placed upon the attendance of at least the pastor and the evangelism committee, or the board of deacons of each congregation in the district, which comprises the area including northwestern Minnesota and northeastern North Dakota.

25 DEER HUNTERS EACH GET TROPHY

Big Party Reports Good Success During Season

The most successful hunting expedition that went from the Thief River Falls community into the north woods during the recent open season on deer numbered 25 hunters, who returned with their full limit of game.

Included in the party were the following from north of Thief River Falls: Marlen and John Augustine, Lawrence Lubitz, Adolph Steinhauer, Robert Rupprecht, Melvin Torgerson, Arvid Olson, George Baker, Harry Knutson, Albert Molstad, Gunsten and Helmer Skomedal, Carl Gutterud, and Olaf Simonson.

Others were Alvin Christofferson and G. S. Bergland of Thief River Falls, Henry and Jim Johnson of Minneapolis and M/Sgt. Alfin Simonson of Fort Knox, Kentucky.

The hunters camped in five tents, one of which housed an electric light plant.

Much Family Fun In Group Games

"Make it a real family Christmas this year by having Santa pack a few hobby supplies or games into his pack that the whole family can enjoy together." This suggestion comes from E. H. Regnier, a recreation specialist at the University of Illinois.

There are many hobbies that can help build companionship between parents and children. Mothers and daughters like jewelry construction and tapestry weaving. Dad and Junior go in for model-making—airplanes, boats, trains and other items of special interest to the male population.

Everyone enjoys operating a printing press. Small presses turn out newspapers that have a real professional look. Shellcraft and woodburning are hobbies that produce genuinely useful articles. For family fun, rubber-tipped darts, indoor plastic horseshoes and marble games are excellent.

"Christmas is a time of "togetherness," says Regnier. "Let's capitalize on the situation by starting a game or hobby that will encourage the same type of companionship the year around."

GOOD JOB . . . How would you like the job of delivering boxes of mistletoe during the Christmas season? Nice work—if you can get it.

A PICTURE THAT COUNTS

"An X-ray picture of your lungs is more important than a picture of your face."

This is the advice broadcast by the Tuberculosis Association, which is now conducting the 42nd annual sale of Christmas Seals. The X-ray is a valuable aid in diagnosing tuberculosis in the early and most curable stages. An all-out search for this disease, which kills 50,000 Americans annually, is now being carried out through community X-ray surveys. Christmas Seal funds are paying a major part of the local costs of these surveys.

Changes in Personnel of Latter-day Saints Church Are Announced

Elder J. DaWain Smith, missionary for the Church of Jesus Christ of Latter-day Saints has been transferred to a new field of labor after serving in Thief River Falls for a period of four months.

In his new assignment he will preside as district president over the Milk River district of the North Central States Mission. This district is in North Eastern Montana, with headquarters at Glasgow, Montana.

The work of the church here in Thief River Falls will continue under the direction of Elder Arvel H. Hunter, who recently came here from Canada. During the week he will receive a new companion to replace Elder Smith.

Information had also been received from Sidney, Montana that Elder Roe D. Thurber, who previously had been stationed here, has also been appointed as district president and will preside over the West North Dakota District of this mission.

December Dates

There aren't very many famous birthdays during December—too near Christmas! However, a few of history's prominent people were born in December and here they are:

Dec. 8, Eli Whitney, inventor of the cotton gin.
Dec. 16, Ludwig von Beethoven.
Dec. 17, John Greenleaf Whittier.
Dec. 21, Christopher (Kit) Carson.
Dec. 27, Louis Pasteur.
Dec. 28, Woodrow Wilson.
Dec. 31, Rudyard Kipling.

ROTARIANS VIEW FORESTRY MOVIES

Club Votes to Support Planning Board Proposal

Members of the Rotary club at their luncheon meeting Tuesday noon in the Rex Cafe witnessed the presentation of a motion picture prepared by the Weyerhaeuser Timber company, dealing with modern reforestation practices.

The film was presented by Lucien Krause, local manager of the Robertson Lumber company.

In its business session, the club voted to support a resolution adopted by the city planning board Monday night, which requests the city council to seek enabling legislation which would permit the city to set aside a portion of the profits of the municipal liquor dispensary to be used to aid in financing the construction of a new court house here.

Benjamin Franklin and Sports

It is not generally known that Benjamin Franklin, the scientist, seer and statesman, was also a swimmer extraordinary, and the earliest American to advocate the inclusion of athletics as an adjunct to the regular curriculum of the schools. When he was a boy, Franklin found a little book by a Frenchman named Thevenot which described various swimming strokes and gave explicit directions for their use. Between his self-education in such matters as navigation and Addison's English style, young Benjamin found time to practice Thevenot's strokes until he could give an expert performance. He delighted in the sport all his life.

GRAND CHAMPION STEER NETS $10.75 POUND AT CHICAGO

Record Prices Netted at 1948 International Livestock Show Sale

The grand champion and the reserve grand champion steers of the international livestock exposition were sold Thursday at record high pices for the show.

Both were purchased by Glenn McCarthy, 40, wealthy Texas rancher and oil man. He plans to serves the steers in steaks at the opening of his new 18-story Shamrock hotel at Houston March 17.

The grand champion, "Old Gold", Aberdeen-Angus at 1,200 pounds and shown by C. E. Yoder and Sons, Muscatine, Iowa, was sold at $10.75 a pound. The previous high hecord for the exposition was $10.50 in 1946.

The reserve grand champion, "Texo", was sold at $4 a pound. The previous show record was $3.25 last year. Texo, a 1,290-pound Hereford steer, was shown by the Pecos county 4-H club of Fort Stockton, Texas.

Auctioneers estimated Old Gold's owner would net about $20,000 in exposition prizes and the sale of the steer.

McCarthy came determined to buy the steers regardless of cost. He was so confident that he brought along printed banners, "sold to Glenn McCarthy". He promptly slapped them in the animals.

McCarthy picked up another 15 head of cattle, buying the grand champion carload of 15 Herefords for 77 cents a pound. The carload was shown by Karl Hoffman of Ida Grove, Iowa, perennial winner at the Chicago exposition.

The carload price fell well under the record of $1.02¼ a pound.

MAIL YULE CARDS NOW TO AVOID JAM, SAYS POSTMASTER

Christmas Parcels Also Should Be Mailed This Week, Anderson States

Postmaster Andrew Anderson warned today that "a serious last-minute jam in holiday mail deliveries" is possible here if too many persons continue to delay mailing their Christmas cards and packages. "When the dam does break, we'll be really flooded," he observed.

All Christmas cards for out-of-state delivery, and all parcel post packages, should be in the mail Friday, December 10, to assure their arrival before Christmas, he said. If cards or packages are not ready until after this date, he advised using air-mail. Otherwise some of them may possibly not be delivered until after Christmas.

Christmas cards for local delivery should be mailed at least a week before Christmas.

"Envelopes and packages may be marked 'Do Not Open Until Christmas' if desired," the postmaster advised. "Such notices are permitted both on parcel post and on regular mail, including Christmas cards sent third-class with a 1½-cent stamp."

The postmaster warned that envelopes of third-class mail may not be sealed, either by moistening the flap or by closing with Christmas seals.

Christmas seals may be affixed to the back of the envelope, however.

Diluted Syncopation

BILL consulted his physician for a general rundown condition. The doctor told him he was suffering from alcoholism. He told the doctor he wouldn't dare tell his wife that and asked for some big word to tell her that would obscure the meaning. The doctor refused to give him another name.

On his way home, Bill tried to think of a big word to tell his wife. He passed a music store and saw the word "syncopation" in the window. That would do it; he would tell her that he had a mild case of "syncopation."

Alarmed and somewhat puzzled, his pretty wife hurried for the dictionary. But, alas, all was lost as she read slowly in a determined voice, "Erratic leaping from bar to bar."

High Cost of Living

"How do you budget your expenses?" the clerk asked a Negro applying for a loan.

"Well, suh," the applicant replied, "ah 'lows 40 puhsent fo' eatin', 30 puhsent fo' rent, 30 puhsent fo' clothes, 19 puhsent fo' savin's, and 20 pursent fo' insuhdentals."

"But that adds up to 120 per cent," the clerk said. "That's impossible."

The applicant sighed.

"Brothah, is you tellin' me!"

Jonah's Revenge

Whale steak was on the menu and there was no particular run on it, so the waiter was surprised when a diner demanded a double portion.

"You're fond of whale steak, sir?" the waiter asked.

"Well," the diner explained, "I've been waiting for this opportunity for a long time. My name's Jonah."

Pat on the Back

The story is told of how George Gershwin, seeking to attain a formal music education, had enrolled in a course in harmony given by a celebrated musician.

During the progress of the course Gershwin showed the instructor a composition he had written sometime before he entered the class.

The teacher studied it for a moment and then beamed his approval, and said: "You have already learned a great deal here."

A really small town is one in which there is no illumination except when automobiles come down to the depot to meet the evening train.—Boston Globe.

Keeping Score

. . . . With BUCK [illegible]

First Look

We had our season's first look at the state champion Bemidji high school basketball team on Saturday night, and what we saw won't give aid and comfort to the Lumberjacks' eighth regional opponents. Although coach Mike Lagather lost such stars as Wes Sabourin, Dick Knutson, and Dick Calhoun by graduation from last year's starting five, he has come up with such capable replacements that the Lumberjacks will be just about a cinch to repeat as district and regional champions, and will make a strong bid for the state championship again.

With all-state Chuck Grover at forward, Chuck Aakhus at guard, Irv St. John at center, and Jim Hirt at guard, Coach Lagather stated that his sole *problem* was to find a fifth player that would blend with that quartet to form a smooth-working team. Elroy Beleveau, a letterman of two years ago, Ronnie Batchelder, and Dick Sexton have been used at the other forward position, but the Bemidji mentor isn't satisfied with the performance of those boys.

Bemidji doesn't have the all-round finesse of last year's team at this stage of the season; but it is probable that by tournament time that the Jacks will be a better scoring team than last season's champions. In guard Jimmy Hirt, Bemidji has one of the region's finest all-round athletes. Hirt was dropped from the Bemidji squad last year as a disciplinary measure, but this year the burly speedster is proving to be as strong a guard and a better scorer than Calhoun. And Irving St. John, a slender youngster up from the reserves, is proving a pleasant surprise for Bemidji, with the six-foot, two-inch junior rapidly developing into a nifty offensive player.

Bemidji will play the Prowlers here on Feb. 5th, and basketball fans should make a "must see" memo for that game.

The Prowlers played a creditable game against the Lumberjacks, and the lop-sided 53 to 25 score isn't any indication of the play of the two teams. Bemidji picked up three or four "cheap" baskets due to Prowler misplays, and the locals failed to connect with several set-up shots. Actually, a 45 to 35 score would have given a truer picture of the game.

This week coach Nick will take the locals to Detroit Lakes for a game against the Lakers on Saturday night and, although the Prowler lineup has been re-shuffled, the odds are in favor of the veteran Detroit Lakes team. Al Williamson, after being out of action for several weeks, joined the team this week, and his presence, together with Keith Rosengren, will give the Prowlers some much needed height.

Another First Look

And on Saturday night and Sunday afternoon, local hockey fans will get their first look at the senior hockey Thieves. Coach Bob Bell, who was named coach of the local sextet at a meeting Friday night, will send his squad against the ever-popular "Flying Frenchmen" of St. Boniface, Canada.

Lack of ice has prevented the local squad from engaging in much practice, with this week being the first time that the boys have moved out on the Arena rink. Coach Bell hasn't selected the lines or the defensive positions, but with such players as Tony Dorn, Dick Roberts, Bob Baker, Les Vigness, Mouse Efteland, Lloyd Johnson, Swede Lund, Pug Lund, Greek Swanson, Wes Hovie, Connie Stanbridge, and several others available the new Thieves coach shouldn't have too much difficulty in putting a team on the ice that will play the St. Boniface club on even terms. Last year, you recall, the "Flying Frenchmen" gained a 4 to 2 first period lead over the Thieves, but then Bill Zippel and Babe Paulsen broke up the game to lead the locals to 15 to 5 victory.

Prowler Hockey

Prowler hockey coach, Dick Roberts, with the opening game of the schedule to be played on Tuesday at Greenbush, has been busy drilling the blue-and-gold squad but the practice sessions did not develop into rigorous workouts until this week when the Arena ice sheet was completed. The local squad is a week or ten days behind the squads from Greenbush, Roseau, Warroad, and Williams, all of whom have been utilizing outdoor rinks.

Following the Tuesday game at Greenbush, the Prowlers will travel to Grand Forks on Saturday, Dec. 18th, for a game against the newly-formed Grand Forks Central sextet.

WHISTLING SWANS VISIT WHITE BEAR

White Bear Lake—They land on small bodies of water only to "de-ice" after encountering sleet or a blizzard. That's what the bird books say about whistling swans. Twenty-three of them must have encountered trouble late in November, for they alighted and swam majestically over the famous local lake. Encountering a flock of feeding mallards, the swans whistled off while the mallards plunged for the bottom. The big birds, attaining five-foot wing spread, are not nearly so numerous as in early days.

Crookston Attorney Is Chairman 14th District Public Relations Group

John W. Padden of Crookston has been named chairman of the Minnesota State Bar association's public relations committee for the 14th district, which comprises Kittson, Mahnomen, Marshall, Norman, Pennington, Polk, Red Lake, and Roseau counties.

Mr. Padden also serves on the statewide public relations committee of the bar association.

Under the leadership of the general committee the association has undertaken an expanded public relations program intended to step up the public services rendered by lawyers and to intensify the legal profession's support of the American system of individual liberty.

More than half of the nation's supply of mushrooms comes from two Pennsylvania counties, Chester and Delaware.

Hen Facts

A hundred hens will eat about four and one-half tons of feed a year. Consequently, in view of prevailing high feed prices, it does not pay to keep boarders in the flock.

Telephone Company Cites Reasons For Asking Rate Boost

The Northwestern Bell Telephone company today filed with the Minnesota railroad and warehouse commission new rate schedules requesting increased prices in most classes of local telephone service the company provides within the state and minor adjustments in certain intra-state long distance charges.

The companys request for additional revenue is based on increased operating expenses due in part to the recent "third-round" wage increase for its employees, and to the urgent need for establishment of a level of earnings sufficient to enable it to obtain from investors the large amounts of money required to expand facilities to meet public telephone requirements and improve the service.

A. J. Rau, Northwestern Bell manager, states that the proposed new telephone prices for Thief River Falls would be:

Residence, 1-party	$3.50
Residence, 4-party	$2.50
Residence - Rural	$2.75
Business, 1-party	$6.75
Business, 2-party	$5.75
Business, rural	$3.75

Glenn Allen, Northwestern Bell vice president and general manager, said, "In the telephone business, with rates regulated, the return on investment never has been and cannot be sufficient to provide money for service growth and improvement. We have to depend almost entirely on people with savings to invest for the supply of capital needed to build the new facilities necessary to meet demands for service.

"In 1947, our expenditures for new telephone construction in Minnesota were $17,116,000. This year they will exceed $22,000,000. Only by continuing an abnormally high rate of construction for several more years can the company provide the amount and quality of service the people of Minnesota need and are demanding.

"Unless our earnings compare favorably with those of other businesses, people with savings to invest are not going to put them into the telephone business, and without this money, we cannot build more facilities nor improve the service."

At present costs of providing service, the company states that it's earnings in Minnesota have dropped to a level that is only two-thirds the rate of return intended by the commission in the schedule to new rates established by its order of July 9, 1948. The present rate of return, according to Allen, is inadequate to permit a sound basis of financial operation.

Increased payroll costs, due both to the need for more employees and to higher wage levels, is a major operating expense factor. Cost of the recent wage increase for the company's 8,400 employees in Minnesota will be $1,750,000 on an annual basis.

New telephone prices placed in effect this year were, for most exchanges served in the state, the first upward adjustment in more than 20 years. Allen states that for the company's operations in the state as a whole the increase in revenues resulting from this adjustment in rates has amounted to only about 14 per cent.

He points out that this increase is much less than the rise in living costs generally and far less than the increases in telephone wages and other costs of providing service. Telephone price adjustments sought thru the company's present application would provide additional monthly revenue of approximately $420,000.

WINTER SHOWS TO BE HELD FEB. 21-25

Board of Managers Met in Crookston Last Week

The annual fall meeting of the board of managers of the Red River Valley Winter Shows and Northwest School Farmers' Week was held at Crookston November 30. Plans for the 1949 Red River Valley Winter Shows at Crookston, February 21-25, were drawn and prospective speakers and other items of business were discussed.

Representatives from the cooperating organizations gave advance reports on the 1949 show. At present, indications point to record shows in the crops and poultry departments. The livestock show promises to be equal to the 1948 show. Prospects for the Junior Heifer Calf Futurity are exceedingly good with a probable enrollment of fifty calves.

Stuart McLeod of Thief River Falls attended the meeting, representing the Red River Valley Dairymens Association.

YOUNGDAHL LAUDS 4-H ACTIVITIES

Speaks at Club Congress in Chicago December 2d

"In America there is no greater movement for better farming and better citizenship than that of the 4-H organization," Minnesota Governor Luther W. Youngdahl told nearly 2,000 4-H Club boys and girls at the farewell luncheon of the National Club Congress in the Stevens Hotel in Chicago, December 2nd.

"It has been well said that 'the greatness of a people is determined by their attitudes toward children and youth, and by the effectiveness with which they act to meet their needs.' This meeting, this 4-H organization is proof that the greatness of our people is being manifest.

"Agriculture is the very basis of our economy. The welfare of our nation depends upon our ability to train well the future farmers and home-makers and to give all youth, both in rural and urban communities, an appreciation of the importance of good farming.

"In this connection I wish to pay well-deserved tribute to the thousands of volunteer leaders who assist the specialists of our Agricultural Extension Service in giving guidance to the 4-H program. They serve without pay for the satisfaction of teaching youth good farming, good homemaking and good citizenship."

The luncheon, sponsored by the Kraft Foods company, was in honor of the National 4-H Dairy Production Contest winners, who were seated at the speakers table at the luncheon.

Flowers Are Part Of Yule Legends

There are several flowers appropriate during the Yuletide season which are connected with the birth of Christ by the legends of history.

Sainfoin, or "Holy Hay," is said to have cradled the infant Christ in the manger. The snowdrop is the flower of the Virgin Mary, and is said to be the emblem of the candles she lighted on Christmas.

According to legend, the Christmas rose was divinely created. A shepherd maid wept at having no gift to lay before the Babe in the manger. Suddenly an angel appeared to her. On hearing why the maiden wept, the angel touched the ground where her tears had fallen and immediately the place was white with Christmas roses, which the maid gathered and laid in the manger.

The chrysanthemum is said to have appeared first on Christmas Eve near the manger as a sign to the Wise Men that they had reached the spot where the star had bidden them.

OLD STYLE PLATES ON CARS IN 1950

Plates to Be Smaller, Will Be Made of Steel

Minnesota motorists wrestling with the over-size 1949 license plates were assured Thursday of a return to the "old look in 1950.

The state purchasing department disclosed that the old style steel motor vehicle tags were guaranteed with the purchase of 507 tons of sheet steel for the 1950 plates.

Licenses for 1949, which may be mounted now and must be on all motor vehicles by Jan. 1, have run into objections on two major counts: they are made of aluminum alloy made necessary by the steel shortage, and they are oversize because of the 1949 Territorial Centennial line across the bottom of the plate.

P. T. Peterson, state purchasing director, credited his assistant, William E. Stevenson, with obtaining the hard-to-get steel sheets.

The $50,000 purchase of steel was made after 54 firms had refused to bid on the state's requirements.

Stevenson worked out the purchase with Carnegie-Illinois Steel Corp., with February delivery promised on stock to stamp out approximately 1,250,000 license plates.

"CUT UPS" VISIT CRIPPLED NEIGHBOR

Sebeka—Those friendly, helpful Minnesota neighbors are at it again. Fred R. Miller was injured while shredding corn and had to take to his bed in the midst of the fall work. Neighborly cut-ups moved right in and not only finished shredding the corn but chopped, hauled, and stored several loads of wood.

Why not send that friend away from home 52 Christmas gifts in the form of a year's subscription to the Times.

Interclass Song Event at N. W. School Dec. 15

The 31st annual Interclass Song Contest will be held at the Northwest School, Crookston, on Wednesday evening, December 15. Miss Winnifred Erickson, director of voice at the school, states, "The interclass song contest differs from most school music contests in that 90 per cent of the members of each class must participate. The object of the contest is to get every student singing." An invitation is extended to parents of the students' and friends of the school to hear the Song Contest.

COUNCIL OK'S ASSESSMENTS ON SEWER WORK

First Baptist Church Plans New Structure on Horace Avenue N.

The city council at its December session Tuesday evening heard numerous delegations and acted on several matters, perhaps the most important being approval of the assessment rolls totaling $59,308, submitted by City Engineer Douglas Stewart covering the installation of sewer mains in 1947 and 1948.

The assessments cover work done in five sewer districts, it was explained, and do not include projects carried out this fall. A hearing on the matter was set for the next regular meeting January 11.

A hearing also was set for January 11 on the application of the First Baptist church for a non-conforming permit to erect a new church structure on Horace av. between Fourth and Fifth sts. The application had the approval of virtually all property owners in the affected area. It was stated that only the basement portion of the edifice will be completed at first, with the superstructure to be added within the next two years.

Permits were issued to Jack W. Hanson covering an addition to his residence and to Fred H. Myhrer for a garage and shop on East Eighth st.

The council accepted the bid of the Woodrich Construction Co. to supply 1,250 yards of gravel for a stockpile at a cost of $1 per yard. Only the one bid was received.

A delegation of three members of the library board, with C. W. Pope as spokesman, asked the council to call for bids on the installation of fluorescent lighting equipment in the library to replace the present antiquated lighting system now in use. Action on the matter was deferred until later.

A group of farmers in North township, who had arranged a few years ago for the construction of electric lines to serve their farms with current from the local power plant, asked the city to take over the ownership of the lines. It was explained to them that the city lacks authority to take over such property beyond the city limits.

Fire Chief Roy Langevin again called attention to the urgent need of townships in this area arranging to acquire a fire engine with a large water tank for use in fighting fires in the rural areas. He suggested that the equipment could be kept in this city and manned by city firemen.

NORTHERN STATE BANK QUARTERS TAKE ON "THE NEW LOOK"

Pictured above is the attractive banking room of the Northern State bank, which has recently undergone a complete remodeling. George Werstlein, cashier, announced that the quarters will be open to inspection by patrons and friends at an open house Saturday afternoon and evening, December 18.

LOCAL GOLF CLUB AUTHORIZES ISSUE OF $20,000 BONDS

Proceeds to Be Used to Retire Debts and Improve New Club House

Members of the Thief River Golf club at a meeting Wednesday evening in the Rex Cafe authorized the issuance of $20,000 in bonds to retire the present indebtedness of the organization and provide funds for use in connection with the improvement of the recently acquired new club house.

Club directors voted to issue only $18,000 of the bonds at this time, most of the issue having already been subscribed; and the remaining $2,000 will be held in reserve. The bonds will draw interest at the rate of four per cent, and will be retired serially, $1,000 each year.

The membership also authorized the board of directors to sell the old club house, either with or without the land on which it stands; and they voted to increase the membership to 150.

Salvation Army Seeking Donations of Food Items for Christmas Baskets

Captain Ethel Smith of the local unit of the Salvation Army today issued an appeal to residents of the Thief River Falls community for contributions of foodstuffs to be placed in Christmas baskets to be given needy families at Christmas time. She said that the items needed, which include fresh or canned vegetables and fruits, potatoes, meat and chickens, can be left at the Salvation Army building, which will be open at all times.

S/Sgt. C. Trochmann Body Is Arriving Saturday

The remains of S/Sgt. Clifford L. Trochmann will arrive on the local Soo Line at five p. m. on Saturday, Dec. 18 and will be escorted to the receiving vault, where rites will be held at a later date. Sgt. Trochmann died in a hospital in France on May 22, 1945, while serving with the armed forces previously in Germany.

Jerry Liemandt Is New Game Warden Assigned to Headquarters Here

Jerry Liemandt of Robbinsdale arrived here Sunday, having been assigned the post of game warden in this area with headquarters in Thief River Falls. He succeeds Wm. H. Borchert, who early this year took over the duties of wild game manager in the Red Lake refuge. This is Liemandt's first permanent assignment since becoming a warden last summer, he having recently been stationed at Two Harbors. His wife and three children will join him here as soon as living quarters have been arranged for.

High School Dramatic Group in Yule Program

The National Thespian Dramatic society of Lincoln high school Monday evening conducted its annual Christmas program in the school auditorium in the form of initiation ceremonies and the presentation of a one-act play, "Light Competition," by a cast of nine under the direction of Joan Evenstad and Barbara Nilsson. A large audience was present.

Call Is Issued for Centennial Queen Candidates in Area

An invitation was issued today to all unmarried girls age 17 or over, living in Pennington county, to compete for the honor of being one of the two candidates to be named to represent this county at a district Centennial queen contest in Thief River Falls at a date tentatively set for Sunday afternoon, January 23.

The announcement was made by Alvin Christofferson, contest chairman for the district comprising Kittson, Marshall, Roseau, Lake of the Woods and Pennington counties. He stated that the district winner will compete in the state-wide Centennial Queen contest to be held in St. Paul February 11 to 20 in connection with the St. Paul Winter Carnival. The district winner will spend a week in St. Paul with all expenses paid.

Christofferson stated that negotiations are under way to arrange for the appearance of the Winnipeg Winter club in Thief River Falls in January in connection with the district queen coronation ceremony.

A contest to select two Pennington county entrants in the district event will be held Friday evening, January 14, in the municipal Auditorium. Girls interested in competing are invited to register with Christofferson or with Grover Stephens, local chairman, at the National Guard office.

It was explained that while all local business establishments are being asked to sponsor a candidate, girls may enter their names personally, the only requirements being that they are over 17 years of age and unmarried.

TIMES PRINTED NEXT WEDNESDAY EVENING; GET COPY IN EARLY

In order to permit the Times to be distributed on the rural routes next Thursday in advance of the Christmas holidays, the coming week's issue will be printed Wednesday night. To make this possible, the publishers request the cooperation of correspondents and advertisers in getting in their material a day earlier than usual whenever possible. No classified advertisements will be accepted after 2 o'clock next Wednesday.

FBI OPERATIVE IS LIONS CLUB GUEST

Announce Committees on Kiddies Carnival

Sam Hardy of the St. Paul office of the Federal Bureau of Investigation and Police Captain Leonard Hanson were guests at the Lions club luncheon Wednesday noon in the Rex Cafe. Hardy told of the wartime activities of the FBI in combating the efforts of spies and saboteurs.

Elmer Bratsch, chairman of the Lions Kiddies Carnival scheduled for Friday, January 28, announced the personnel of the committees assigned to handle various details of the event.

Melford Peterson was introduced as a new member of the club.

Schools to Close Friday

Thief River Falls schools will close for the Christmas recess Friday afternoon of this week, and classes will not be resumed until Monday, January 3, Supt. W. G. Claffy stated today.

LOCAL CHILDREN TO BE GUESTS AT FREE SHOW DEC. 21

Pharmacy, Bridgeman's and Theatre Management Sponsor Movies Tuesday

Pre-school and grade school pupils of the Thief River Falls community will receive an extra Christmas present in the form of a free movie show at the Falls theatre next Tuesday, December 21, starting promptly at 1 o'clock.

Sponsors of the entertainment are the theatre management and the Pharmacy, while the Bridgeman Creameries will cooperate by giving a treat to the boys and girls as they leave the theatre after the show.

Featuring the program will be the 60-minute film, "Rusty Leads the Way," which tells the heart-warming story of a 13-year-old blind girl and her experiences. Included in the cast are Ted Donaldson, Sharyn Moffett, John Litel and Ann Doran.

Also to be presented are the comedy, "Mummy's Dummies," and three extra cartoons.

PFC. LEONARD LIAN RITES ON FRIDAY

Serviceman Was Killed in Action in March, 1945

Interment rites will be held Friday afternoon at 1 p. m. at the Greenwood cemetery with Rev. Walter Pedersen officiating for Pfc. Leonard T. Lian, who was killed in action in Germany on March 19, 1945. All local military units will participate at the rites.

Pfc. Lian was born in Thief River Falls Oct. 1, 1918, and attended local schools. He was married to Miss O'Neill Vinje on Sept. 13, 1939. He was employed with the Land O'Lakes Creameries here, and entered service August 10, 1944. He received his training at Fort Joseph T. Robinson, Arkansas, before going overseas with the infantry unit.

Surviving are four children, Larry, Gloria, James and Donald, his parents, Mr. and Mrs. Tom Lian of this city; three brothers, Arlo, Archie and Orrie of Anoka, and a sister, Ruth Knutson of Anoka.

St. Bernards Troop of Boy Scouts to Conduct Paper Pickup Saturday

The St. Bernards Boy Scout troop will conduct a waste paper pickup Saturday, December 18, starting at 1 o'clock, Scoutmaster Jack Williams stated today. He asked that householders tie the paper securely in bundles and leave it by the curb in front of their homes in advance of the pickup. Twine for tying up the bundles may be obtained at Bjorkman's Toggery, Williams said.

NORTHERN STATE BANK PLANS OPEN HOUSE SATURDAY

To Present Remodeled Quarters to Public from 2 to 5 and 7 to 9

After having undergone a complete remodeling of its banking quarters, the Northern State bank will exhibit the "New Look" at an open house Saturday, December 18, from 2 to 5 and from 7 to 9 p. m., it was announced today.

Geo. A. Belto, president; George Werstlein, cashier; and other members of the staff will be present to greet visitors, and will distribute favors.

Most noticeable change is the removal of the grilles around the tellers' windows, giving an air of spaciousness to the room. The ceiling has been refinished in Acousti-Celotex to reduce noise to a minimum, and a new type of fluorescent lighting has been installed.

Other improvements include the installation of asphalt tile on the floors of the working space, the complete redecorating of the banking room, installation of air-conditioning equipment, and the addition of two private rooms for safety deposit box users.

The remodeling of the quarters was designed and executed by A. Moorman & Co. of Minneapolis; while the Danielson Electric Co installed the new lights, and the Paint and Glass Supply the flooring.

FIRE DEPARTMENT SPONSORS BUYING OF HOSPITAL BEDS

Portable Equipment to Be Financed by Sale of Magazine Subscriptions

The Thief River Falls fire department announces that it is starting its annual magazine subscription campaign, a plan to raise funds for the purchase of several new portable adjustable hospital beds with mattresses for the treatment of patients in their own homes.

In order that the people of the various communities may be most conveniently served, these hospital beds will be housed in the Thief River Falls fire hall, and under the supervision of the fire department, they will be readily available for temporary use in all homes of Thief River Falls, and the surrounding areas at all times without charge, except for the transportation. These portable hospital beds will also be available for temporary use without charge to any doctor, or nurse in the area.

The plan will be explained in detail by representatives working under the direction of the fire department, each bearing a letter of identification and authorization, signed by the officers headed by Roy Langevin, fire chief.

It was stated by the officers that the plan will be considered as a community service project and not as a request for donations by either the representatives or the organization. Every resident cooperating will get value received in well known magazine subscriptions. The fire department officers also express their appreciation for past support which has enabled them to purchase and place a new portable inhalator, oxygen tent, fracture bed, portable Polio-Pak heater, 12 wheel chairs, and other sick room equipment, in the Thief River Falls fire hall, for free use.

Draft Board Explains Questionnaires Sent to Men Exempt from Service

Merely because they are receiving questionnaires from the local selective service board, former service men and young married men need not expect to be drafted for military duty, Owen A. Olson, clerk of the board, stated today. He added that the object in filling out the questionnaires is to establish the fact on board records that the men are exempt from service under the present draft act. Olson reports having having received many calls for explanations after starting to mail the blanks to ex service and married men.

City Voters Asked to Approve $250,000 Bond Issue Monday, Dec. 20

To Express Views on Bond Issue to Finance Water Treatment Plant

Thief River Falls voters will go to the polls in the municipal Auditorium next Monday, December 20, to express their attitude for or against the issuance of not to exceed $250,000 in serial bonds to complete the financing of the proposed new water treatment and water softening plant. Voting will be in progress from 7 o'clock in the morning until 8 at night.

Members of the city administration are hoping that the height of the holiday season will not prevent a representative number of voters from registering their views on this important matter.

No organized opposition to the bond issue has developed to date, as the need for the new and larger plant to replace the present outmoded equipment is generally conceded to be acute.

With the total cost of the construction project estimated at almost $500,000 on the basis of current building costs, the city now has available $250,000 in cash or its equivalent, the proceeds of a bond issue sold in 1945 when it was first planned to start work on construction of the plant.

Much of the piping and other equipment needed has already been placed on order, so that materials currently in short supply, will be available when needed.

The bonds, if approved, will be issued on the basis of an interest rate not to exceed two and one-half per cent per year, and will mature serially in from three to twelve years.

RITES CONDUCTED FOR JOHN BRATRUD, MAYOR HERE '20-23

Former Local Official Succumbed December 2; Interment in Brainerd

John Bratrud of Brainerd, who served as mayor of Thief River Falls two terms from 1920 thru 1923, succumbed at a hospital in St. Paul December 2, relatives and friends here learned during the past week. Funeral rites were conducted at Brainerd Saturday, December 4. He was 66 years old.

Mr. Bratrud was engaged in the real estate business during his period of residence here, going from this city to Minneapolis, and more recently to the vicinity of Brainerd, in which city he maintained a real estate office up to the time of his death.

While living in Thief River Falls, Mr. Bratrud was married to the former Miss Myrtle Rasmusson who survives his death, together with a daughter, Mrs. Barbara McPheeters of Brainerd.

Also surviving are four brothers, Dr. Edward Bratrud of this city, Dr. Arthur Bratrud of Minneapolis, Oscar of Tacoma, Washington, and Albert of Spring Valley.

BUSINESS AREA IS ALL DRESSED UP

Holiday Decorations Are Finest in History

The streets in the downtown district of Thief River Falls this season are graced with the most attractive holiday decorations in the history of the community.

Huge festoons of greenery profusely illuminated with colored lights have been installed thru the initiative of the merchants committee of the Civic and Commerce association, with the major portion of the cost provided by a city council appropriation.

The spectacle after dark is suggestive of Nicollet avenue in Minneapolis, one of the most elaborately decorated streets in the nation.

J. Provencher Awarded Watch in UCT Contest

Julien Provencher, one of the winners in a recently completed membership contest conducted by the United Commercial Travelers, was presented with a handsome wrist watch by Robert J. Lund, senior counselor, in a ceremony at a UCT party Saturday evening in the Masonic hall. A similar award was presented later to Anton Hall, secretary of the unit, and also a winner in the contest.

STORES WILL REMAIN OPEN EVENINGS FROM DECEMBER 17 TO 23

To give residents who are employed during the day an opportunity to attend to their holiday shopping needs, Thief River Falls stores will remain open evenings until 9 o'clock, starting Friday night, December 17, and continuing thru Thursday, December 23. Stores and other business places will close at 5 p. m. on Christmas Eve Friday, December 24, and again on New Years Eve the following Friday.

2D RURAL SCHOOL HOUSE IS SOLD BY EDUCATION BOARD

Board Also Increases Insurance Coverage on Contents of Buildings

The Thief River Falls board of education at its December session Monday evening voted to accept the bid of A. Hermanson in the amount of $375 for the school house in District 165, which recently was merged with the local district, No. 18. The structure is to be moved from its present location by the purchaser.

The board also acted to increase by $80,000 the insurance coverage on the contents of school buildings in the city. The action, required under the co-insurance arrangement under which the policies are written, followed a recent survey which revealed a corresponding increase in insurable values.

Supt. W. G. Claffy reported that a federal agency in Washington had approved the appointment of Quentin Jones as supervisor of drivers' training in Lincoln high school. Mr. Claffy also stated that the Northern Chevrolet company also is supplying a new Chevrolet car with dual controls for use in the course.

At the same time he stated that the postoffice will close at 12 noon on Friday, December 24, Christmas Eve, in compliance with instructions from Washington, D. C.

Junior Chamber to Judge Yule Lights In Contest Dec. 21

With Thief River Falls homes now being decorated with Christmas lights in preparation for the festive holiday season, Lucian Krause, chairman of the Jaycee home lighting contest, stated today that judges will make their rounds Tuesday evening, December 21 between the hours of 7 and 10 o'clock.

Decorations, Krause said, will be judged on the basis of originality rather than elaborateness. He urged that as many local residents as possible compete in the contest, in which the first prize will be $15, second $10 and third $5, with five additional awards of $1 each.

Krause stated that the Christmas committee of the state Junior Chamber of Commerce had adopted as its slogan this year, "The Light of the Christ Child in Every Home". Every home, he said, is urged to display at least one light in a window as a representation of the birth of Christ.

ENJOYABLE PARTY STAGED SATURDAY BY MASONIC ORDER

Royal Arch Masons Are Hosts to More Than 300 at Affair in Auditorium

Well over 300 members of Masonic orders from this city and surrounding communities assembled in the Auditorium Saturday evening for a program and dance arranged by members of Northern chapter of Royal Arch Masons.

Highlight of the evening's program was the appearance of several units from Kem Temple of the Shrine in Grand Forks. Included were the Shrine band, directed by Leo Haeslie; the snappy Shrine drum and bugle corps; and evolutions performed in excellent fashion by the drill team.

Thief River Falls talent on the program included the Shrine Oriental band in its colorful apparel; the Legion auxiliary trio, directed and accompanied by Mrs. Harold Harrison; selections on the musical saw by George Rockstad; two-piano numbers by Mr. and Mrs. Harrison; a comic musical number by Judge Paul A. Lundgren and Jack McKechnie; a laugh provoking barbershop skit; and selections by the "Dolly Sisters" impersonated by Jack Edmiston, Orvis Olen and Irvin Wilson.

Judge Lundgren and Kern Olson took turns in presiding over the program which was followed by dancing and the serving of a bounteous lunch.

SPORTSMENS CLUB DRAWS BIG CROWD

2 Speakers on Program Last Monday Evening

Speakers at the December session of the Pennington County Sportsmens club Monday evening were Wm. H. Borchert, wild game supervisor of the Red Lake refuge, and Fred Tullar of Warren, treasurer of the Northwest Association of Conservation Clubs. A large gathering was present.

Borchert briefly discussed conditions on the game refuge, while Tullar told of a statewide conservation conference he had attended in Minneapolis Sunday.

Otto Rupprecht brought in for inspection two deer heads with their horns inextricably locked together. The program was completed with the showing of motion pictures and serving of lunch.

CONFIRMATION IS SLATED AT TRINITY

Class of 17 Adults to Give Vows Next Sunday

Confirmation of a class of seventeen adults, six of whom will also be baptized, will take place at the morning service at Trinity Lutheran church next Sunday.

The largest adult membership class in the history of the church has been instructed by Rev. G. S. Thompson, senior pastor of the church, over a period of the last two months and will give its vows in the presence of the congregation.

This class brings the total of adult confirmands for the year to 23. Together with many others the entire group will be formally received into the fellowship of the church at the festival service on Christmas Day.

The first of the Sunday School Christmas program in the church will be given by the primary department pupils on Sunday at 7:30 p. m. The kindergarten and intermediate departments have scheduled their programs for Sunday, December 26th, at 4:00 and 8:00 p. m., respectively.

High School Vocalists Give Christmas Program

"Christmas in Song" was the theme of an excellent program presented before a large audience Wednesday night in the Lincoln high school auditorium by the vocal music department under the direction of Orel B. Vangen. Groups participating were the high school chorus, boys octet and girls sextet.

Flooded Oil Burner Is Cause of Smoke Damage

Considerable smoke damage resulted at the Howard Gulseth home at 421 Duluth av S., when a furnace oil burner became flooded last Saturday morning shortly before 6 oclock. The fire department also was called out Saturday evening at 6:20 when a blaze developed in an automobile at Seventh st. and Main av. Damage to the vehicle was slight.

ONE-TIME LOCAL ATTORNEY IS DEAD

H. C. Rowberg Succumbs Saturday in Minneapolis

Herbert C. Rowberg, Minneapolis attorney and resident of Thief River Falls from 1912 to 1916, succumbed Saturday at the age of 63 in Minneapolis, where he had made his home the past 30 years.

While a resident here, Mr. Rowberg was active in community affairs, serving a term as city attorney and also as secretary of the Carnegie library board in 1914 when the present library building was erected. He was associated in the practice of law 1916 with the late E. M. Stanton. Stanton.

Leaving Thief River Falls in 1916 with the National Guard for duty on the Mexican border, Rowberg went to St. Paul after leaving the service. Two years later he moved to Minneapolis.

Surviving his death are three brothers and a sister. He was unmarried.

O'Hara Truck Damaged in Collision Friday on First st. at Tindolph

An O'Hara Fuel and Transfer Co. truck driven by Roy Erickson sustained considerable damage last Friday when it collided with an automobile driven by Andrew Skaar at the intersection of First st. and Tindolph av. The car was only slightly damaged, and the drivers escaped unhurt, police reported.

A truck belonging to John Englund, Rt. 1, was stolen in this city Sunday, and was recovered Tuesday, apparently undamaged.

Police also reported seven minor traffic cases and four drunks during the past week.

THE LEGALIZED CLOSED SHOPS

There has been quite a tempest in a teapot over the refusal of the Minnesota medical association to give a license to practice to a foreigner. It was a good story, and has caused a lot of talk; too much talk from the standpoint of the medical profession but not enough talk perhaps from the standpoint of the overall problem of which this story is merely one dramatic incident.

Actually there isn't much justification for becoming aroused because the right to practice medicine in Minnesota is denied to one foreigner when the right to enter various trades and professions in Minnesota is denied every year to qualified young men and women who are citizens of our own state.

If the publicity that has been given to this one somewhat dramatic example would result in greater concern about the doors that have been closed to the competition of our own young men and women in other professions and trades than this incident might serve a useful purpose. By legislative act we have given too many special groups the right legally to operate closed shops. This right has been granted, presumably in the public interest, but too often the power is used for the selfish interests of the members of that group.

The right of American citizens to become lawyers or nurses or watchmakers or dentists or hair dressers or electricians or doctors or any other trade or profession should be determined on the basis of their qualification alone if there is to be regulation. Public interest and not the selfish interest of any group is the only justifiable basis for any regulation, and license requirements should be reasonable.

There undoubtedly is justification for a few of the boards with which our society is afflicted. Some of these serve a useful and at times an unselfish service. But from our observation of the activities of the favored groups that operate behind the legal protection of their own rules and regulations we are satisfied that too much power has been given to such groups; that we have closed too many doors of opportunity to our young people, and created a legalized aristocracy of trades and professional people that has no place in a free society.

In behalf of the good fellows who carry the mail—and the mail sacks are getting heavier by the day as Christmas approaches—we are glad to urge the making of paths thru the snow from the street to the house, and ask for unlocked porch doors. Locked porch doors delay service more than any one thing says Fred Protz. The appeal for passable walks is strictly personal. Incidentally Mr. Protz favors the packing of snow on the walks rather than snow removal, and he believes the city should resume the dragging service that was discontinued several years ago. Packed snow makes good walks during the winter months and provides drier walks during the spring thaw. To all of which we second the motion.

In the rush of Christmas preparations *citizens of Thief River Falls will need a lot of* reminding next Tuesday to get them to turn out for the special election called for the purpose of authorizing a bond issue for building a new water system. If the election could have been postponed to some time next April during the spring run-off we are sure there would be a big vote in favor of the improvement. There should be no further delays however. Hard-to-get equipment has already been ordered and the council will advertise for bids just as quickly as possible after the bond issue authorization is given. The city officials are doing their bit to speed action. Don't take a chance on the election Tuesday. Do your bit by casting your vote—and get your neighbor out to vote too.

PLUMMER SCOUTS PLAN FUND DRIVE

Emil Larson Chairman Agassiz Council Drive

Emil Larson of Plummer has been appointed as the chairman of the Lake Agassiz council 1948 finance campaign in Plummer. He is now busy organizing the man-power of the community so that every wage-earner may be given an opportunity to contribute to the further extension of Scouting throughout the entire council. The campaign opens Monday, December 20.

Emil Larson has organized his committee to include the following: Don Ness, Don Guillemette and Walter Peterson.

Clarice Joan Nelson, Formerly of This City, Weds on December 11th

Miss Clarice Joan Nelson, daughter of Mr. and Mrs. Arno Nelson of Ringstad, Iowa, former residents of this city, and Roy Ohrtman, son of Mr. and Mrs. Otto Ohrtman of Emmetsburg, Iowa, were united in marriage at a single ring ceremony performed in Emmetsburg on Saturday morning, Dec. 11.

Miss Virginia Nelson of Ringstad, sister of the bride, and the groom's brother, Carl Ohrtman of Emmetsburg, served as witnesses.

The bride chose for her marriage a two-piece beige wool dress trimmed in green embroidery, and wore a corsage of three orchids. He attendant was attired in a two-piece pink suit and wore a corsage of gardenias.

A wedding dinner was given by the bride's parents to immediate members of the bridal party. The room from which the dinner was served had white and pink decorations. A large cake served as the centerpiece of the table.

Mr. and Mrs. Ohrtman are graduates of the Ringstad high school. They spent their wedding trip in the Twin Cities and are now residing on a farm near Emmetsburg.

JOHN SJOLSVOLD RITES ON FRIDAY

Pioneer Resident Had Lived in Area Since 1886

John Sjolsvold passed away Sunday, December 12 at the Oakland Park Sanatorium at the age of 72 years. Funeral services will be conducted from the Gulbranson chapel on Friday, Dec. 17, at 2 p. m., Rev. Walter M. Pedersen officiating and interment will be made in Park Ridge cemetery northwest of this city.

Born in Norway Dec. 19, 1875, he came with his parents to Duluth at the age of six years. They later homesteaded in New Solem township, Marshall county in 1886. He was united in marriage to Miss Inga Nelson at St. Hilaire on Feb. 14, 1902, and they resided on a farm in Norden township. Two years ago they moved to this city. While living in Norden township he served on the school and township boards.

He is survived by his wife Inga of this city; three daughters, Mrs. Mable Kelly of Oakland, Calif., Mrs. Ed Ruggles of Eugene, Oregon and Mrs. Melvin Greibrok of this city; three sons, Henry of Hazel, Oliver of Oneonta, N. Y. and Albert of this city; nine grandchildren; four great grandchildren; three sisters, Mrs. Emma Opland of Duluth, Mrs. Anna Thompson and Mrs. Hary Alby of Thief River Falls; and a brother, Albert Sjosvold of Duluth.

He was preceded in death by a daughter, a son, three brothers, and a sister.

Mrs. Marie Torgerson Dies at Home in Agder Township on Monday

Funeral rites will be held Saturday, Dec. 18 at 2 p. m. at the Silver Creek Lutheran church for Mrs. Marie Torgerson, who passed away on Monday at her home in Agder township at the age of 81 years. Rev V. G. Sorenson of Holt will conduct the rites and interment will be made in the church cemetery.

She was born March 10, 1867 at Ontario, Wisc., and moved to Wheaton in 1896, after her marriage to Silas Torgerson on Feb. 13, 1896 at Ontario. They came to Thief River Falls in 1903 and a year later moved to a farm in Agder township, where they have since resided. She was a charter member of the Silver Creek church.

Survivors include her husband Silas Torgerson and two sons, Melvin and Carl of Agder township; a brother Stephen Stenerson of Cashton, Wisc.; and ten grandchildren. A daughter and two sons preceded her in death.

Mercury Hits Low of 25 Below Zero Friday

This area experienced wintry weather the past week, Station KTRF recording a minimum of 25 below zero last Friday morning, followed by subzero readings every morning following except Wednesday, when the low reading was 8 above. Approximately four inches of snow fell during the week, and this morning it was being driven by a stiff wind.

Sam Hardy of the FBI Addresses Rotary Club at Luncheon Meeting

Sam Hardy of St. Paul office of the Federal Bureau of Investigation was the guest speaker at the Rotary club luncheon meeting Tuesday noon in the Rex Cafe. He gave details of some of the cases he has worked on in Minnesota, and told of some of the tricks used by card sharps and in dice games. Mr. Hardy has been in Thief River Falls this week, appearing on the program of the police school sponsored by the FBI and the state highway patrol.

Thieves Hockey Six Win 1st Two Games; St. Paul Coming

Coach Bob Bell's senior hockey Thieves opened their season's play on Saturday and Sunday by playing the St. Boniface "Anciens" of St. Boniface, Manitoba, in a pair of games on the Arena rink. And the locals, turning in a brand of fine hockey, registered a double win, defeating the "Flying Frenchmen," 4 to 0, on Saturday night, and recording an 8 to 4 triumph in the Sunday afternoon engagement.

The Thieves' coach will send the local squad through strenuous practice drills this week in preparation for the two grueling games slated for Saturday night and Sunday afternoon when the powerful Seven-Up team of St Paul will play here. The St. Paul Seven-Ups are the Twin City amateur hockey champions, and in their lineup they boast such stellar hockey performers as Bill Galligan, Bernie Struntz, Paul Wild, Al Van, Pete Pleban, Harold Younghans, and Bob Graiziger. Al Van will be renewing acquaintances with the locals' Bob Baker, for the two players were teammates on the A. H. A. Olympic hockey team last year.

Saturday night's 4 to 0 victory over St. Boniface, and before a large crowd, was featured by the shutout goal-tending of the locals' Johnny Robarge. Robarge, in the Thieves net in the absence of "Greek" Swanson, kicked out numerous shots, and was particularly effective in the third period when the Canadians made every effort to avert a shutout.

On Sunday afternoon the two teams were favored by "fast" ice, and the game was a higher scoring affair than the preceding night's contest. St. Boniface gained an early lead when Jean Lemay and Wilf Shannon tallied scores in the opening minutes of play, but Tony Dorn, on a sharply angled shot into the north goal, and Bob Baker's backhand shot at the 18:20 mark gave the Thieves a 2-all tie in the first period.

After burly Denis Lambert had boosted the Canadians into a 3 to 2 lead on a rebound shot to open the second period scoring, Lloyd Johnson, seconds later, again tied the score, tallying on a shot from close in. Swede Lund, on a solo rush, beat goalie Rene Bouvier with a hard drive from twenty feet out. With both teams short-handed, Dick Roberts picked up a loose puck, and on a break from center ice, raced in to give the Thieves a 5 to 3 lead. Les Vigness, who played a strong game at wing for the locals, tallied with a minute to play, and the Thieves led, 6 to 3.

Mouse Efteland and Vigness scored third period goals for the locals, while Lemay was collecting the lone St. Boniface counter in the final stanza.

PROWLERS DEFEAT DETROIT LAKES IN OVERTIME GAME

Red Lake Falls Eagles to Furnish Opposition in Local Gym on Friday

Don Sponheim's field goal, from out beyond the free throw circle, provided the Prowlers with the points that gave the blue-and-gold a 40 to 38 win over Detroit Lakes in an exciting overtime basketball game played at Detroit Lakes Saturday night. In a preliminary game the Lakers 'B' squad edged out the Prowler 'B' team, 19 to 16.

On Friday night the locals will conclude their pre-holiday schedule when they play coach Harold Kraft's Red Lake Falls Eagles in the Prowler gymnasium. It will mark the first venture into district competition for the Prowlers, and with Red Lake Falls having a veteran team, led by rangy George Wagner, coach Bob Nick's squad will be given a thorough test.

Saturday night's thrilling encounter at Detroit Lakes found the Prowlers registering their first win in four games, and for three periods of the game it appeared that the Lakers would extend the locals losing streak, for coach Hoff's team held a 16 to 9 first period lead, a 24 to 21 advantage at the half, and a 34 to 27 third period margin.

The Lakers, with left-handed "Skip" Craig connecting for six field goals and a pair of free throws, and with forward Bob Olson tallying five field goals and a free throw, held a "safe" 37 to 30 lead with but three minutes of play remaining in the fourth quarter.

Al Williamson, Prowler co-captain who was making his first appearance in the local lineup this year, popped in a field goal when play was resumed following the official time-out. Harley Wagner followed with another field goal, and when a Prowler free throw was marked, the locals trailed by two points with less than a minute to play. With thirty seconds remaining, Don Stadum was fouled and, given two shots, the Prowler blond tied the score by racking up two points. The Lakers' Wally Walbaun had an opportunity to win the game in the final second of play when he was fouled by Stadum just as the game-ending buzzer sounded. Given a free throw, the lanky Lakers' try rolled off the rim and the game moved into overtime, with Sponheim's long shot putting a climax to the Prowlers game-winning rally.

Harley Wagner, with 14 points, and Al Williamson, with 9 points, were the Prowler high scorers, while Craig and Olson were the Lakers high point men. Referees Anderson and Robinson called 47 fouls during the game, with the locals being called 28 times and losing Wagner, Williamson, and Stadum on fouls.

PLANS COMPLETE FOR STATE H. S. HOCKEY TOURNEY

Teams from 8 Regions to Compete in St. Paul February 24, 25 and 26

Arrangements have been completed for the state high school hockey tournament that will be played in the St. Paul Auditorium on Feb. 24, 25, and 26.

In order to make for faster competition in the state tourney, there has been a reshuffling of the various regions, with regions four and five being given an additional entry, and also regions eight being given an extra entry.

Composing Region Two will be North St. Paul, Rochester, South St. Paul, Stillwater, White Bear Lake and Winona. Region Four will consist of the St. Paul schools; and Region Five will be the Minneapolis schools.

Schools in Region Six are Buffalo, New Prague, Robbinsdale, St. Cloud Tech, and St. Louis Park. Region Seven will consist of Cloquet, Duluth Central, Duluth Denfeld, Eveleth, Floodwood, Hibbing, International Falls and Two Harbors. In Region Eight will be Baudette, Hallock, Indus, Roseau, Thief River Falls, Warroad and Williams.

To complete the field of eight teams, Minneapolis and St. Paul schools will name an additional entry to the Region one contestant. And Regions Seven and Eight will also select another team to represent Region Three.

The selections of these extra names may be made by mutual agreement of the officials of the regions involved, by a play-off of the regional tournament runners-up or by the board of control. It is reported that regional officials of Regions Seven and Eight have recommended that this year the running of the Eighth region's tournament be designated, while in the coming year the runner-up of the Seventh region's tourney will be named. It is thought that a runners-up playoff would be difficult to conduct on short notice, and the above arrangement would be fair to both regions.

DRUNKEN DRIVING BARS 3,600 FROM DRIVING IN 1948

315 Convictions During Month of November Are Reported by Bureau

With the season for celebrating the holidays still ahead, more than 3,600 Minnesota motorists to date have been barred from the wheel by drivers license revocations for drunken driving, the state highway department announced today.

The November report of the drivers license bureau showed that up to Nov. 30 of this year 3,579 drivers licenses had been revoked for driving while intoxicated. November alone accounted for 375 revocations of which 315 were for drunken driving, 24 for having been committed as an inebriate, 23 for speeding and 8 for hit-and-run driving.

Drivers licenses suspended during November totalled 1,527 and brought the total of suspensions for eleven months of this year to 14,987 as compared with 10,740 during the same period of last year.

The greatest number of November suspensions were for failure to comply with the safety responsibility act after an accident and failure to take required driving tests. The former numbered 560 and the latter 429.

Speeding last month cost 209 drivers suspensions from driving for varying periods of time from 30 days upward and careless driving banned 78 motorists from the driver's seat for generally even longer periods. Violation of stop sign and signal regulations resulted in 16 suspensions and driving with dangerously defective equipment in 8.

The report disclosed that so far this year 605 drivers in Minnesota have been convicted for driving after their licenses had been revoked or suspended. Sixty-four of these convictions occurred in November.

Thirty of the motorists who lost their licenses because of drunken driving were repeaters who had previously been convicted on the same charge.

STATE GAME, FISH DIVISION REPORTS ON DEER HUNTING

Says More Than 30 Pct. of Minnesota Hunters Bagged Game This Year

Deer hunters generally had a success ratio of 30.3 in Minnesota this past season, although in three areas in the state the figure ran as high as 59.3 per cent. This was revealed in reports sent to the bureau of information, Minnesota department of conservation, by game wardens throughout the state.

Best areas in the state, according to the wardens' estimates were Kittson, Roseau, Lake of Woods, Marshall and Beltrami County where the success ratio was set at 39.3 per cent. Ottertail, Wilkins and Cass County ratio was estimated at 58.6 per cent and Aitkin, Pine and Chisago counties, 45 per cent.

Best section of the state was the 14 northwest counties with an estimated 37.3 success ratio.

Meanwhile a constant flow of letters to the division of game and fish were devoted to the deer hunting season. Here are some of the typical remarks:

Art Anderson, Brainerd—"The Nisswa Commercial Club feels that the department acted in no way out of reason in its opening of the deer season. There is a nice supply of brood stock left from all reports, and I, as well as all others around here, hope for a season next year."

Truman Dearborn, Park Rapids—"I have hunted over 40 years in this county (Wadena) and I think the deer were quite plentiful this fall—if you hunted them."

Henry Siprhaug, Secretary, Pennington County Sportsmen's Club, Thief River Falls—"In my personal opinion I do not believe there was any shortage in this section of the state. Any criticism of the department of conservation is unwarranted. I have spoken to a large number of hunters in the Middle River, Grygla, Plummer and Thief River Falls areas and they all stated that deer were hard to get during the season but that they had started to show up after the snow came and that there were tracks by the hundreds."

GROWING WITH YOUR CHILD

Institute of Child Welfare, University of Minnesota

"For heavens sake shut up, will you!" a mother yells at her crying child. The child shuts up—maybe. How the situation got that way is often a sad story, and how it gets finally dealt with another. Besides, there is likely to be the long-term effect of having it happen over and over.

If your progeny's outbursts drive you crazy, step one is to try to prevent them by looking ahead. For example, the fewer direct commands, the fewer chances to refuse; the less show of favoritism, the less jealousy, etc. A little effort to think how the child is going to feel will pay off in the crisis.

Step two—Control yourself. It's a rare child who can calm down while his parent is worked up. Children are a lot easier to show than to tell, which leaves us with that easy phrase for a hard job. Be an example.

Step three—If fireworks begin anyway, the best thing to do is to let them go off, within reason. Some emotional displays are self-discharging if you can leave them alone, especially put-up jobs. In other cases woes can be listened to, fears talked out, aged.

Step four—The fact remains that people sort of have to learn to squelch their emotions; at least they must know how. This can be very hard on everyone concerned, for many emotions demand more than the right to be expressed. For example, a hurt child needs comfort, not just a chance to yell. Only remember that at first you will expect to satisfy just about every demand of your child; and voluntary self-squelching is a mature skill that most of us still have to work on. So gradually teach and explain self-control where the situation favors it, but recember that while your child is a child, most of the answer to outbursts is in prevention, self-control and, if necessary, healthy explosion.

OVER 60 MILLION PHONES IN WORLD

Minnesota Now Served by 828,000 Telephones

The total number of telephones in the world has reached a record 60,600,000, or one for every 38 persons at the start of 1948, according to the new issue of "Telephone Statistics of the World" released today by the American Telephone and Telegraph company.

The United States, with only about six per cent of the world's population, has nearly three-fifths of its telephones. Of the 6,000,000 telephones gained in 1947 more than 3,250,000 were added in the United States, which at the beginning of 1948 had 34,867,000 telephones in service — one for every four persons. (Since then 3,000,000 more have been added in the U. S.) Sweden had the next highest telephone density with one for every five persons.

The United States out-talked all other nations in 1947, with 45,000,000,000 telephone conversations — 3,000,000,000 more than the preceding year and nearly 12 times as many as in Canada, which held second place. The average American used the telephone 317 times during the year.

Minnesota now has approximately 828,000 telephones, or about 19 per 100 population. Minneapolis ranks first in telephone development among larger cities in the state and is in fourth place in the United States among cities of 500,000 or more population.

In Minnesota cities under 2,500 taxes bring in 41.9 per cent of the municipal revenue as compared with 68.7 in cities of 50,000 and over. Utilities account for only one-tenth of 1 per cent of the big city revenue as against 3.6 per cent of the small city revenue.

Better County Highways Objective of Engineers Meeting at University

Ways and means by which Minnesota counties can provide low cost bituminous surfaces for increasing mileage of their more heavily travelled county highways, and plans for the development of county highway safety programs to reduce the mounting loss of life in traffic accidents on county roads, are two of the topics which this week have drawn nearly all of the state's 87 county highway engineers into a four day study institute at the University of Minnesota.

It is the fourth annual institute for county engineers, conducted at the University center for continuation study, sponsored cooperatively by the Minnesota Association of County Engineers and the state department of highways.

The speakers and their subjects all are selected with a view to developing practical ideas and methods which each engineer can apply to the problem of developing better and safer county roads at the lowest possible cost. The morning programs for both Monday and Tuesday included periods devoted to better planning of county highway systems, both primary and secondary, in accordance with traffic patterns and school bus routes.

Kin of Former Residents Recovers from Burns

Jack Soderlind, 18-year-old Minneapolis coast guardsman, burned so badly in kerosene flash fire last March that plastic surgery was necessary on more than half his body, returned Saturday to Minneapolis, where his parents, Mr. and Mrs. Walter A. Soderlind, formerly of Duluth, now make their home. The youth was burned when his kerosene-soaked trousers caught fire at a light station near Bar Harbor, Maine. Jack is the grandson of the late Mr. and Mrs. Arvid Soderlind, former residents of Thief River Falls.

From where I sit ... by Joe Marsh

The Missus "Ducks" Out

Slim Hartman took his missus duck hunting the other day. And after [illegible] hours of sitting in a swamp, she'd had enough! Going home, Slim chided her goodnaturedly of the time she'd taken him to a woman novelist's lecture, and insisted [illegible].

So now the missus and Slim have an understanding. No more duck hunting for her—no more lectures for him. They decided each to his own taste.

It's because they can agree to disagree like that, I think, that Slim and the missus get on so well—content to stay home nights together, enjoying one another's company [illegible] beer and a game of chess.

From where I sit, we can't all [illegible] the same things—but [illegible] share those little pleasures that we do enjoy—a glass of beer, a game of chess, some music on the radio—and live-and-let-live when it comes to the others.

Mr. and Mrs. Don Hoff of Grand Forks were home at the Walter Lendobeja's over the week-end.

Word has been received from the Arnold [illegible] family (Geneva Allen). They are nicely settled in their new home built last summer. They had purchased four acres of land in the Spokane Valley in Washington and their home town is now Veradale, Wash. The Kor-[illegible] plan to make a visit to this way next summer.

The Helperette club party will be this Sunday afternoon, Dec. 19 at the O. N. Olson home. A good time is in the offing. Don't forget the gift exchange. Supper will be served at the afternoons end.

GENERAL MOTORS

NO BOLTING DOWN —Can Be Installed Anywhere!

New Frigidaire principle practically eliminates vibration—so this washer need not be bolted down, can be placed wherever it's most convenient. That makes it really practical in apartments and rented houses!

Only Frigidaire gives you all these big advantages

1. **Live-Water Action.** Sends hot, sudsy water surging through every square inch of fabric, time and time and time again. So *thorough*, it washes out deep-down grime from heaviest work clothes. So *gentle*, finest lingerie is perfectly safe! *Only Frigidaire has it!*
2. **Rapidry-Spin.** High speed — but *gentle*—action spins water out of clothes *two to three times faster* than ordinary washers! Leaves clothes far drier, pounds lighter! Lets you iron some things immediately. *Only Frigidaire has it!*
3. **Select-O-Dial** — One touch of this dial—and your Frigidaire Automatic Washer automatically washes clothes, rinses them twice, spins them damp-dry, fills with clean water between operations, cleans and empties itself at end of cycle—all in 29½ minutes! Or you can skip, lengthen, shorten or repeat any operation. *Only Frigidaire has it!*
4. **Underwater Soap Distributor.** Transforms soap or detergent into bubbly, *active* suds. Then—and only then—it releases suds to wash water! No more yellow soap stains on clothes. *Only Frigidaire has it!*
5. **Unimatic Mechanism.** Amazing Frigidaire washing mechanism is made in one simple, trouble-free, direct-drive unit—no belts, pulleys or extra motors. Keeps your washer always on the job! *Only Frigidaire has it!*
6. **Lifetime Porcelain Finish**—Inside and out. Made to last the life of your washer. Wipes clean with cloth. *Only Frigidaire has it!*
7. **Clog Proof Water Pump.** Empties washer quickly, automatically. No screens or drain valves to clean or replace—can't clog up! Easily discharges water even at sink level! *Only Frigidaire has it!*
8. **Many More Exciting Features.** Handy table-top gives extra working space. Convenient top loading. Leveling glides for uneven floors. All parts enclosed. Built-in ground gives positive electrical safety. One-piece top. One-piece all-steel cabinet. Rapidry spinning stops if top is lifted.

FINAL APPEAL TO MAIL EARLY MADE

Mail Greeting Cards Now, Anderson Asks

Postmaster Andrew Anderson today issued final warning to tardy mailers of traditional Yuletide greetings. All Christmas cards for local delivery should be on their way at least a week before Christmas, he said.

"If your Christmas cards aren't in the mail pickup boxes by Friday night, some may possibly not be delivered until after Christmas Day," the postmaster declared. "Don't risk disappointing your friends. Remember, Christmas isn't really Christmas—afterward."

With holiday mailings all across the nation reaching an all-time peak this year, the Postmaster reported that heavy shipments of out-of-town mail for local delivery are already rolling in.

Centennial Booklet to Be Published Next Year by Bankers Association

"Minnesota Spans a Century" will be the title of Minnesota's official Centennial Booklet to be published and distributed by the Minnesota Bankers association in co-operation with the Minnesota Territorial Centennial Committee, in conjunction with the state's 100th anniversary next year.

M. O. Grangaard, president of the bankers association and also vice president of the First National bank of Minneapolis, announced that the project was approved at the association's council meeting Tuesday.

The volume, printed in two colors and consisting of a well-planned, attractive history of *Minnesota, supplemented with* old, historical pictures, will be released March 3, 1949, the date of the anniversary.

George E. Buscher, president of the Alexandria State bank, heads the banker's committee which is collaborating with Minnesota's Historical society and centennial committee.

Complete distribution around the state will be insured by individual banks supplying their communities with copies of the booklet.

DRIVER GORY BUT EGGS UNSCRAMBLED

Morris.—Harry Lord was in a hurry to get to a good dinner, the highway was slippery, the car rolled over in the ditch. Passersby were thoroughly frightened when Mr Lord crawled out of the wreckage a gory red from crown to toe. Then, not feeling that way, Mr Lord remembered the cranberry sauce he was taking to the dinner. Next he remembered 30 dozen eggs in the luggage compartment. The lid was raised with great diffidence—and the eggs were intact, not one even cracked

POLITICAL ROUNDUP

By Arthur Naftalin

Plans for the organization of the 1949 state legislature are in an unusual ferment. Ordinarily most voters are not inclined to pay much attention to how the legislators get set to perform their huge task, but this year some red-hot fights are developing that may make the '49 session one of the most controversial of the last decade.

The major fight is over control of the house of representatives. The conservatives, claiming some 85 of the 131 house members, are prepared to elect Rep. John A. Hartle of Owatonna as speaker, but the liberals are getting set to make a strong contest. The liberals feel that many of those who are with the conservative caucus rightfully belong with the liberals, and this fight is now out in the open.

The conservatives are greatly disturbed by the letter written by Senator Leo J. Lauerman of Olivia in opposition to the election of Lawrence Haeg, of rural Hennepin county, as speaker. Lauerman's letter charged, in effect, that both Haeg, as chairman of the house liquor control committee, and Speaker Lawrence M. Hall "were under the complete domination of the Minnesota Whiskey Trust" and that it was impossible to get a hearing on a bill to provide for a state wholesale liquor dispensary, which bill Lauerman championed.

Lauerman sent his letter to house members in advance of the caucuses of both the liberals and conservatives held on November 12. It appears, from press reports that many representatives believe the letter contributed to Haeg's defeat for the speakership at the caucus.

Some conservatives are extremely displeased by Lauerman's letter, regarding it as an improper interference by a senator in the affairs of the representatives. Hall, who is now general counsel with the Minnesota Wine and Spirits Institute, branded Lauerman's assertions as "libelous, untrue, and vicious."

What may be shaping up, as part of the background to this heated exchange, is an all-out effort in the '49 session to establish a state owned wholesale liquor dispensary. This issue cuts across liberal-conservative lines, there being some on both sides for and against.

But Hall was quick to see this as the implication of the Lauerman letter. Hall declared, "Not only is Lauerman attempting to put in a system of liquor control that's communistic, but he's adopting Vishinsky's method of vilification to accomplish his purpose."

Majority Leader Roy E. Dunn also denounced Lauerman's statements, calling them "very undignified" and "terribly unethical." He said, "We all know Lauerman and what he stands for and nobody pays any attention to him."

Meanwhile, on another front, there is continued controversy over who should organize the house. The liberal minority, led by Representative Ed Chilgren of Littlefork, is busy mustering its forces for as strong a stand as possible in selection of the speaker.

The liberals would like to win over to their caucus a number of the members who affiliated with the conservatives, but they recognize that it is unlikely that the conservative control can be broken. The liberals feel they lost many from their caucus because some representatives wanted to be assured of good committee assignments by joining the conservative group.

Chilgren is making it clear that the liberal minority will be heard from in this session. An intelligent, hard-working, hard-headed leader, Chilgren promises to give the liberals their most effective direction in many sessions.

Chilgrn is already at work on a program that will hold the liberal group together. He is hopeful that on many issues the liberals will be able to control a house majority. Children recognizes that his job will be to find and hold a middle ground that will enable liberal farm, labor, cooperative groups to pull together.

One significant development, so far as legislative organization is concerned, is the announcement by Speaker-designate Hartle that he plans to expand the number of house committees. Two years ago there were 30, and he plans to add 6 or 8 more.

This would seem to indicate that the move to streamline house operations by reducing the number of committees will be abandoned. The majority group is always under pressure to provide committee chairmanships to veteran members. Two years ago Hall succeeded in reducing the number of committees from 50 to 30, but Hartle's statement indicates the trend will be reversed in 1949.

W. C. T. U. News Notes

The local W. C. T. U. met at the Old People's Home Monday evening for their Christmas program.

Mrs. Lanska called the meeting to order. This was followed by a trumpet solo by Vernon McMahon.

Rev. Larson, superintendent of the Home for the Aged led in devotions.

The men's quartet consisting of Rev. G. P. Ronholm, Wm. Gilbertson, Alfred Lasseson and Bernard Lanska sang two groups of selections.

Miss Patricia Smith played a piano solo.

Rev. Wesley Lindblom gave a message on "The "Shepherds" from Luke 2:15-20.

Miss Mary Frances Cook, district president, spoke on behalf of the W. C. T. U. telling about the early beginnings of this world wide organization. There are now 7,000 W. C. T. U. members in Minnesota alone. Our goal this year is 10,000 members.

Last year our local W. C. T. U. sent more relief packages than any other group in this district. We now have 6 packages ready to mail. A special fund for postage will be received at the lunch table.

Hostesses were Mrs. Herb Jung, Mrs. C. R. Rose, Misses Anna and Hilda Ahlberg, Mrs. Sandland, Mrs. Dow, and Mrs. Bernard Lanska.

Have Tree Base Stand In Water

Christmas trees, like flowers, will respond to being kept with the base in the water. Here are two simple things to do if you want your tree to stay green and fresh.

Buy a tree which has been cut as recently as possible.

Cut off the end of the trunk diagonally, at least one inch above the original cut. This will expose a moist surface which will absorb water. Stand the trunk of the tree in water at once, and, if it is not to be taken into the house for several days, keep it in a cool place.

Mrs. Albert Halvorson Funeral Services Held December 10 at Viking

Mrs. Inga Halvorson of Viking passed away at her home, Dec. 4th. She was 57 years old. Inga Regina Nelson was born November 7, 1891, in New Solum township. Four brothers and three sisters have preceded her in death.

She spent the early years of her life in New Solum. On April 10,1920 she was united in marriage to Albert Halvorson and lived on several farms in the Viking community until her death.

Mrs. Halvorson was a member of the Zion Lutheran church in Viking where she was active in the ladies aid and ladies chorus. She was also a member of the American Legion Auxiliary unit 424.

Funeral services were held in the Zion Lutheran church at Viking on Dec. 10th with Rev. Carl T. Thompson officiating. She was laid to rest in the Bethlehem cemetery in New Solum.

Left to mourn her passing are her husband Albert, Alvin and Nina Halvorson of Oslo; Willmer and Marceline Gatchell of Albuquerque, N. Mexico; Kenneth and Evodia Cook of Wheatland, Wyo.; Lois, veronica and Marie Halvorson at home; three grandchildren; Marcia Gatchell, Jean and Gloria Halvorson; two sisters, Mrs. Andrew Brainerd of Portland, N. D., Mrs. R. R. Werline of Alexandria and one brother Myer Nelson of Pillager.

Out-of-town relatives attending were Mr. and Mrs. Willmer Gatchell of Albuquerque, N. Mexico, Mrs. Kenneth Cook of Wheatland, Wyo., Mr. and Mrs. R. R. Werline, Donna and Mina of Alexandria, Minn.

Cooking Fish

Most important thing to remember in cooking fish is that it too often is overcooked. Just enough cooking to enable the flesh to be flaked easily from the bones will leave the fish moist and tender and bring out its delicate flavor.

"Here's why I changed to DE LAVAL MAGNETIC SPEEDWAY MILKING"
MR. MERLE R. COUGHENOUR, R.D. 1, Salisbury, Pa., shown with his wife and daughter, gives four reasons why he changed from another make of milker to the De Laval Magnetic Speedway:
1—We could not control high bacteria counts.
2—We could not milk cows dry.
3—The machine milked too slow.
4—The pulsations were always uneven.

Mail Carriers Request Postoffice Patrons to Use Their Snow Shovels

City carriers and parcel post delivery carriers will appreciate it very much if patrons will keep their walk from the house to the street shoveled out for their convenience, said Postmaster Andrew Anderson.

It is realized that it is impossible for every one to keep their front walk clean at all times but from the street to the house should only be a small job, he said.

Another way to improve mail service is to leave the porch door unlocked so the parcel post carrier can leave parcels on the inside of porch out of the weather and snow.

"Christmas Carol"

The Christ-child lay on Mary's lap,
His hair was like a light.
(O weary, weary were the world,
But here is all aright.)

The Christ-child lay on Mary's breast,
His hair was like a star.
(O stern and cunning are the kings,
But here the true hearts are.)

The Christ-child lay on Mary's heart,
His hair was like a fire.
(O weary, weary is the world,
But here the world's desire.)

The Christ-child stood at Mary's knee,
His hair was like a crown,
And all the flowers looked up at Him,
And all the stars looked down.

Rites Monday for Theo Christianson, Former Governor

Funeral rites were held Monday at Dawson, Minnesota for Theodore Christianson, former governor, who died unexpectedly last Thursday evening of a heart attack sustained while on an automobile trip near his home at Dawson.

For some time Mr. Christianson had resided in Chicago, where he was connected with a national retail druggist association but he resigned that position some time ago and had been making his home in Dawson, where he once published the Dawson Sentinel before becoming governor.

The Christiansons had planned to go to Minneapolis next week to stay with the governor's sons over the Christmas holidays, then continuing on to Florida for the winter.

Born Sept. 12, 1883 on a farm near Dawson, Mr. Christianson was educated in schools there and at the University of Minnesota, first obtaining an arts degree and later, through night study while principal of Robbinsdale grade school, got his law degree.

It was while publishing the weekly newspaper at Dawson that he was elected to the Minnesota state legislature, serving in the house in the five sessions of 1915 through 1923. He had bought the Sentinel in 1909.

He served on the house interim committee that drew up the plan for the reorganization act, under which the "Big Three" was created.

In 1924, on a platform of economy he won the Republican nomination for governor against five rivals, and in the final fall election, defeated Floyd B. Olson, Hennepin county attorney, the Farmer-Labor candidate. He served three terms as governor.

Christianson also had served as a Minnesota congressman from 1935 to 1937 after an earlier unsuccessful attempt to defeat the late U. S. Senator Thomas D. Schall.

Job Office Here Reports Employment in City Now Is Highest Since July

A 5.3 per cent decline in construction employment in Thief River Falls from October to November was more than offset by a five percent gain in employment in local trade, it is revealed in the December issue of Labor Market Trends, monthly survey of the local employment office. The reports notes that at present there is a very light demand for semi-skilled or unskilled labor, and there is an acute shortage of restaurant help. Total employment in Thief River Falls is listed at 2,905, the highest figure since last July.

Christmas is a combination of the words Christ and Mass, celebrating the nativity of Christ Jesus. The abbreviation Xmas is the Greek letter chi(X), the initial of Christ or Christian, plus the short word Mass.

PUBLIC CAUTIONED TO AVOID MISHAPS DURING HOLIDAYS

National Safety Council Urges Caution in Home and on the Highway

"Don't Let Death Take Your Holiday!"

That slogan will keynote the National Safety Council's nationwide campaign to hold down the huge Christmas-New Year's accident toll.

Each year accidents cast a shadow on the holiday celebration of thousands of families throughout the nation, according to Council figures which show the year-end holiday season to be the most dangerous period in the year.

Joining forces with the Council in a united effort to call public attention to the extra holiday hazards and the extra caution needed to overcome them are city and state officials, civic groups, local safety councils, and 130 national organizations.

The Council said that heavier travel and the festive spirit of the holiday season add to the normal winter hazards such as bad weather, slippery roads and more hours of darkness. Traffic accident deaths on both Christmas Eve and Christmas Day total more than two or three times the annual daily average.

"Every family in the country looks forward to Christmas as the time for joy and celebration, and that is what the holiday period should be," said Ned H. Dearborn, president of the Council.

"But every year thousands of families see Christmas joy turned into suffering and tragedy because of unnecessary and preventable accidents.

"To keep death from taking your holiday costs nothing, takes no time and requires only a little effort—refusing to take the drink you can't handle, yielding the right-of-way, waiting for the light to change, discarding a string of Christmas tree lights with worn insulation."

MOTHERS AND STORK HAVE ANNUAL TRYST

Minneapolis.—In the fall of 1947 Mrs. Duane Pierson, Mrs. Richard Morris, and Mr. Richard Sloss were billeted together in a local hospital when two girls and a boy took lodging with them. This year Mrs. Pierson and Mrs. Morris were again in the same room in the same hospital when baby boys came, and Mrs. Sloss thinks pretty soon her David may have a sister

U. S. POPULATION OVER 147 MILLION

Census Bureau Estimates Total as of October 1st

This country's population reached 147,280,000 on October 1, the census bureau estimated last week.

Although that is the highest ever recorded, the bureau said the rate of increase has slowed down from last year's pace. Nevertheless the 1948 expansion will top any other year's.

The bureau's figures included about 466,000 persons in the armed forces overseas and about 926,000 in military service in this country.

Population growth in the first nine months of 1948 amounted to about 1,800,000 persons, an average increase of about 200,000 a month. In the corresponding period of 1947, there was an increase of about 2,100,000 persons, an average of over 233,000 a month. Since the last actual count on April 1, 1940, the population total has risen by about 15,500,000 persons.

Internal revenue collections in Minnesota went up from $612,200,191 in 1947 to [illegible],239 in 1948. U. S. total went from $39 to $42 billion.

103 HEALTHY YEARS, THEN A HOSPITAL!

Minneapolis.—Mrs. Anna Jacobson, 3240 Humboldt Avenue South, has three pretty good records to her credit. She has lived to be 103 years old, which in itself is no mean accomplishment. She stayed out of hospitals 102 years and 46 weeks of that time. And when she finally became a hospital patient, she also became the first woman of her age in recorded medical annals to survive an operation for a broken hip.

Santa Claus School Trains Jolly Gents

In a colonial farmhouse at Albion, N. Y., there's a Santa Claus school and it's the only educational institution of its kind in the world.

Graduates wear white wig and whiskers, red suit trimmed in white fur, wide white belt, and black leather boots.

A course at the school prepares the prospective Santa Claus to properly shake when he laughs like a bowl full of jelly, remain calm when a child glares and yells "there ain't no Santa Claus" and maintain proper diplomatic relations with a parent who thinks Santa has given her tot the brushoff.

NEW TAX LAWS ARE BENEFIT LOCALLY

Subdivisions Here Get Liquor and Cigaret Taxes

How much local units of government have benefited from the new laws passed in 1947 authorizing distribution of a portion of the proceeds of the new cigarette tax and the increased liquor tax to local governments was shown in a report compiled this week in the office of Earl Berg, state commissioner of administration.

From the proceeds of the liquor tax and the cigarette tax together, local units of government in Pennington county, it was shown, have received $31,765 in state funds in the past year, first year of operation under the new laws. For Marshall county the total was $43,175, and for Red Lake County $18,235.

In the state as a whole, the laws have resulted in a distribution of $6,869,058 of state collected funds to local units of government, Berg's tabulation shows. Of the total aid apportioned to the local governments, $2,708,531 came from the cigarette tax, and $4,160,527 came from the liquor tax.

The cigarette and liquor tax money is distributed to the local units of government in proportion to population. Each municipality and each township gets an allotment from the liquor tax. The county government is allowed only the allotment represented by the population living in unorganized territory. The same plan of distribution is followed in the cigarette tax distribution except that townships do not share in this apportionment, and the county government gets the proportion represented by the population in rural communities.

Cannon Fire Hails Christmas in Rome

A cannon fired from the historic Castle of San Angelo at sunset on Christmas Eve proclaims the beginning of the Holy Season in Rome. By nine o'clock everyone is in church to witness the colorful and solemn processions of ecclesiastic dignitaries which precede the elaborate midnight Mass.

Since everyone has fasted for twenty-four hours, festive banquets are in order after the religious solemnities. It is a gala after-midnight in Rome: hotels and restaurants remain open, families and friends gather around sumptuous tables in gaily decorated homes; and in anticipation of the festivities, many people attend church dressed in formal attire.

Between Christmas and Epiphany, the Calabrian shepherds—Pifferani—revisit the homes where they were most cordially welcomed during Advent when they came down from the hills to play their Italian bagpipes before the shrines of the Virgin. The Pifferani play for their Advent hosts during the post-Christmas holidays and receive gifts of wine, dried figs, and small sums of money from their hosts.

FIRE CHIEF WARNS OF FIRE HAZARDS DURING HOLIDAYS

Fire Chief Langevin Offers Suggestions for Preventing Fires

Fire department records show that almost every year during the Christmas season, one or more families in the city have a fire of some kind due to the mishandling of combustible materials, such as trees and gift wrapping paper, fire chief Roy Langevin said today.

One of the most common causes of fire at Christmas is caused by putting too much gift wrapping paper into a stove or furnace at one time. This causes a chimney fire and overheating the heating system and in many cases sparks ignite roofs.

Chief Langevin offered the following suggestions:

Keep your tree away from exits. Dont trap yourself or your family. Keep your tree away from curtains and drapes.

Repair or replace bare or frayed wires.

When you purchase cotton and other tree trimmings insist on flame resistant materials. The cost is very little more. Don't cover your wall outlet with cotton. The tiny spark that is caused by pulling the plug out of the wall outlet has caused many fires in non flameproof cotton.

Get rid of your tree when it is so dry that it starts to shed its needles.

Never use candles.

GIVE YOUR CHILDREN

Stronger, healthier bodies,

With which to go into lifes productive period,

By supplying plenty of City Dairy milk in their diet, for it is

A balanced child food.
